Alec Wilkinson

*The Ice Balloon* Alec Wilkinson,2013-01-08 In 1897, at the height of the heroic age of Arctic exploration, the visionary Swedish explorer S. A. Andrée made a revolutionary attempt to discover the North Pole by flying over it in a hydrogen balloon. Thirty-three years later, his expedition diaries and papers would be discovered on the ice. Alec Wilkinson uses the explorer's papers and contemporary sources to tell the full story of this ambitious voyage, while also showing how the late 19th century's spirit of exploration and scientific discovery drove over 1,000 explorers to the unforgiving Arctic landscape. Suspenseful and haunting, Wilkinson captures Andrée's remarkable adventure and illuminates the detail, beauty, and devastating conditions of traveling and dwelling on the ice.

**The First Voyage Around the World, 1519-1522** Antonio Pigafetta,2007-01-01 The First Voyage around the World is also a remarkably accurate ethnographic and geographical account of the circumnavigation, and one that has earned its reputation among modern historiographers and students of the early contacts between Europe and the East Indies.

**The Importance of Mangroves to People** Norman Clive Duke,2014 This global synthesis report serves as a call to action to decision makers. It provides a science-based synthesis of the different types of goods and services provided by mangroves and the associated risks in losing these services in the face of ongoing global habitat loss and degradation. The report provides management and policy options at the local, regional and global level with the aim of preventing further losses through effective conservation measures, sustainable management and successful restoration. In addition to the report, key figures and maps are available to download as individual files.--Publisher's description.

*Open Veins of Latin America* Eduardo Galeano,1997 [In this book, the author's] analysis of the effects and causes of capitalist underdevelopment in Latin America present [an] account of ... Latin American history. [The author] shows how foreign companies reaped huge profits through their operations in Latin America. He explains the politics of the Latin American bourgeoisies and their subservience to foreign powers, and how they interacted to create increasingly unequal capitalist societies in Latin America.-Back cover.

**Judgment Misguided** Jonathan Baron,1998 People often follow intuitive principles of decision making, ranging from group loyalty to the belief that nature is benign. But instead of using these principles as rules of thumb, we often treat them as absolutes and ignore the consequences of following them blindly. In *Judgment Misguided*, Jonathan Baron explores our well-meant and deeply felt personal intuitions about what is right and wrong, and how they affect the public domain. Baron argues that when these intuitions are valued in their own right, rather than as a means to another end, they often prevent us from achieving the results we want. Focusing on cases where our intuitive principles take over public decision making, the book examines some of our most common intuitions and the ways they can be misused. According to Baron, we can avoid these problems by paying more attention to the effects of our decisions. Written in a accessible style, the book is filled with compelling case studies, such as abortion, nuclear power, immigration, and the decline of the Atlantic fishery, among others, which illustrate a range of intuitions and how they impede the public's best interests. *Judgment Misguided* will be important reading for those involved in public decision making, and researchers and students in psychology and the social sciences, as well as everyone looking for insight into the decisions that affect us all.

**An Introduction to Instructional Services in Academic Libraries** Elizabeth Connor,2008 This work provides librarians with a much-needed introduction to instruction in college and university libraries. Filled with real world case studies that can be directly applied to classroom use and on-the-job training, the text brings together many experienced librarian-instructors to detail their professional experiences.

*International Corporate Finance, + Website* Laurent L. Jacque,2014-03-24 A thorough introduction to corporate finance from a renowned professor of finance and banking As globalization redefines the field of corporate finance, international and domestic finance have become almost inseparably intertwined. It's increasingly difficult to understand what is happening in capital markets without a firm grasp of currency markets, the investment strategies of sovereign wealth funds, carry trade, and foreign exchange derivatives products. *International Corporate Finance* offers thorough coverage of the international monetary climate, including Islamic finance, Asian banking, and cross-border mergers and acquisitions. Additionally, the book offers keen insight on global capital markets, equity markets, and bond markets, as well as foreign exchange risk management and how to forecast exchange rates. Offers a comprehensive discussion of the current state of international corporate finance Provides simple rules and pragmatic answers to key managerial questions and issues Includes case studies and real-world decision-making situations For anyone who wants to understand how finance works in today's hyper-connected global economy, *International Corporate Finance* is an insightful, practical guide to this complex subject.

**A Cognitive Psychology of Mass Communication** Richard Jackson Harris,Fred W. Sanborn,2009-05-19 In this fifth edition of *A Cognitive Psychology of Mass Communication*, author Richard Jackson Harris continues his examination of how our experiences with media affect the way we acquire knowledge about the world, and how this knowledge influences our attitudes and behavior. Presenting theories from psychology and communication along with reviews of the corresponding research, this text covers a wide variety of media and media issues, ranging from the commonly discussed topics – sex, violence, advertising – to lesser-studied topics, such as values, sports, and entertainment education. The fifth and fully updated edition offers: highly accessible and engaging writing contemporary references to all types of media familiar to students substantial discussion of theories and research, including interpretations of original research studies a balanced approach to covering the breadth and depth of the subject discussion of work from both psychology and media disciplines. The text is appropriate for Media Effects, Media & Society, and Psychology of Mass Media coursework, as it examines the effects of mass media on human cognitions, attitudes, and behaviors through empirical social science research; teaches students how to examine and evaluate mediated messages; and includes mass communication research, theory and analysis.

