Hip Hop around the World [2 volumes] Melissa Ursula Dawn Goldsmith, Anthony J. Fonseca, 2018-12-01 This set covers all aspects of international hip hop as expressed through music, art, fashion, dance, and political activity. Hip hop music has gone from being a marginalized genre in the late 1980s to the predominant style of music in America, the UK, Nigeria, South Africa, and other countries around the world. Hip Hop around the World includes more than 450 entries on global hip hop culture as it includes music, art, fashion, dance, social and cultural movements, organizations, and styles of hip hop. Virtually every country is represented in the text. Most of the entries focus on music styles and notable musicians and are unique in that they discuss the sound of various hip hop styles and musical artists' lyrical content, vocal delivery, vocal ranges, and more. Many additional entries deal with dance styles, such as breakdancing or b-boying/b-girling, popping/locking, clowning, and krumping, and cultural movements, such as black nationalism, Nation of Islam, Five Percent Nation, and Universal Zulu Nation. Country entries take into account politics, history, language, authenticity, and personal and community identification. Special care is taken to draw relationships

between people and entities such as mentor-apprentice, producer-musician, and more.

Shoulda Been Higher Tom W Clarke,2023-10-01 The Hottest 100 is a national institution. For 30 years, triple j has held an annual countdown of its listeners' 100 favourite songs of the year, as voted by the public. It has evolved into the single most anticipated musical event of every year for millions of Australians. The Hottest 100 is so much more than music. It's beaches, barbeques, and bonfires. It's joy and despair, drama and debate, friendship and community. This book is a celebration of everything that makes the world's greatest musical democracy so damn iconic. Shoulda Been Higher is the definitive account of the Hottest 100 - a comedic chronicle and love letter. It's the complete picture from Augie March to Ziggy Alberts, 'Amazing' to 'Zombie'.

Family History and Historians in Australia and New Zealand

Malcolm Allbrook, Sophie Scott-Brown, 2021-06-27 Since the turn of the twenty-first century, family history is the place where two great oceans of research are meeting: family historians outside the academy, with traditionally trained, often university-employed historians. This collection is both a testament to dialogue and an analysis of the dynamics of recent family history that derives from the confluence of professional historians with family historians, their common causes and conversations. It brings together leading and emerging Australian and New Zealand scholars to consider the relationship between family history and the discipline of history, and the potential of family history to extend the scope of historical inquiry, even to revitalise the discipline. In Anglo-Western culture, the roots of the discipline's professionalisation lay in efforts to reconstruct history as objective knowledge, to extend its subject matter and to enlarge the scale of historical enquiry. Family history, almost by definition, is often inescapably personal and localised. How, then, have historians responded to this resurgence of interest in the personal and the local, and how has it influenced the thought and practice of historical enquiry?

Music Business and the Experience Economy Peter

Tschmuck, Philip L. Pearce, Steven Campbell, 2013-04-16 Music

Business and the Experience Economy is the first book on the music business in Australasia from an academic perspective. In a cross-disciplinary approach, the contributions deal with a wide-range of topics concerning the production, distribution and consumption of music in the digital age. The interrelationship of legal, aesthetic and economic aspects in the production of music in Australasia is also highlighted as well as the emergence of new business models, the role of P2P file sharing, and the live music sector. In addition, the impact of the digital revolution on music experience and valuation, the role of music for tourism and for branding, and last but not least the developments of higher music education, are discussed from different perspectives.

Hilltop Hoods' The Calling Dianne Rodger,2023-07-13 The success of the Hip-Hop album The Calling (2003) by the Hilltop Hoods was a major event on the timeline of Hip-Hop in Australia. It launched a formerly 'underground' scene into the spotlight, radically transforming the group members' lives and creating new

opportunities for other Hip-Hop artists. This book analyses the impact of the album by drawing on original interviews with fifteen Hip-Hop practitioners from across Australia, including artists who contributed to the album. These primary interviews are interwoven with material from media sources and close readings of song lyrics and album imagery. An exploration of the early histories of Hip-Hop in Australia with a focus on the formation of Obese Records and the Hilltop Hoods' biography gives way to analysis of specific tracks from the album and the Hoods' prowess as live performers. The book uses *The Calling* as a lens to examine the beliefs and practices of Hip-Hop enthusiasts in Australia, including changes since the album was released. Published in 2023 to coincide with the album's twenty-year anniversary, the book is an engaging evaluation of a musical release that was so significant that people now use it explain two distinct periods in Australian Hip-Hop (pre or post *The Calling*).

