One Italian Summer Rebecca Serle, 2022-03-01 INSTANT NEW YORK TIMES BESTSELLER In this “magical trip worth taking” (Associated Press), the New York Times bestselling author of *In Five Years* returns with a powerful novel about the transformational love between mothers and daughters set on the breathtaking Amalfi Coast. When Katy’s mother dies, she is left reeling. Carol wasn’t just Katy’s mom, but her best friend and first phone call. She had all the answers and now, when Katy needs her the most, she is gone. To make matters worse, their planned mother-daughter trip of a lifetime looms: to Positano, the magical town where Carol spent the summer right before she met Katy’s father. Katy has been waiting years for Carol to take her, and now she is faced with embarking on the adventure alone. But as soon as she steps foot on the Amalfi Coast, Katy begins to feel her mother’s spirit. Buoyed by the stunning waters, beautiful cliffsides, delightful residents, and, of course, delectable food, Katy feels herself coming back to life. And then Carol appears—in the flesh, healthy, sun-tanned, and thirty years old. Katy doesn’t understand what is happening, or how—all she can focus on is that she has somehow, impossibly, gotten her mother back. Over the course of one Italian summer, Katy gets to know Carol, not as her mother, but as the young woman before her. She is not exactly who Katy imagined she might be, however, and soon Katy must reconcile the mother who knew everything with the young woman who does not yet have a clue. “Rebecca Serle is known for her powerful stories that tug at the heartstrings—and her latest is just as unforgettable” (Woman’s World) as it effortlessly shows us how to move on after loss, and how the people we love never truly leave us.

The Night and Its Moon Piper CJ, 2022-09-20 An addictive fantasy romance from TikTok sensation Piper CJ, now newly revised and edited. Two orphans grow into powerful young women as they face countless threats to find their way back to each other. Farleigh is just an orphanage. At least, that’s what the church would have the people believe, but beautiful orphans Nox and fae-touched Amaris know better. They are commodities for sale, available for purchase by the highest bidder. So when the madame of a notorious brothel in a far-off city offers a king’s ransom to purchase Amaris, Nox ends up taking her place — while Amaris is drawn away to the mountains, home of mysterious assassins. Even as they take up new lives and identities, Nox and Amaris never forget one thing: they will stop at nothing to reunite. But the threat of war looms overhead, and the two are inevitably swept into a conflict between human and fae, magic and mundane. With strange new alliances, untested powers, and a bond that neither time nor distance could possibly break, the fate of the realms lies in the hands of two orphans — and the love they hold for each other.

Birds of California Katie Cotugno, 2022-04-26 Exquisite and delicious. . . Katie Cotugno has outdone herself. —Taylor Jenkins Reid, author of *Daisy Jones & The Six* and *Malibu Rising* Sparks fly and things get real in this sharply sexy and whip-smart romantic comedy set against the backdrop of a post #metoo Hollywood from New York Times bestselling author Katie Cotugno Former child actor Fiona St. James dropped out of the spotlight after a spectacularly public crash and burn. The tabloids called her crazy and self-destructive and said she’d lost her mind. Now in her late twenties, Fiona believes her humiliating past is firmly behind her. She’s finally regained a modicum of privacy, and she won’t let anything—or anyone—mess it up. Unlike Fiona, Sam Fox, who played her older brother on the popular television show *Birds of California*, loves the perks that come with being a successful Hollywood actor: fame, women, parties, money. When his current show gets cancelled and his agent starts to avoid his calls, the desperate actor enthusiastically signs on for a *Birds of California* revival. But to make it happen, he needs Fiona St. James. Against her better judgment, Fiona agrees to have lunch with Sam. What happens next takes them both by surprise. Sam is enthralled by Fiona’s take-no-prisoners attitude, and Fiona discovers a lovable goofball behind Sam’s close-up-ready face. Long drives to the beach, late nights at dive bars . . . theirs is the kind of kitschy romance Hollywood sells. But just like in the rom-coms Fiona despises, there’s a twist that threatens

her new love. Sam doesn't know the full story behind her breakdown. What happens when she reveals the truth?

Mathematics for Machine Learning Marc Peter Deisenroth, A. Aldo Faisal, Cheng Soon Ong, 2020-04-23 The fundamental mathematical tools needed to understand machine learning include linear algebra, analytic geometry, matrix decompositions, vector calculus, optimization, probability and statistics. These topics are traditionally taught in disparate courses, making it hard for data science or computer science students, or professionals, to efficiently learn the mathematics. This self-contained textbook bridges the gap between mathematical and machine learning texts, introducing the mathematical concepts with a minimum of prerequisites. It uses these concepts to derive four central machine learning methods: linear regression, principal component analysis, Gaussian mixture models and support vector machines. For students and others with a mathematical background, these derivations provide a starting point to machine learning texts. For those learning the mathematics for the first time, the methods help build intuition and practical experience with applying mathematical concepts. Every chapter includes worked examples and exercises to test understanding. Programming tutorials are offered on the book's web site.

