The Photomontages of Hannah Höch Hannah Höch, Peter W. Boswell, Maria Martha Makela, Carolyn Lanchner, Kristin Makhholm, 1996 Here, in the first comprehensive survey of her work by an American museum, authors Peter Boswell, Maria Makela, and Carolyn Lanchner survey the full scope of Höch's half-century of experimentation in photomontage - from her politically charged early works and intimate psychological portraits of the Weimar era to her later forays into surrealism and abstraction.

The 'Made in Germany' Champion Brands Ugesh A. Joseph, 2016-03-09 Germany's economic miracle is a widely-known phenomenon, and the world-leading, innovative products and services associated with German companies are something that others seek to imitate. In *The 'Made in Germany' Champion Brands*, Ugesh A. Joseph provides an extensively researched, insightful look at over 200 of Germany's best brands to see what they stand for, what has made them what they are today, and what might be transferable. The way Germany is branded as a nation carries across into the branding of its companies and services, particularly the global superstar brands - truly world-class in size, performance and reputation. Just as important are the medium-sized and small enterprises, known as the 'Mittelstand'. These innovative and successful enterprises from a wide range of industries and product / service categories are amongst the World market leaders in their own niche and play a huge part in making Germany what it is today. The book also focuses on German industrial entrepreneurship and a selection of innovative and emergent stars. All these companies are supported and encouraged by a sophisticated infrastructure of facilitators, influencers and enhancers - the research, industry, trade and standards organizations, the fairs and exhibitions and all the social and cultural factors that influence, enhance and add positive value to the country's image. Professionals or academics interested in business; entrepreneurship; branding and marketing; product or service development; international trade and

business development policy, will find fascinating insights in this book; while those with an interest in Germany from emerging industrial economies will learn something of the secrets of German success.

Medical Imaging Systems Andreas Maier,Stefan Steidl,Vincent Christlein,Joachim Hornegger,2018-08-02 This open access book gives a complete and comprehensive introduction to the fields of medical imaging systems, as designed for a broad range of applications. The authors of the book first explain the foundations of system theory and image processing, before highlighting several modalities in a dedicated chapter. The initial focus is on modalities that are closely related to traditional camera systems such as endoscopy and microscopy. This is followed by more complex image formation processes: magnetic resonance imaging, X-ray projection imaging, computed tomography, X-ray phase-contrast imaging, nuclear imaging, ultrasound, and optical coherence tomography.

Chronik eines bürgerlichen Lebens in Nürnberg Rudolf Müller,2020-02-13 Wie funktionierte die nationalsozialistische Ablenkungs- und Verdrängungsindustrie im Zweiten Weltkrieg? Wo wurde sie von den Fakten durchlöchert, und mit welcher Beharrlichkeit wurden diese negiert? Wie gelang es, trotz Bombennächten und Lebensmittelverknappung ein soziales Leben aufrechtzuerhalten, das noch lebenswert erschien? In diesem zweiten Band der Chronik zeigt sich, wie klaglos die politischen Verhältnisse als gegeben hingenommen wurden, und dass Wut, Enttäuschung oder gar der Gedanke an Widerstand nicht einmal in die Intimität eines Tagebuches Eingang finden.

Germany Library of Congress. Federal Research Division,1996 On October 3 1990 Germany's unification brought together a people separated for more than four decades by the division of Europe into hostile blocs, in the aftermath of World War II. This study attempts to review Germany's history and treat, in a concise and objective manner, its dominant social, political, economic and military aspects.

Grüne Infrastruktur / Green Infrastructure Bund Deutscher Landschaftsarchitekten, 2015-08-31 The more intensively we exploit the urban and rural landscape, the greater the demands we place on our environment and what it can provide. Demographic change, shrinking cities, urban expansion, climate change and the transition to renewable energy sources are confronting us with challenges of ever greater magnitude. Solar fields and bio-energy crops are changing the face of the landscape and new traffic and energy infrastructure criss-crosses the countryside. Meanwhile, vast efforts are being made to adapt existing infrastructure to meet changing demands. In the process, it has once again become clear that we must consider our use of natural resources not just from a local perspective but within a broader context. Green infrastructure strategies can take quite different forms, ranging from floodwater protection measures to the integration of traffic and energy systems and the development of urban green. The goal for society is to improve the diversity and resilience of our environment and to minimize the effects of climate change. In essays, interviews and profiles of the best realized projects from the past few years, Green Infrastructure examines the challenges and tasks facing contemporary landscape architecture and what it can achieve to address them. This book is published on the occasion of the awarding of the German Landscape Architecture Prize 2015.

BMW als Flugmotorenhersteller 1926–1940 Till Lorenzen, 2011-12-05 Die Verstrickung des Unternehmens in die verbrecherische Vernichtungspolitik des NS-Regimes ist erforscht, jetzt geht es erstmals um die Frühgeschichte von BMW. Die Bayerischen Motoren Werke waren in den 1920/30er Jahren einer der wichtigsten Flugmotorenproduzenten in Deutschland. Dementsprechend groß war das Interesse der für die Rüstung zuständigen Ministerien an diesem Unternehmen. Schon die Bedingungen des weitgehend politisierten Luftfahrtmarktes der Weimarer Republik schränkten die Spielräume des BMW-Managements für eine eigenständige Unternehmenspolitik erheblich ein. Ab 1933 beschnitt das NS-Reichsluftfahrtministerium die Entscheidungsmöglichkeiten des Unternehmens weiter. Till Lorenzen zeigt jedoch, dass die BMW-Geschäftsführung in den einzelnen Unternehmensbereichen unterschiedliche Handlungsspielräume hatte. So wurden nach 1933 besonders die operationalen Bereiche wie die Entwicklung und die Produktion von Flugmotoren mehr und mehr Teil der militärischen Planerfüllung. Dagegen gelang es der Unternehmensleitung beispielsweise in der strategischen Konzernentwicklung weitgehend unabhängig zu bleiben.

Die Unfähigkeit, sich zu erkennen: Sophokles' Tragödien Eckard Lefèvre, 2017-09-18 This book interprets all seven Sophoclean tragedies (5th century B.C.) as a whole, focussing on the aspect of individuals being guilty of not reaching proper conclusions about their own selves and their situation, although they possess the means and ability to do so. Chapter I offers exact definitions of the concepts employed in analyzing the tragedies. Chapters II-VIII each contain a detailed interpretation of one of Sophocles' seven tragedies. Chapter IX ('Tableau') presents the dramatic works within the context of Greek history of thought and politics of their time, while Chapter X sheds some light on how Sophoclean concepts were continued in the comedies of Menander. This study should not only prove helpful to scholars in the field of literary studies, but also to historians, philosophers and all those interested in history of thought and cultural history, since it examines in a fundamental way the thought of one of the most important poets of ancient Europe.

Propaganda Postcards of the Luftwaffe James Wilson, 2007-03-30 Propaganda Postcards of the Luftwaffe focuses on the efforts of the powerful Nazi propaganda machine to promote the technical achievements and might of the then newly created German airforce. The Luftwaffe had been announced to the world in March 1935, despite the restrictions contained in the Versailles Treaty signed after the First World War denying Germany the right to develop military aircraft. All major aircraft types used by the Luftwaffe together with many lesser known, obscure and secondary types are represented in this book. There is a section covering the main figures of the Luftwaffe and the leading aces who flew the aircraft. The German Air and Propaganda ministries worked together and, using professional photographers produced quality images, which were then made available to the general public in an attempt to inspire the nation and create strong moral.
