Plucked Rebecca M. Herzig, 2016-11 From using clamshell razors and homemade lye depilatories in the colonial era to using diode lasers and prescription pharmaceuticals in the twenty-first century, Americans have gone to great lengths to remove body hair deemed unsightly, unattractive, or unhealthy. In *Plucked*, Rebecca M. Herzig examines both the causes and consequences of routine hair removal in the U.S. *Plucked* illuminates some of the broad social and environmental effects of seemingly 'personal' choices: widespread experimentation on animals, exploitation of workers, exacerbation of racial divisions, and more. An engrossing, multidimensional history of cultural attitudes toward body hair and the increasingly sophisticated tools used to remove it, *Plucked* reveals the complex political significance of even the most mundane activities of modern life.--Back cover.

Sugar Hair Removal for Beginners Amanda Brant, 2023-05-10 DIY sugar wax hair removal is a natural and cost-effective alternative to commercial hair removal products. It is made from simple ingredients such as sugar, lemon juice, and water, and is applied to the skin in the same way as other waxing products. To make the sugar wax, the ingredients are heated and mixed until they reach a thick, syrupy consistency. Once cooled, the sugar wax is applied to the skin, allowed to dry for a short period, and then removed quickly to pull out hair from the root. The benefits of DIY sugar waxing include cost-effectiveness, natural ingredients, and customization to suit individual preferences. By making sugar wax at home, you can avoid harsh chemicals found in some commercial products and save money on expensive salon treatments. With proper preparation, application, and removal techniques, DIY sugar waxing can be an effective way to remove unwanted hair from the body, leaving the skin smooth and hair-free.