The Candy House Jennifer Egan, 2022-04-05 A NEW YORK TIMES BESTSELLER ONE of the TOP 10 BOOKS OF THE YEAR by THE NEW YORK TIMES * ENTERTAINMENT WEEKLY * SLATE * THE

PHILADELPHIA INQUIRER * Also named one of the BEST BOOKS OF THE YEAR by Vanity Fair, Time, NPR, The Guardian, Oprah Daily, Self, Vogue, The New Yorker, BBC, Vulture, and many more! OLIVIA WILDE to direct A24's TV adaptation of THE CANDY HOUSE and A VISIT FROM THE GOON SQUAD! From one of the most celebrated writers of our time comes an "inventive, effervescent" (Oprah Daily) novel about the memory and quest for authenticity and human connection. The Candy House opens with the staggeringly brilliant Bix Bouton, whose company, Mandala, is so successful that he is "one of those tech demi-gods with whom we're all on a first name basis." Bix is forty, with four kids, restless, and desperate for a new idea, when he stumbles into a conversation group, mostly Columbia professors, one of whom is experimenting with downloading or "externalizing" memory. Within a decade, Bix's new technology, "Own Your Unconscious"—which allows you access to every memory you've ever had, and to share your memories in exchange for access to the memories of others—has seduced multitudes. In the world of Egan's spectacular imagination, there are "counters" who track and exploit desires and there are "eluders," those who understand the price of taking a bite of the Candy House. Egan introduces these characters in an astonishing array of narrative styles—from omniscient to first person plural to a duet of voices, an epistolary chapter, and a chapter of tweets. Intellectually dazzling, The Candy House is also a moving testament to the tenacity and transcendence of human longing for connection, family, privacy, and love. "A beautiful exploration of loss, memory, and history" (San Francisco Chronicle), "this is minimalist maximalism. It's as if Egan compressed a big 19th-century novel onto a flash drive" (The New York Times).

Concepts of Biology Samantha Fowler, Rebecca Roush, James Wise, 2018-01-07 Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

Sicker in the Head Judd Apatow, 2023-04-18 NEW YORK TIMES BESTSELLER • An all-new collection of honest, hilarious, and enlightening conversations with some of the most exciting names in comedy—from lifelong comedy nerd Judd Apatow. “When I need to read an interview with a comedian while in the bathroom, I always turn to Judd Apatow for deeply personal insights into the comedic mind. Place one on your toilet today.”—Amy Schumer ONE OF THE BEST BOOKS OF THE YEAR: *Vulture* No one knows comedy like Judd Apatow. From interviewing the biggest comics of the day for his high school radio show to performing stand-up in L.A. dive bars with his roommate Adam Sandler, to writing and directing *Knocked Up* and producing *Freaks and Geeks*, Apatow has always lived, breathed, and dreamed comedy. In this all-new collection of interviews, the follow-up to the New York Times bestselling *Sick in the Head*, Apatow sits down with comedy legends such as David Letterman, Whoopi Goldberg, and Will Ferrell, as well as the writers and performers who are pushing comedy to the limits, and defining a new era of laughter: John Mulaney, Hannah Gadsby, Bowen Yang, Amber Ruffin, Pete Davidson, and others. In intimate and hilariously honest conversations, they discuss what got them into comedy, and what—despite personal and national traumas—keeps them going. Together, they talk about staying up too late to watch late-night comedy, what kind of nerds they were in high school, and the right amount of delusional self-confidence one needs to “make it” in the industry. Like eavesdropping on lifelong friends, these pages expose the existential questions that plague even the funniest and most talented among us: Why make people laugh while the world is in crisis? What ugly, uncomfortable truths about our society—and ourselves—can comedy reveal? Along the way, these comics reminisce about those who helped them on their journey—from early success through failure and rejection, and back again—even as they look ahead to the future of comedy and Hollywood in a hyper-connected, overstimulated world. With his trademark insight, curiosity, and irrepressible sense of humor,

Apatow explores the nature of creativity, professional ambition, and vulnerability in an ever-evolving cultural landscape, and how our favorite comics are able to keep us laughing along the way.
