**Don't Rock the Boat** Jack, 2021-06-27 Are you looking to organize a yacht of important boating information? My name is Captain Jack and over my 35 years of being involved in the boating industry, I've experienced my fair share of different styles of boats. I have been at the helm of ski/wakeboard boats, sailboats, watercrafts, houseboats, and cruisers. I know not having important reference information on board can be a big pain in the boat. My hands-on boating experience and additional

desire to help fellow captains inspired me to write Don't Rock the Boat, A Boating Log Book. I hope this book will be helpful to you and bring a bit of levity along the waterway! This boating log book can help you keep track of important details about your trips and boat maintenance. If you decide to sell your boat, it has everything the new owner will want to know about maintenance and service parts. Knowing your days underway can contribute to licensing requirements if you desire a US Coast Guard Captain's License. Last but not least, I have even added some puns and inspirational verses. Buy it for yourself or it makes a great gift for any boat lover! *Sailing Logbook* Ryan Osborne,2018-11-29 A logbook for recording journeys at the sea, for sailors and motorboaters. Ideal for passage making. This ship's log is designed for the modern sailor, who navigates predominantly using electronic methods. It eliminates the details of classical navigation, such as hourly deviation record, but it allows ample space to enter this information, if required. All the essential information for passage making is visible at one glance. The handy size makes it big enough to write in it comfortably, but small enough to fit on any nav table. Information you can record in the logbook: Date, Origin and destination, Crew, Distance, Time, Position, Course, Speed, Log, Wind direction and speed, Tidal information, Ample notes section for each log, which you can customise to fit your needs, Passage summary with total hours, sail hours, engine hours, and average speed. This book is published independently by the couple behind the YouTube channel and blog Sailing Kittiwake. Each purchase's royalties go towards their modest cruising kitty and boat maintenance fund.
