**Singlehanded Sailing** Andrew Evans,2014-09-05 It takes thousands of hours of sailing to get the kind of knowledge contained in this book. -- from the Foreword by Bruce Schwab The ONLY bible for how to sail your boat fast, safe, and alone Solo sailing is within any sailor's grasp with a little forethought--and this essential guide. Got a 35-foot sailboat? No problem. Is the wind blowing 20 knots? No problem. Are you racing offshore overnight? Even better. Singlehander Andrew Evans learned the hard way how to sail and race alone--with lots of mishaps, including broaches and a near tumbling over a waterfall--and in Singlehanded Sailing he shares the techniques, tips, and tactics he has developed to make his solo sailing adventures safe and enriching. Learn everything you need to know to meet any solo challenge, including: Managing the power consumption aboard a boat to feed the electric autopilot Setting and gybing a spinnaker Finding time to sleep Dealing with heavy weather Fastnet Force 10 John Rousmaniere,2000-05-02 In August 1979, 303 yachts began the 600-mile Fastnet Race from the Isle of Wight off the southwest coast of England to Fastnet Rock off the Irish coast and back. It began in fine weather, then suddenly became a terrifying ordeal. A Force 10, sixty-knot storm swept across the North Atlantic with a speed that confounded forecasters, slamming into the fleet with epic fury. For twenty hours, 2,500 men and women were smashed by forty-foot breaking waves, while rescue helicopters and lifeboats struggled to save them. By the time the race was over, fifteen people had died, twenty-four crews had abandoned ship, five yachts had sunk, 136 sailors had been rescued, and only 85 boats had finished the race. John Rousmaniere was there, and he tells the tragic story of the greatest disaster in the history of yachting as only one who has sailed through the teeth of a killer storm can. With a new introduction by the author.

**The Trouble with Passion** Erin Cech, 2021-11-09 Probing the ominous side of career advice to follow your passion, this data-driven study explains how the passion principle fails us and perpetuates inequality by class, gender, and race; and it suggests how we can reconfigure our relationships to paid work. Follow your passion is a popular mantra for career decision-making in the United States. Passion-seeking seems like a promising path for avoiding the potential drudgery of a life of paid work, but this passion principle—seductive as it is—does not universally translate. The Trouble with Passion reveals the significant downside of the passion principle: the concept helps culturally legitimize and reproduce an exploited, overworked white-collar labor force and broadly serves to reinforce class, race, and gender segregation and inequality. Grounding her investigation in the paradoxical tensions between capitalism's demand for ideal workers and our cultural expectations for self-expression, sociologist Erin A. Cech draws on interviews that follow students from college into the workforce, surveys of US workers, and experimental data to explain why the passion principle is such an attractive, if deceptive, career decision-making mantra, particularly for the college educated. Passion-seeking presumes middle-class safety nets and springboards and penalizes first-generation and working-class young adults who seek passion without them. The ripple effects of this mantra undermine the promise of college as a tool for social and economic mobility. The passion principle also feeds into a culture of overwork, encouraging white-collar workers to tolerate precarious employment and gladly sacrifice time, money, and leisure for work they are passionate about. And potential employers covet, but won't compensate, passion among job applicants. This book asks, What does it take to center passion in career decisions? Who gets ahead and who gets left behind by passion-seeking? The Trouble with Passion calls for citizens, educators, college administrators, and industry leaders to reconsider how we think about good jobs and, by extension, good lives.
