Food, Sex and Salmonella David Waltner-Toews, 2009-07-01 What sex is to interpersonal relationships, eating is to the human-environment relationship: a consummation of humans' connection to the living biosphere. But while sticking one's tongue into a new and exciting environment may be an act as old as the planet, it can also lead to some nasty surprises. In this lively look at foodborne illnesses, David Waltner-Toews discusses food-related problems caused by bacteria, viruses, and parasites, including death by puffer fish, rollicking tales of tapeworms, neurological problems brought on by ciguatera poison, and that old standby, botulism. He also examines the chemicals and antibiotics that have entered the food supply and the havoc they can wreak. And to help readers stop problems before they start, he offers common-sense solutions to confronting the complicated issue of foodborne disease. His witty approach makes a deadly serious subject accessible to all readers, while never minimizing the risk.

Diving Indonesia Periplus Adventure Guid Kal Muller, David Pickell, 2011-07-12 The seventeen thousand islands of the Indonesian archipelago sweep across the single richest marine environment in the world. These warm, clear, uncrowded waters contain fully fifteen percent of the world's coral reefs, and support close to 4,000 species of fish. It is, indisputably, a diver's paradise. Periplus's critically acclaimed *Diving Indonesia*, now in its fourth revision, is the pioneer guide to this fascinating, and still little-known, island chain. Widely considered a classic of the genre, this guide covers sites from the shallow reefs of Bintan island just a stone's throw from Singapore to the current-swept wrecks of World War II aircraft lying off Indonesian New Guinea, and dive options ranging from easy shore dives on Bali to luxurious live-aboards in the Banda Sea. Practicalities Detailed travel information for every budget, including accommodations, transportation, prices, seasons, and dive operators. Information Essays on reef ecology and life, local geography, history and diving lore. Also at-a-glance charts of site conditions and 43 accurate maps. Photography More than 139 color photographs by top photographers.
