The Lean Look Paul Goldberg,Matthew Fitzgerald,2009-05-06 Achieve the lean, fit look of a professional athlete in just twelve weeks with this straightforward fitness plan. New studies are confirming what Paul Goldberg has already observed in his high-profile clients: getting leaner—not just thinner—is the single most important change that we can make to feel and look our best. What many Americans struggle with today is known as normal weight obesity: normal body weight, but high body-fat percentage, which can lead to serious health problems. Now Goldberg has developed an effective plan to lower body fat by eating the right foods and building muscle. The twelve-week Lean Look program requires no fancy equipment, takes thirty minutes a day, six days a week, and can easily be done at home. Goldberg shows how to add foods to your diet that promote muscle development, cut back on foods that encourage fat storage, time your meals for optimal nutrition, and exercise to burn fat. With over 100 photographs, a Lean Look journal, body-fat tables, and a four-week meal plan, The Lean Look is a straightforward guide to getting the sculpted, athletic body you've always wanted.

The author outlines thought, behavior and external changes that helped him overcome 20 + years of obesity and binge eating as well as lose more than 100 pounds, which he has now kept off for 12 years. Topics include, measuring body fat and assessing where you are, creating a definite fat loss goal, getting active, handling emotions and urges to overeat, portion control, dietary changes, list of banned foods, addressing the internal world of thoughts and belief systems, the amazing power of 'daily fasting' and numerous other tips and techniques to promote belly fat loss. Even though losing belly fat can be challenging, the author presents the material in a point-by-point format that is detailed and easy to understand. If you are looking for a guide to help you make the lifestyle changes needed to achieve long-term fat loss, this book will prove itself to be a very useful addition to your library. Burn the Blubber is Volume 4 of the series, How To Lose Weight Fast, Keep it Off & Renew The Mind, Body & Spirit Through Fasting, Smart Eating & Practical Spirituality. Hello dear friend, this is Rob. Just in case you are still undecided, here are crucial health reasons why you MUST get rid of belly fat quickly and without further hesitation. It may sound cute when somebody tells you that you are shaped like an apple or pear, but what it really means is that you are packing on the visceral fat in the thighs and butt. I get into this topic in detail inside the book; however, there is never anything cute about belly fat in view of the huge health problems that it will ALWAYS cause. Not to alarm you, but too much fat around the mid-section skyrockets your risk of life-threatening health problems as stroke, diabetes and high-blood pressure. But this warning doesn't just apply to those who are heavy. Skinny people can also pack dangerous amounts of unseen blubber. Since the person is not overweight, the fat digs itself deep around the vital organs in your tummy. Sure, these people may look slim on the outside, but, inside, they carry the same health time-bomb as others who may be noticeably overweight or obese. Doctors have told me that accumulations of fat in the midsection actually become ONE 'living organ' inside your body; a derelict 'alien' invader consuming your life resources and 'feeding' on your health. This is quite a dramatic depiction, I know. But I want to drive the message hard and deep that belly fat is deadly and must be destroyed. In which ways is belly fat harming you? Do you know? Are you soberly aware of the seriousness of the situation? Do you realize that immediate action is required to halt and vanquish these looming sicknesses? IF you are so persuaded, then what are you waiting for? One by one, we will discuss all of the changes that need to happen in your life over time. I will give you plenty of tips, motivation and inspiration to get the ball rolling and never look back. There is still time to sidestep serious health consequences. BUT you must get off the couch, get moving and stop entertaining negative thoughts related to your weight and health. So let's get started! The best is yet to come, IF you train yourself (little by little) to take daily action and modify your lifestyle in the various ways that I will suggest. May peace, love, health and prosperity follow you all of the days of your life!