**Fingerprints of the Gods** Graham Hancock,2012-09-19 Could the story of mankind be far older than we have previously believed? Using tools as varied as archaeo-astronomy, geology, and computer analysis of ancient myths, Graham Hancock presents a compelling case to suggest that it is. Graham Hancock is featured in *Ancient Apocalypse*, a Netflix original docuseries. “A fancy piece of historical sleuthing . . . intriguing and entertaining and sturdy enough to give a long pause for thought.”—Kirkus Reviews In *Fingerprints of the Gods*, Hancock embarks on a worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind's hidden past. In ancient monuments as far apart as Egypt's Great Sphinx, the strange Andean ruins of Tihuanaco, and Mexico's awe-inspiring Temples of the Sun and Moon, he reveals not only the clear fingerprints of an as-yet-unidentified civilization of remote antiquity, but also startling evidence of its vast sophistication, technological advancement, and evolved scientific knowledge. A record-breaking number one bestseller in Britain, *Fingerprints of the Gods* contains the makings of an intellectual revolution, a dramatic and irreversible change in the way that we understand our past—and so our future. And *Fingerprints of God* tells us something more. As we recover the truth about prehistory, and discover the real meaning of ancient myths and monuments, it becomes apparent that a warning has been handed down to us, a warning of terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time—a cataclysm that may be about to recur. “Readers will hugely enjoy their quest in these pages of inspired storytelling.”—The Times (UK)

**Communicating Science** Toss Gascoigne,Bernard Schiele,Joan Leach,Michelle Riedlinger,Luisa Massarani,Bruce V. Lewenstein,Peter Broks,2020-09-14 Modern science communication has emerged in the twentieth century as a field of study, a body of practice and a profession—and it is a practice with deep historical roots. We have seen the birth of interactive science centres, the first university actions in teaching and conducting research, and a sharp growth in employment of science communicators. This collection charts the emergence of modern science communication across the world. This is the first volume to map investment around the globe in science centres, university courses and research, publications and conferences as well as tell the national stories of science communication. How did it all begin? How has development varied from one country to another? What motivated governments, institutions and people to see science communication as an answer to questions of the social place of science? *Communicating Science* describes the pathways followed by 39 different countries. All continents and many cultures are represented. For some countries, this is the first time that their science communication story has been told.

**Cosmic Society** Peter Dickens,James S. Ormrod,2007-11-08 Space weaponry, satellite surveillance and communications, and private space travel are all means in which outer space is being humanized: incorporated into society's projects. But what are the political implications of society not only being globalized, but becoming 'cosmic'? Our ideas about society have long affected, and been affected by, our understanding of the universe: large sections of our economy and society are now organized around humanity's use of outer space. Our view of the universe, our increasingly 'cosmic' society, and even human consciousness are being transformed by new relations with the cosmos. As the first sociological book to tackle humanity's relationship with the universe, this fascinating volume links social theory to classical and contemporary science, and proposes a new 'cosmic' social theory. Written in a punchy, student-friendly style, this timely book engages with a range of topical issues, including cyberspace, terrorism, tourism, surveillance and globalization.

**The Coldest Coast** P. J. Capelotti,2021-06-15 This book describes the 1873 voyage of the British explorer Benjamin Leigh Smith, based on the diaries and photographs of Lieutenant Herbert C. Chermshire, who joined the expedition of the seas around Svalbard. Chermshire's photographs, long believed lost, have recently been uncovered in Sweden and are being curated there by the Grenna Museum. The three unpublished diaries of Herbert Chermshire were lent to the Scott Polar Research Institute in 1939 by Mrs. Benjamin Leigh Smith. For the first time, Chermshire's diaries are published in their entirety, with the original photographs shown alongside modern images of the same locations. This includes the first photographic record of the north coast of Svalbard, images that are today being used as comparative data for the study of climate change in the archipelago. The diaries have been fully transcribed and edited. Introductory chapters are included, written by specialists in the history of exploration, history of science, and the history of photography from Penn State University, the University of Gothenburg, and UiT, the Arctic University of Norway, as well as contributors from the UK and Germany. This volume is published in association with Grenna Museum, which will present Chermshire's photographs in a 2022 exhibit on Leigh Smith and A.E. Nordenskiöld.

Backpacker ,2004-03 Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

**Among Stone Giants** JoAnne Van Tilburg,2003 A portrait of the first woman archaeologist to work in Polynesia documents Routledge's experiences on Easter Island, beginning with the launch of the 1913 Mana Expedition and continuing with her emersion into local customs and beliefs and battle with schizophrenia.

*Broadening the Genetic Base of Crop Production* H. David Cooper,Charlie Spillane,T. Hodgkin,2001 This book focuses on the previously neglected interface between the conservation of plant genetic resources and their utilization. Only through utilization can the potential value of conserved genetic resources be realized. However, as this book shows, much conserved germplasm has to be subjected to long-term pre-breeding and genetic enhancement before it can be used in plant breeding programs.The authors explore the rationale and approaches for such pre-breeding efforts as the basis for broadening the genetic bases of crop production. Examples from a range of major food crops are presented and issues analyzed by leading authorities from around the world.
