**Millennium** Jorge Zamacona,1998-05-01 When a Missouri state trooper is shot, the evidence points to a serial killer who eluded criminal profiler Frank Black during his years with the FBI. Now, for Frank and the Millennium Group, this case is a welcome second chance at capture. Based on the apocalyptic new television series, these riveting novelizations capture the vision and excitement of the show from the creator of The X-Files, Chris Carter.

**The Fourth Turning** William Strauss,Neil Howe,1997-12-29 NATIONAL BESTSELLER • Discover the game-changing theory of the cycles of history and what past generations can teach us about living through times of upheaval—with deep insights into the roles that Boomers, Generation X, and Millennials have to play. First comes a High, a period of confident expansion. Next comes an Awakening, a time of spiritual exploration and rebellion. Then comes an Unraveling, in which individualism triumphs over crumbling institutions. Last comes a Crisis—the Fourth Turning—when society passes through a great and perilous gate in history. William Strauss and Neil Howe will change the way you see the world—and your place in it. With blazing originality, The Fourth Turning illuminates the past, explains the present, and reimagines the future. Most remarkably, it offers an utterly persuasive prophecy about how America's past will predict what comes next. Strauss and Howe base this vision on a provocative theory of American history. The authors look back five hundred years and uncover a distinct pattern: Modern history moves in cycles, each one lasting about the length of a long human life, each composed of four twenty-year eras—or “turnings”—that comprise history's seasonal rhythm of growth, maturation, entropy, and rebirth. Illustrating this cycle through a brilliant analysis of the post–World War II period, The Fourth Turning offers bold predictions about how all of us can prepare, individually and collectively, for this rendezvous with destiny.

**Back to Frank Black** Adam Chamberlain,Brian Dixon,Chris Carter,Lance Henriksen,Frank

Spotnitz,2012-10-01 In 1996, a groundbreaking television drama debuted on the Fox network. Created by Chris Carter, *Millennium* tells the story of Frank Black (Lance Henriksen), a legendary forensic profiler gifted with the ability to see into the minds of killers. Through his work as a consultant with the F.B.I. and the mysterious Millennium Group, the series offers a thoughtful exploration of the nature and manifestations of evil in the modern world. *Back to Frank Black* offers an unprecedented volume of material exploring this landmark series. With forewords from Lance Henriksen and Frank Spotnitz and an introduction by series creator Chris Carter, the collection features interviews with cast and crew as well as in-depth essays analyzing *Millennium*'s characters, themes, and enduring legacy. Inspired by the growing movement to return this iconic hero to the screen, *Back to Frank Black* finds its focus in an incomparable figure of hope: Frank Black. We need him now more than ever.

*Blood and Fire* David Gerrold,2003-12-02 With an introduction by D.C. Fontana The Morthans were physically and mentally superior. Descended from humans, they were now, literally, “more-than human ... and considered the human race to be little better than animals. They would stop at nothing to conquer the remaining human-controlled worlds. Formerly a never-filmed script for *Star Trek: The Next Generation*, this conclusion to the *Star Wolf* trilogy finds Executive Officer Korie and the crew of the *Star Wolf* answering a distress call from a mysteriously lifeless ship. On board the *Norway*, they discover half-wave, half-particle clusters of golden light—and a dead man. The lights are the energy form of bloodworms, a fatal infestation that feeds off the energy of living bodies, which scientists on the *Norway* have developed for use in the Alliance's war against the Morthans. Officer Korie's struggle between his conscience and his desire for vengeance will determine not only the safety of the *Star Wolf*, but the fate of the enemies he's sworn to destroy.

*The Literature of Reconstruction* Brook Thomas,2017-01-17 Reconstruction-era literature helped shape an ongoing national debate about proper remedies to racial wrongs. In this powerful book, Brook Thomas revisits the contested era of Reconstruction. He evokes literature's immediacy to recreate arguments still unresolved today about state versus federal authority, the government's role in education, the growing power of banks and corporations, the paternalism of social welfare, efforts to combat domestic terrorism, and the difficult question of who should rightly inherit the nation's past. Literature, Thomas argues, enables us to re-experience how Reconstruction was—and remains—a moral, economic, and political debate about which world should have emerged after the Civil War to mark the birth of a new nation. Drawing on neglected nineteenth-century historiographies and recent scholarship that extends the dates of Reconstruction in time while stretching its geographic reach beyond the South, *The Literature of Reconstruction* uses literary works to trace the complicated interrelations among the era's forces. Thomas also explores how these works bring into dialogue competing visions of possible worlds through chapters on reconciliation, federalism, the Ku Klux Klan, railroads, and inheritance. He contrasts well-known writers, including W. E. B. Du Bois, Thomas Dixon, and Charles W. Chesnutt, with relatively neglected ones, including Albion W. Tourgée, María Amparo Ruiz de Burton, and Constance Fenimore Woolson. Some authors opposed Reconstruction; others supported it; and still others struggled with mixed feelings. The world Thomas conjures up in this groundbreaking new study is one in which successful remedies to racial wrongs remain to be imagined.