Gudinski Stuart Coupe, 2015-07-28 The real story of the man behind the bands - and a backstage pass to forty years of Australian rock music. Known to many as GODinski, Michael Gudinski is unquestionably the most powerful and influential figure in the Australian rock'n'roll music business - and has been for the last four decades. Often referred to as 'the father of the Australian music industry', he has nurtured the careers of many artists - Kylie Minogue, Jimmy Barnes, Paul Kelly, Skyhooks, Split Enz, Yothu Yindi, to name just a few. But his reach isn't limited to Australian artists. With his Frontier Touring Company, Gudinski has toured The Rolling Stones, Frank Sinatra, Bob Dylan, Bruce Springsteen, Madonna, Sting ... pretty much a who's who of the arena level international music scene. A self-made multi-millionaire, Gudinski is the Australian equivalent of Richard Branson or David Geffen, but who is this tough, inspired, flamboyant and impassioned businessman who has shaped Australian popular culture? Where did he come from, and how has he stayed relevant for so long in an industry notorious for its fickleness? Rock journalist Stuart Coupe delves into Gudinski's life to find the answers - and in doing so gives us a backstage pass to forty years of Australian rock.

An Anthology of Australian Albums Jon Stratton, Jon Dale, Tony Mitchell, 2020-01-09 An Anthology of Australian Albums offers an overview of Australian popular music through the lens of significant, yet sometimes overlooked, Australian albums. Chapters explore the unique qualities of each album within a broader history of Australian popular music. Artists covered range from the older and non-mainstream yet influential, such as the Missing Links, Wendy Saddington and the Coloured Balls, to those who have achieved very recent success (Courtney Barnett, Dami Im and Flume) and whose work contributes to international pop music (Sia), to the more exploratory or experimental (Curse ov Dialect and A.B. Original). Collectively the albums and artists covered contribute to a view of Australian popular music through the non-canonical, emphasizing albums by women, non-white artists and Indigenous artists, and expanding the focus to include genres outside of rock

including hip hop, black metal and country.

The Art of Theatrical Sound Design Victoria

Deiorio,2018-09-20 Emphasising the artistry behind the decisions made by theatrical sound designers, this guide is for anyone seeking to understand the nature of sound and how to apply it to the stage. Through tried-and-tested advice and lessons in practical application, *The Art of Theatrical Sound Design* allows developing artists to apply psychology, physiology, sociology, anthropology and all aspects of sound phenomenology to theatrical sound design. Structured in three parts, the book explores, theoretically, how human beings perceive the vibration of sound; offers exercises to develop support for storytelling by creating an emotional journey for the audience; considers how to collaborate and communicate as a theatre artist; and discusses how to create a cohesive sound design for the stage.

*The Central Swirl*io Quiche de Flurry,2021-11-26 The antagonist of this series is barely mentioned in this book. His name is Chronotix Zeit Genrai Denbora and carries in distinction, one vertical eye. His murderers thought that it might be a tad rude that this great majister lacks a bigger part, and so convinced me to honor him with some cover time. As art is not my forte, this on the left is the best that I managed to do. Yes, they had killed him, the three of them. The magnate billionaire, the time traveler and the Chief Commisioner of the Interplanetary Alliance. Before they are able to come to terms with what has transpired, they are kidnapped by an alien race known only as the Ziggonians. They board the alien spacecraft and soar through the endless vastness of space in order to face trial for their crimes at the tribunal of the galaxies of souls. Tasked with their defense, the Eye of Chimera using the Mindmeld 3000, digs through and spins awake their everlong memories. Beginning in a world before this one, a yesterworld lightweight and airy, with only a fraction of Earths present day gravity. Where giants and dinosaurs still roam freely throughout the lands. The seven realms vie for dominance in a world where all is decided by way of combat. And anyone knows that any combateer

worth their mettle has traveled at least one heavy air to completion at one of the rims of the world. Another spring equinox approaches and with it the chance to win the combat rights to chase the heavy air.
