Antichristian Treachery Discovered, and its Way Block'd up ... being an answer to a book put forth by William Rogers, falsely called, the Christian Quaker Distinguished from Apostate and Innovator ... In three parts, etc. [The preface signed: John Pearson, Robert Barrow, Brian Lancaster, Joseph Bains, John Blaykling.] John PEARSON (Member of the Society of Friends.),1686

**Dressing Up** Elizabeth L. Block,2021-10-19 How wealthy American women--as consumers and as influencers--helped shape French couture of the late nineteenth century; lavishly illustrated. French fashion of the late nineteenth century is known for its allure, its ineffable chic--think of John Singer Sargent's Madame X and her scandalously slipping strap. For Parisian couturiers and their American customers, it was also serious business. In *Dressing Up*, Elizabeth Block examines the couturiers' influential clientele--wealthy American women who bolstered the French fashion industry with a steady stream of orders from the United States. Countering the usual narrative of the designer as solo creative genius, Block shows that these women--as high-volume customers and as pre-Internet influencers--were active participants in the era's transnational fashion system. Block describes the arrival of nouveau riche Americans on the French fashion scene, joining European royalty, French socialites, and famous actresses on the client rosters of the best fashion houses--Charles Frederick Worth, Doucet, and Félix, among others. She considers the mutual dependence of couture and coiffure; the participation of couturiers in international expositions (with mixed financial results); the distinctive shopping practices of American women, which ranged from extensive transatlantic travel to quick trips downtown to the department store; the performance of conspicuous consumption at balls and soirées; the impact of American tariffs on the French fashion industry; and the emergence of smuggling, theft, and illicit copying of French fashions in the American market as the middle class emulated the preferences of the rich. Lavishly illustrated, with vibrant images of dresses, portraits, and fashion plates, *Dressing Up* reveals the power of American women in French couture. Winner of the Aileen Ribeiro Grant of the Association of Dress Historians; an Association for Art History grant; and a Pasold Research Fund grant.

Bind Up the Testimony Daniel Isaac Block,Richard L. Schultz,2015 One of the major flashpoints in academic biblical studies in the past 125 years has centered on the authorship and dating of the book of Isaiah. Beginning in the late 1800s, some scholars suggested that this book may have been written by multiple people over a period of centuries, a view that contrasts with the traditional one that the entire book of Isaiah was written in the eighth century BC by the Judean prophet Isaiah ben Amoz. Because for many conservative scholars the latter position is the only one that respects the divine inspiration of the text, and because they also believe that this position is endorsed by Jesus in the New Testament, the differing conclusions of mainstream and conservative scholars regarding the authorship and dating of the book of Isaiah have long served to divide these groups. *Bind Up the Testimony*--a collection of essays from a colloquium held at Wheaton College in 2013--brings together a variety of evangelical responses to this issue. Although a few of the essays arrive at conservative conclusions regarding the authorship and dating of the book of Isaiah, most of them attempt to chart new, more nuanced directions for thinking on this subject, and suggest that careful attention to the (complicated) compositional history of the book of Isaiah need not be a hindrance--and can, in fact, be a help--to Christians who understand the book of Isaiah as divinely inspired Scripture that has spoken to God's people throughout the ages and that continues to speak to them today.