*A Shopkeeper's Millennium* Paul E. Johnson,2004-06-21 A quarter-century after its first publication, *A Shopkeeper's Millennium* remains a landmark work--brilliant both as a new interpretation of the intimate

connections among politics, economy, and religion during the Second Great Awakening, and as a surprising portrait of a rapidly growing frontier city. The religious revival that transformed America in the 1820s, making it the most militantly Protestant nation on earth and spawning reform movements dedicated to temperance and to the abolition of slavery, had an especially powerful effect in Rochester, New York. Paul E. Johnson explores the reasons for the revival's spectacular success there, suggesting important links between its moral accounting and the city's new industrial world. In a new preface, he reassesses his evidence and his conclusions in this major work.

*Tourism and the Millennium Development Goals* Jarkko Saarinen,Christian M. Rogerson,Haretsebe Manwa,2013-10-31 In 2000 United Nations adopted the Millennium Development Goals (UN MDGs), committing the member nations to a new global partnership to reduce extreme poverty and setting out a series of specific targets with a deadline of 2015. Related to the UN MDGs, tourism is increasingly seen as a promising tool for poverty reduction, ensuring environmental sustainability and developing a global partnership for development, for example. Thus, the industry has become an important policy tool for community and regional development in many developing countries and the expectations for tourism and its social and economic outcomes have evolved to a high level. However, there are still many challenges to overcome in the relationship between tourism industry, development and poverty reduction. This book aims to discuss the promises, challenges and outcomes of tourism in development with a specific aim of drawing together research related to tourism and UN MDGs. The papers discuss what lessons can be learnt and conclusions drawn from the utilisation of tourism for development and poverty reduction. What emerges from this collection is a set of interesting results and notions which both support and challenge the connections between tourism and development and the new role of tourism in global development. This book is an extended version of a special issue published in Current Issues in Tourism.

Branding Black Womanhood Timeka N. Tounsel, 2022-06-17 CaShawn Thompson crafted *Black Girls Are Magic* as a proclamation of Black women's resilience in 2013. Less than five years later, it had been repurposed as a gateway to an attractive niche market. *Branding Black Womanhood: Media Citizenship from Black Power to Black Girl Magic* examines the commercial infrastructure that absorbed Thompson's mantra. While the terminology may have changed over the years, mainstream brands and mass media companies have consistently sought to acknowledge Black women's possession of a distinct magic or power when it suits their profit agendas. Beginning with the inception of the *Essence* brand in the late 1960s, Timeka N. Tounsel examines the individuals and institutions that have reconfigured Black women's empowerment as a business enterprise. Ultimately, these commercial gatekeepers have constructed an image economy that operates as both a sacred space for Black women and an easy hunting ground for their dollars.

*Shadowrun: Elfin Black* Jennifer Brozek, 2022-03-15 *TIES THAT BIND...* Mage Jonathan Leeds has built himself a comfortable life owning and operating an exclusive night club in London, far from the iron grasp of his family. But when his father, Gordon, abruptly summons him to the Seattle Metroplex, John finds himself a stranger in a strange land, thrown into the wilds of the 'Plex to manage a situation apparently only he can handle. Although he'd prefer to ignore his father's wishes, John knows that no one—family or foe—says no to Gordon Leeds. At least, not if they want to live to tell about it. But family obligations aren't the only reason John is in Seattle. His patron back in England, Lord Callen Nassau, has asked him to look for a missing woman. John is only too happy to oblige, as the elegant elf noble is everything his father is not. But when Gordon's and Callen's tasks intertwine in unexpected ways, John is forced to question everything he knows about both men, and soon discovers not all that glitters is gold. When the desires of these rich and powerful beings collide in the Sixth World, John finds himself a pawn in their vicious game. If he's to escape the Emerald City in one piece, John knows he must take control of the situation—any way he can—or suffer the lethal consequences.

*If You Don't Give Me Heaven* Noel Rogers, 2006-03-18 If you don't give me Heaven, I'll raise hell-'til it's Heaven -Jay-Z Go ahead, put this book down. You're probably one of those people who reads blurbs on the back of books and bases their decision on whether or not to buy it without even flipping through the pages. And even if you did you'd probably say, Whoa, this is way too thought-provoking. Let me see if that guy who wrote *The Da Vinci Code* has anything new out. I really enjoyed that book. So you'll put the book down and return to your mediocre unenlightened existence, having never experienced the genius of Noel Rogers. But don't let his ego fool you. The pages underneath this blurb are a giant bomb of knowledge that has waited twenty-eight years to drop into our collective consciousness. This is the most important book of the 21st Century-um, so far. Take a trip into the mind of an artist who began life scared and alone, grew up angry and doubtful, but ends up believing in anything, everything and nothing all at once. *If You Don't Give Me Heaven* is a crazy concoction of metaphysical madness. There's something for everyone (yes, even you): rants, reflections and revelations. But don't let the alliteration fool you. Noel plays the tortured-soul angle like a finely tuned Theremin. He piles meta upon meta of self-reference on top of each other and still comes out sane. He remixes fact and fiction so seamlessly that there is no longer a difference between the two. He lifts us out of our mediocre, unenlightened lives and into the craziest reality ever. Stop reading this. Flip the book over. Turn the first page. Keep going. It will all make sense if you have three brain cells. -Marcus D'Ambrose Teacher, Hero
