Riding a bike faster takes more than just fitness. It takes skills that you can master to become a faster, stronger rider. In his new guide, former professional bike racer Tom Danielson shows how to transform your cycling from amateur to professional level with the fitness and time you have now. Danielson reveals how the pros go beyond the modern standards of interval workouts, base-building, and recovery to train the whole athlete, mind and body. Danielson shows how to truly ride and train to the fullest through: Fitness: Self-tests to identify your riding strengths and weaknesses then focus on custom training to address them. Mental focus: The pros know that winning means using your head and your legs. You’ll get pro tips on big-picture goal setting and mid-ride concentration strategies to help you stay focused. Execution: Cycling is hard and executing a great ride when it matters takes practice. Danielson shares on-the-bike skills, efficient and powerful techniques, strategies to stay in the race, ways to finish with the lead group, and how to excel on a ride you’ve never done before. Nutrition: Pro riders put

sports nutrition into daily practice. Danielson distills the facts of diet, food as fuel, and fueling to recover. Too many cyclists train by trying to set new Strava PRs, only to get frustrated by the limited gains. There's a better way. *Cycling On Form* unlocks a pro method for riding faster and stronger.
