Dame Judi Dench Blue plaques, bearing names both familiar and intriguing, can be found all across the capital. From BOB MARLEY to ALAN TURING, VIRGINIA WOOLF to VINCENT VAN GOGH, MAHATMA GANDHI to EMMELINE PANKHURST, the plaques celebrate an incredible range of London's past residents. Sites of Popular Music Heritage Sara Cohen,Robert Knifton,Marion Leonard,Les Roberts,2014-08-27 This volume examines the location of memories and histories of popular music and its multiple pasts, exploring the different 'places' in which popular music can be situated, including the local physical site, the museum storeroom and exhibition space, and the digitized archive and display space made possible by the internet. Contributors from a broad range of disciplines such as archive studies, popular music studies, media and cultural studies, leisure and tourism, sociology, museum studies, communication studies, cultural geography, and social anthropology visit the specialized locus of popular music histories and heritage, offering diverse set of approaches. Popular music studies has increasingly engaged with popular music histories, exploring memory processes and considering identity, collective and cultural memory, and notions of popular culture's heritage values, yet few accounts have spatially located such trends to focus on the spaces and places where we encounter and engender our relationship with popular music's history and legacies. This book offers a timely re-evaluation of such sites, reinserting them into the narratives of popular music and offering new perspectives on their function and significance within the production of popular music heritage. Bringing together recent research based on extensive fieldwork from scholars of popular music studies, cultural sociology, and museum studies, alongside the new insights of practice-based considerations of current practitioners within the field of popular music heritage, this is the first collection to address the interdisciplinary interest in situating popular music histories, heritages, and pasts. The book will therefore appeal to a wide and growing academic readership focused on issues of heritage, cultural memory, and popular music, and provide a timely intervention in a field of study that is engaging scholars from across a broad spectrum of disciplinary backgrounds and theoretical perspectives.

Remembering Women's Activism Sharon Crozier-De Rosa,Vera Mackie,2018-09-25 Remembering Women's Activism examines the intersections between gender politics and acts of remembrance by tracing the cultural memories of women who are known for their actions. Memories are constantly being reinterpreted and are profoundly shaped by gender. This book explores the gendered dimensions of history and memory through nation-based and transnational case studies from the Asia-Pacific region and Anglophone world. Chapters consider how different forms of women's activism have been remembered: the efforts of suffragists in Britain, the USA and Australia to document their own histories and preserve their memory; Constance Markievicz and Qiu Jin, two early twentieth-century political activists in Ireland and China respectively; the struggles of women workers; and the movement for redress of those who have suffered militarized sexual abuse. The book concludes by reflecting on the mobilization of memories of activism in the present. Transnational in scope and with reference to both state-centred and organic acts of remembering, including memorial practices, physical sites of memory, popular culture and social media, Remembering Women's Activism is an ideal volume for all students of gender and history, the history of feminism, and the relationship between memory and history.

The Dramaturgy of the Door Stuart Andrews,Matthew Wagner,2019-10-08 The Dramaturgy of the Door examines the door as a critical but under-explored feature of theatre and performance, asking how doors function on stage, in site-specific practice and in performances of place. This first book-length study on the topic argues that doors engage in and help to shape broad phenomena of performance across key areas of critical enquiry in the field. Doors open up questions of theatrical space(s) and artistic encounters with place(s), design and architecture, bodies and movement, interior versus exterior, im/materiality, the relationship between the real and the imaginary, and processes of transformation. As doors separate places and practices, they also invite us to see connections and contradictions between each one and to consider the ways in which doors frame the world beyond the stage and between places of performance. With a wide-ranging set of examples - from Shakespeare's Macbeth to performance installations in the Mojave Desert - The Dramaturgy of the Door is aimed at performance makers and artists as well as advanced students and scholars in the fields of performance studies, cultural theory, and visual arts.

