Mercedes-Benz SLK Brian Long, 2014-11-28 This book reveals the full history of the first generation Mercedes-Benz SLK, covering in detail the German, US, UK, Australian and Japanese markets. The perfect book to grace a Mercedes-Benz enthusiasts' library shelf, it's the definitive record of the model illustrated with stunning photographs.

Aeronautical Research in Germany Ernst Heinrich Hirschel, Horst Prem, Gero Madelung, 2012-12-06 From the pioneering glider flights of Otto Lilienthal (1891) to the advanced avionics of today's Airbus passenger jets, aeronautical research in Germany has been at the forefront of the birth and advancement of aeronautics. On the occasion of the centennial commemoration of the Wright Brother's first powered flight (December 1903), this English-language edition of Aeronautical Research in Germany recounts and celebrates

the considerable contributions made in Germany to the invention and ongoing development of aircraft. Featuring hundreds of historic photos and non-technical language, this comprehensive and scholarly account will interest historians, engineers, and, also, all serious airplane devotees. Through individual contributions by 35 aeronautical experts, it covers in fascinating detail the milestones of the first 100 years of aeronautical research in Germany, within the broader context of the scientific, political, and industrial milieus. This richly illustrated and authoritative volume constitutes a most timely and substantial overview of the crucial contributions to the foundation and advancement of aeronautics made by German scientists and engineers.

Driving Customer Appeal Through the Use of Emotional Branding Garg, Ruchi, Chhikara, Ritu, Panda, Tapan Kumar, Kataria, Aarti, 2017-09-13 The value of advertising has always been an effective way to increase consumerism among customers. Through the use of emotional branding, companies and organizations can now target new and old patrons while building a strong relationship with them at the same time, to ensure future sales. Driving Customer Appeal Through the Use of Emotional Branding is a critical scholarly resource that examines the responses consumers have to differing advertising strategies, and how these reactions impact sales. Featuring relevant topics such as multisensory experiences, customer experience management, brand hate, and product innovation, this publication is ideal for CEOs, business managers,

academicians, students, and researchers that are interested in discovering more effective and efficient methods for driving business.

Electronic Engine Control Technologies Ronald K Jurgen,2004-03-13 In this second edition of Electronic Engine Control Technologies, the latest advances and technologies of electronic engine control are explored in a collection of 99 technical papers, none of which were included in the book's first edition. Editor Ronald K. Jurgen offers an informative introduction, Neural Networks on the Rise, clearly explaining the book's overall format and layout. The book then closely examines the many areas surrounding electronic engine control technologies, including: specific engine controls, diagnostics, engine modeling, innovative solid-state hardware and software systems, communication techniques for engine control, neural network applications, and the future of electronic engine controls.

Jet Web Dietrich Eckardt,2023-02-03 The present book describes the development history of turbojet engines, mainly in the web-type triangle Great Britain (USA) - Germany - Switzerland from early beginnings in the 1920s up to the first practical usage in the 1950s, before the still unbroken, grand impact of aero propulsion technology on global air traffic started. interconnections are highlighted, including the considerable impact of axial-flow compressor design know-how of the Swiss/German company BBC Brown Boveri & Cie. on both sides. The author reveals significant undercurrents which led to a considerable exchange, and thus change in

understanding of the technical-historical perspective, especially in the decisive years before WWII, and thus closes gaps in the unilateral views of this ground-breaking technical advancement. The old 'Whittle vs. von Ohain Saga' is not repeated in full, but addressed in sufficient detail to understand the considerably enlarged narrative scope.

Major Companies of Europe 1991-1992 Vol. 1 : Major Companies of the Continental European Community R. M. Whiteside, 2012-12-06 Volumes 1 & 2 Guide to the MAJOR COMPANIES OF EUROPE 1991/92, Volume 1, arrangement of the book contains useful information on over 4000 of the top companies in the European Community, excluding the UK, over 1100 This book has been arranged in order to allow the reader to companies of which are covered in Volume 2. Getting to Know Germany Anne Adler,1990 Life in contemporary Germany, including its geography, people, economy, natural resources, culture, and government.

Flight and Concealment Susanna Schrafstetter,2022-09-06 Between ten thousand and twelve thousand Jews tried to escape Nazi genocide by going into hiding. With the help of Jewish and non-Jewish relatives, friends, or people completely unknown to them, these U-boats, as they came to be known, dared to lead a life underground. Flight and Concealment brings to light their hidden stories. Deftly weaving together personal accounts with a broader comparative look at the experiences of Jews throughout Germany, historian Susanna Schrafstetter tells the story of the Jews in Munich and Upper Bavaria who fled deportation by going underground. Archival sources and interviews with survivors and with the Germans who aided or exploited them reveal a complex, often intimate story of hope, greed, and sometimes betrayal. Flight and Concealment shows the options and strategies for survival of those in hiding and their helpers, and discusses the ways in which some Germans enriched themselves at the expense of the refugees.
