I've Seen Jesus Shadeen Anglin,2021-03-30 She stormed into a worship service in her pajamas to call an end to the nuisance that was disturbing her sweet morning sleep. Today, she is a minister of the Gospel, leading many in the ministry she once loathed, and guiding many to surrender to the God she once scorned. This is the story of how our unrelentingly loving Saviour sought, found, and gave purpose to a woman who was lost, wretched, and hopeless. Shadeen Anglin shares her personal experiences, employing them as a lighthouse for all who might be lost in a sea of spiritual quagmire, waiting to hear God's voice and desiring to abide in His presence. She goes against the grain of contemporary spiritual stories entailing dreams, visions, and out-of-body experiences by proving to the keen mind the scriptural validity of her experiences.

Zigbee Wireless Networking Drew Gislason,2008-10-09 ZigBee is a standard based on the IEEE 802.15.4 standard for wireless personal networks. This standard allows for the creation of very low cost and low power networks - these applications run for years rather than months. These networks are created from sensors and actuators and can wireless control many electrical products such as remote controls, medical, industrial, and security sensors. Hundreds of companies are creating applications including Mitsubishi, Motorola, Freescale, and Siemens. This book is written for engineers who plan to develop ZigBee applications and networks, to understand how they work, and to evaluate this technology to see if it is appropriate to a particular project. This book does not simply state facts but explains what ZigBee can do through detailed code examples. *Details how to plan and develop applications and networks *Zigbee sensors have many applications including industrial automation, medical sensing, remote controls, and security *Hot topic for today's electrical engineer because it is low cost and low power

Being Digital Nicholas Negroponte,2015-01-21 In lively, mordantly witty prose, Negroponte decodes the mysteries--and debunks the hype--surrounding bandwidth, multimedia, virtual reality, and the Internet, and explains why such touted innovations as the fax and the CD-ROM are likely to go the way of the BetaMax. Succinct and readable. . . . If you suffer from digital anxiety . . . here is a book that lays it all out for you.--Newsday.

Hearing Health Care for Adults National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Health Sciences Policy,Committee on Accessible and Affordable Hearing Health Care for Adults,2016-10-06 The loss of hearing - be it gradual or acute, mild or severe, present since birth or acquired in older age - can have significant effects on one's communication abilities, quality of life, social participation, and health. Despite this, many people with hearing loss do not seek or receive hearing health care. The reasons are numerous, complex, and often interconnected. For some, hearing health care is not affordable. For others, the appropriate services are difficult to access, or individuals do not know how or where to access them. Others may not want to deal with the stigma that they and society may associate with needing hearing health care and obtaining that care. Still others do not recognize they need hearing health care, as hearing loss is an invisible

health condition that often worsens gradually over time. In the United States, an estimated 30 million individuals (12.7 percent of Americans ages 12 years or older) have hearing loss. Globally, hearing loss has been identified as the fifth leading cause of years lived with disability. Successful hearing health care enables individuals with hearing loss to have the freedom to communicate in their environments in ways that are culturally appropriate and that preserve their dignity and function. Hearing Health Care for Adults focuses on improving the accessibility and affordability of hearing health care for adults of all ages. This study examines the hearing health care system, with a focus on non-surgical technologies and services, and offers recommendations for improving access to, the affordability of, and the quality of hearing health care for adults of all ages.

Anonymous Sources Mary Louise Kelly, 2013-06-18 A fast-paced international thriller in the vein of Janet Evanovich by former NPR anchor and correspondent Mary Louise Kelly, about a Pakistani terrorist's nuclear threat to blow up the White House. When Boston reporter Alexandra James is assigned to cover the death of Thom Carlyle, the son of a powerful Washington insider, she soon discovers the story is not as simple as it seems. The young man fell from the top of a Harvard bell tower, but did he jump...or was he pushed? Intent on escaping the demons of her past, Alex knows how to outwork, outdrink, and outshop anyone else around. Now she is focused on what could be "the story of a lifetime"—chasing leads from Harvard Yard to the courtyards of Cambridge, England, from a clandestine rendezvous in London to the inside of a nuclear terrorist network. But when she goes to Washington, DC, for a key interview that promises to tie everything together, Alex the hunter becomes Alex the hunted. An assassin is dispatched...her laptop disappears...her phone is tapped...and she begins to grasp that Thom Carlyle may have been killed to hide a terrifying conspiracy within the White House itself. Former NPR Intelligence correspondent Mary Louise Kelly has turned her own real-life reporting adventures into fiction with this stylish spy thriller.