Policing Notting Hill Tony Moore,2013-07-24 Notting Hill is one of the most sought after locations in London. But its progress from "ghetto" to gentrification spans half-a-century within which it was one of the most turbulent places in Britain"plagued by decline, disadvantage, unsolved killings, riots, illegal drugs, underground bars (or "shebeens"), prostitution, "no-go areas" and racial tension. It was also populated by characters such as self-styled community organizer Frank Crichlow, slum landlord Peter Rachman, Christine Keeler, the Angry Brigade, "hustlers" such as "Lucky" Gordon and Johnny Edgecombe, the activist Michael X (later executed in Trinidad) and the occasional radical lawyer. It was the location of the racist murder of Kelso Cochrane, the litigation-minded Mangrove Restaurant, the brief surge of Black Power in the UK and most notably the iconic Notting Hill Carnival with its heady mix of festivity, excitement, street crimes, potential for disorder and confrontations with the police. So what was it like operating in this "Symbolic Location"? In this book, Tony Moore, one of those in charge of policing Notting Hill, shows how the area continually adapted to challenges that first began after the Empire Windrush arrived in England carrying immigrants who were initially met by signs saying "No Coloured", but for whom Notting Hill became an area of choice. It is a wide-ranging account of the factors in play at a time of unprecedented social change, told from the perspective of an "insider", based on prodigious research including in relation to hitherto unpublished materials and personal communications. "Tony Moore is well-fitted to write a history of Notting Hill and its relationship with the Metropolitan Police": Lord Blair of Boughton. "All Saints Road in Notting Hill is one of those areas of London, where crime is at its worst, where drug-dealing is intolerably overt and where the racial ingredient is at its most potent": Sir Kenneth Newman, Commissioner of the Metropolitan Police. "From the late sixties until recently, All Saints Road was to drugs what Hatton Garden is to diamonds": Robert Hardman, The Spectator.

Mapping Black Europe Natasha A. Kelly,Olive Vassell,2023-03-31 Black communities have been making major contributions to Europe's social and cultural life and landscapes for centuries. However, their achievements largely remain unrecognized by the dominant societies, as their perspectives are excluded from traditional modes of marking public memory. For the first time in European history, leading Black scholars and activists examine this issue - with first-hand knowledge of the eight European capitals in which they live. Highlighting existing monuments, memorials, and urban markers they discuss collective narratives, outline

community action, and introduce people and places relevant to Black European history, which continues to be obscured today.

The Writing on the Wall Mike Read,2018 A blue plaque is a recognized symbol of the United Kingdom's national heritage; a living footprint of history, with each one serving as a permanent reminder of an important contribution to the history of the country. The blue plaques commemorate notable, influential, and successful people from all walks of life. They are erected in the present to celebrate the past and inspire the future. This book covers one hundred blue plaques and shares the people and stories behind them, from across the United Kingdom, each linking, through a common denominator, to the next. From David Bowie to William Shakespeare, these plaques run the gamut, commemorating kings, actors, singers, explorers, footballers, cricketers, writers, inventors, scientists, politicians, musicians, reformers, broadcasters, songwriters, comedians, pioneers, artists, soldiers, athletes, dancers, activists, poets, and educators. From Lennon and McCartney to the victims of Jack the Ripper, this is an eclectic representation of British life, as told through blue plaques, from the 1500s to the present day, and accompanied by hand-drawn illustrations and a foreword by Earl Spencer.

Reform and Its Complexities in Modern Britain Bruce Kinzer,Emeritus Professor of History Bruce Kinzer,Molly Baer Kramer,Staff Member and Adjunct Instructor Molly Baer Kramer,Richard Trainor,2022-06-02 The essays in this volume, taken together, span the era of British history from 1780 to the present that has engrossed the attention of Brian Harrison in a career of more than fifty years. In keeping with his diverse interests, they vary widely in subject matter. Yet each contributes, in some fashion, to an appreciation of the complexities of reform in modern Britain. Throughout his career Harrison has demonstrated an unwavering interest in social movements and pressure groups. He has analysed the organisation of reform movements and their bases of support; explored the aspirations and beliefs motivating individuals to start or join such movements; and examined the ideas and ideals shaping their conception of human improvement. No one has done more to show that the significance of a reform movement's triumphs and disappointments can be grasped only in relation to the forces amassed to resist its claims. The essays gathered here, on the Harrisonian theme of reform and its complexities, form an acknowledgment of the massive mark their honouree has made on the study of modern British history. They are preceded by a Foreword composed by Keith Thomas and an editorial Introduction tracing the course of Harrison's scholarship and connecting that scholarship to the substance of the essays. The volume encompasses both wide-ranging analytical investigations and telling case studies. All have new things to say on the subject of reform and its complexities in modern Britain.
