Proceedings of IAC-ETeL 2014 Collective of authors,2014-02-24

Annie Stories Doris Brett,1998-04 The technique developed by clinical psychologist Doris Brett for her daughter lets you design stories to allow under-tens to explore situations in a non-threatening way, through the experiences of an imaginary child similar to themselves. Covers such topics as: sibling birth, nightmares, coping with divorce and how to relax.

Why Fairy Tales Stick Jack Zipes,2013-09-13 In his latest book, fairy tales expert Jack Zipes explores the question of why some fairy tales work and others don't, why the fairy tale is uniquely capable of getting under the skin of culture and staying there. Why, in other words, fairy tales stick. Long an advocate of the fairy tale as a serious genre with wide social and cultural ramifications, Jack Zipes here makes his strongest case for the idea of the fairy tale not just as a collection of stories for children but a profoundly important genre. Why Fairy Tales Stick contains two chapters on the history and theory of the genre, followed by case studies of famous tales (including Cinderella, Snow White, and Bluebeard), followed by a summary chapter on the problematic nature of traditional storytelling in the twenty-first century.

Mr Peabodys Apples Madonna,2006 A boy learns a lesson about the destructive power of gossip.

Bibliotherapy Sourcebook Rhea Joyce Rubin,1978 Librarians, educators, psychologists, and doctors discuss the theories, dynamics, and applications of bibliotherapy in addition to analyzing specific bibliotherapy for the chronically ill, narcotic addicts, problem children, and others.

Mr Miniscule and the Whale Julian Tuwim,2014 This rhyming adventure tells the story of Mr Miniscule, a teeny tiny explorer with a BIG dream who sets off on the vast ocean in search of a big

blue whale, only to find a big blue island. Or could he be wrong? Mr Miniscule and the Whale is a timeless children's classic known and treasured by three generations of Poles, now one of Australia's largest foreign communities. About the Authors Julian Tuwim (1894-1953) was one of Poland's leading poets. He won fame not just for his adult verse but also for his rhymes for children, many of which are classics known to every Polish child. He also wrote satirical verse and loved word games, inventing palindromes (whole sentences that read the same forwards and backwards), lipograms (whole paragraphs that leave out a particular letter), and tautograms (sentences where every word starts with the same letter). Nobody knows if he ever set out to sea to see a whale. Bohdan Butenko (born 1931) is one of Poland's top illustrators, whose drawings appear in more than 200 children's books. He is also famous for his animated cartoons - especially featuring Gucio the clumsy hippo and Cezar the sensible dog - as well as for his stage sets and television design. He has won many prizes, among them the 2012 Order of the Smile - a special medal awarded by children to adults who are particularly kind to them.

How to Talk About Books You Haven't Read Pierre Bayard, 2010-08-10 In this delightfully witty, provocative book, literature professor and psychoanalyst Pierre Bayard argues that not having read a book need not be an impediment to having an interesting conversation about it. (In fact, he says, in certain situations reading the book is the worst thing you could do.) Using examples from such writers as Graham Greene, Oscar Wilde, Montaigne, and Umberto Eco, he describes the varieties of non-reading-from books that you've never heard of to books that you've read and forgotten-and offers advice on how to turn a sticky social situation into an occasion for creative brilliance. Practical, funny, and thought-provoking, *How to Talk About Books You Haven't Read*-which became a favorite of readers everywhere in the hardcover edition-is in the end a love letter to

books, offering a whole new perspective on how we read and absorb them.

When Dad Showed Me the Universe Ulf Stark, 2015 A father and son set out on a nighttime excursion to see the universe.

Franklin and Harriet Paulette Bourgeois, 2011-02 Franklin loves his baby sister a lot and wants to be a good big brother, but only sometimes.

Scaredy Squirrel Melanie Watt, 2008-03 Scaredy Squirrel is afraid to leave his nut tree because of all the dangers, but one day a bee invades Scaredy's nest and he leaps into the unknown.

Autism Simon Baron-Cohen, Patrick Bolton, 1993 Coping with a diagnosis of autism can be a troubling and confusing experience for parents. Ignorance of this bewildering disorder can provoke difficult decision-making for parents and physicians alike. What causes autism? What happens to children with autism when they grow up? Does autism run in families? What kind of educational setting is best? In this accessible, comprehensive book, the authors have discovered the questions on the minds of parents and professionals, and have attempted to answer them. Autism is a puzzling disorder. It begins in early childhood, and disrupts many aspects of development, leaving the child unable to form social relationships or communicate in the usual way. This fascinating book explains in a clear, straightforward manner what is known about the condition. Helpful appendices identify organizations and resource providers concerned with autism. Written first and foremost as a guide for parents, but required reading for interested professionals, it covers the recognition and diagnosis of autism, its biological and physiological causes, and the various treatments and educational techniques available.

The Spaghetti Detectives Andreas Steinhofel, 2011-07-01 1 String of Spaghetti + 2 Friends =

A Noodle-Cooking, Crime-Solving Adventure! Sometimes Rico acts a bit odd -- his mom calls him a proddity -- but he's GENIUS at noticing little things nobody else does. Like a string of spaghetti stuck to the sidewalk. Or the big buckteeth of that boy in the blue motorcycle helmet. Or the strange behavior of the neighbors in his apartment building. Oscar is a true prodigy, with a high IQ and high anxieties to match. He's the one who wears the blue helmet -- to protect his precious brain! Oscar may have a lot of book smarts, but he needs Rico's help to face his biggest fears. And when other kids mysteriously start going missing, it's up to the two friends to use their noodles, keep track of the clues, and crack the case! Funny, sweet, and just the right amount of scary, THE SPAGHETTI DETECTIVES shows how two opposite, seemingly mismatched kids can put their heads together and be better as a pair.

The Death Book Pernilla Stalfelt, 2002 Providing a forum for children to ask questions about death, this resource uses visual jokes and informal language to inspire frank discussion and thoughtful reflection.
