What Not to Do When You Find a Spaceship Drake Highlander,2008-08 For some retail leaders, intense competition and changing shopping patterns have created a radical rethinking of strategic focus. This has resulted in a fundamental shift from the traditional emphasis on the 4-Ps of the marketing-mix (product, price, promotion, place) to a focus instead on the overall shopping experience. This emerging shift has, in turn, placed good to great performance as the governing vision and cornerstone of market advantage. Such a vision has been applied to every aspect of the company's commitment to operational excellence and customer focus in fulfillment of their brand promise. It is in this context that Great Store Performance finds its timely relevance and compelling appeal. This book focuses exclusively on the subject of great store performance; what it means in distinction to typically good store performance, why its sustained achievement is so elusive and what is required to make its consistent achievement a reality to achieve and sustain market advantage. The recommendations offered in this book are based on the important findings and conclusions of extensive and groundbreaking field research conducted in over one thousand field executive store visits within several major chain store retailers over the past neatly two decades. Because this is the only book available that deals specifically with the discipline and challenges of retail field leadership, and which is written primarily and directly to and for retail field executives and senior level executives, it promises to be a unique and invaluable contribution.

Star Wars: Rebel Force: Firefight Alex Wheeler,2014-06-24 In this fourth volume of the Rebel Force series, deadly assassin X-7 has never failed to complete a mission—until now. And although he narrowly escaped from the Rebels with his life, he will not return to Commander Rezi Soresh until Luke Skywalker has been eliminated. Planet Blue - Tranquility Sphere Robert Morris,2002-09-26 For fifteen years, Ben Keylord has felt anguish and guilt over losing his only son. The boy's mother insists that there was nothing anybody could have done to save their son and the other newborns from a malfunctioning mega-computer and the hundreds of service androids under its control. But the guilt, the haunting memories, and his incredible sense of loss, proved to be too much for him to live with. His love for his son had never faded in the thousands of light-years separating them. It was a distance of space-time surmountable, but only with the science and technology he used to know, years ago, on his former planet-Planet Blue. But now he was stuck on a hot, desert planet, a refugee slaving on a farm to feed his family. No science and only the most basic technology could be found on this dry, yellow world. But, there was an ancient form of magic called the Power of Azron, and Ben Keylord would let nothing and nobody stand in his way in his attempt to acquire the use of this power-not the evil Ghorelian god Mandahn Sandsahn, not an angry Ghorelian convict, and not even a deadly climb up a crumbling mountain spire. Whatever the odds, life in his favor or death nipping at his heels, he would try his best to climb the haunted Black Mountains to acquire the Power, then attempt to reunite with the son he has loved forever and missed for too long.

Tales of the Bounty Hunters: Star Wars Legends Kevin Anderson,2011-06-28 In a wild and battle-scarred galaxy, assassins, pirates, smugglers, and cutthroats of every description roam at will, fearing only the professional bounty hunters-amoral adventurers who track down the scum of the universe...for a fee. When Darth Vader seeks to strike at the heart of the Rebellion by targeting Han Solo and the Millennium Falcon, he calls upon six of the most successful-and feared-hunters, including the merciless Boba Fett. They all have two things in common: lust for profit and contempt for life... Featuring original stories by Kevin J. Anderson, M. Shayne Bell, Daniel Keys Moran, Kathy Tyers and Dave Wolverton. Features a bonus section following the novel that includes a primer on the Star Wars expanded universe, and over half a dozen excerpts from some of the most popular Star Wars books of the last thirty years!

Star Wars: Dawn of the Jedi: Into the Void Tim Lebbon,2014-03-13 Discover the origins of the Jedi order, as a lone Je'daii ranger fights to save their ancient homeworld, Tython, from disaster. On the planet Tython, the ancient Je'daii order was founded. And at the feet of its wise Masters, Lanoree Brock learned the mysteries and methods of the Force-and found her calling as one of its most powerful disciples. But as strongly as the Force flowed within Lanoree and her parents, it remained absent in her brother, who grew to despise and shun the Je'daii, and whose training in its ancient ways ended in tragedy. Now, from her solitary life as a Ranger keeping order across the galaxy, Lanoree has been summoned by the Je'daii Council on a matter of utmost urgency. The leader of a fanatical cult, obsessed with traveling beyond the reaches of known space, is bent on opening a cosmic gateway using dreaded dark matter as the key-risking a cataclysmic reaction that will consume the entire star system. But more shocking to Lanoree than even the prospect of total galactic annihilation, is the decision of her Je'daii Masters to task her with the mission of preventing it. Until a staggering revelation makes clear why she was chosen: The brilliant, dangerous madman she must track down and stop at any cost is the brother whose death she has long grieved-and whose life she must now fear.

Yet when the three Great Lords demanded the gods leave the planet, promising to take care of it for them, the gods of Genesis left. After their departure, the three Great Lords created two sons, Decorus and Dementis. Unfortunately, the creation of Decorus and Dementis begins the destruction of the planet.
