Lina Del Castillo

Bogotá Alberto Escovar W.,2002 Detailed guide to the architecture and public parks that are part of the urban revitalization project of the downtown district of the city of Bogotá. Most of the buildings featured were built during the 20th century.

Learning from Bogotá Rachel Berney,2017-01-17 Once known as a “drug capital” and associated with kidnappings, violence, and excess, Bogotá, Colombia, has undergone a transformation that some have termed “the miracle of Bogotá.” Beginning in the late 1980s, the city emerged from a long period of political and social instability to become an unexpected model of urban development through the redesign and revitalization of the public realm—parks, transportation, and derelict spaces—under the leadership of two “public space mayors,” Antanas Mockus and Enrique Peñalosa (the latter reelected in 2015). In *Learning from Bogotá*, Rachel Berney analyzes how these mayors worked to reconfigure the troubled city into a pedagogical one whose public spaces and urban policy have helped shape a more tolerant and aware citizenry. Berney examines the contributions of Mockus and Peñalosa through

the lenses of both spatial/urban design and the city's history. She shows how, through the careful intertwining of new public space and transportation projects, the reclamation of privatized public space, and the refurbishment of dilapidated open spaces, the mayors enacted an ambitious urban vision for Bogotá without resorting to the failed method of the top-down city master plan. Illuminating the complex interplay between formal politics, urban planning, and improvised social strategies, as well as the negative consequences that accompanied Bogotá's metamorphosis, *Learning from Bogotá* offers significant lessons about the possibility for positive and lasting change in cities around the world.

Bogotá the city Consuelo Mendoza de Riaño,2000

Shaping Terrain Davids, René,2016-08-10 *Shaping Terrain* shows how the physical landscape and local ecology have influenced human settlement and built form in Latin America since pre-

Columbian times. Most urban centers and capitals of Latin American countries are situated on or near dramatically varied terrain, and this book explores the interplay between built works and their geographies in various cities including Bogotá, Caracas, Mendoza, Mexico D. F., Rio de Janeiro, Santiago de Chile, and Valparaíso. The multi-national contributors to *Shaping Terrain* have a broad range of professional experience as urbanists, historians, and architects, and many are globally renowned for their design work. They examine how humans negotiate with the existing environment and how the built form expresses that relationship. The result is a wide-ranging representation of the unique legacy of Latin America's urban heritage, which is a repository of possibilities for future cities.

Bogotá from the Air, 2002 Majestic at 2,600 metres above sea level, Bogotá shows its best face from the air. The book provides a different perspective to admire the best facet of one of the largest cities in South America and to enjoy it with the dignity that only height can provide. From north to south and from east to west, *Bogotá from the Air* is a due homage to the city that is capable of bringing as many emotions as people together. The book is the testimony of an evolutionary model that has

turned the city, over the past forty years, into an urban centre in constant growth, improvement and expansion. However, the city's evolution has managed to maintain the individual, the citizen, at the heart of this process. Far from turning the city into a huge stone mass of asphalt and buildings, its development renews it and floods it with vitality, considering the fact that it breathes, feeds and lives. The traditional barrios, parks, historical and cultural centres dress up Bogotá in its most splendid gown to show it from a perspective that its early settlers could have never imagined 500 years ago.

The Report: Colombia 2013 Oxford Business Group, 2013-08-20 Increased stability and security have renewed investment confidence in Colombia, which, with vast natural resources, a strengthened fiscal policy following reform in 2012, and a number of new free trade agreements, is well positioned to continue experiencing growth. The extractive industries, alongside the financial, infrastructure and retail sectors are particularly dynamic as the government pursues diversification strategies and the middle class expands.

Ashé-Caribbean Literary Aesthetic in the Cuban, Colombian, Costa Rican, and Panamanian Novel

of Resistance Thomas Wayne Edison, 2020-09-28 Ashé-Caribbean Literary Aesthetic in the Cuban, Colombian, Costa Rican, and Panamanian Novel of Resistance contributes to understanding the important role that African-influenced spiritual cultures play in literature that challenges the concept that European aesthetics are superior to African-inspired cultures. Thomas W. Edison highlights the novels of four courageous Caribbean writers who have used their novels to integrate aspects of African ontology with literary techniques, themes, and history. The common element in these works is the inclusion of African-inspired faith traditions and culture. As a result of this perspective, their literature stands out as keen examples of Ashé-Caribbean resistance literature. While each writer presents their unique literary style in the works, collectively they draw on a foundation of the Afro-Caribbean. The Circum-Caribbean region will be the geographical unit because of its collective history of slavery, colonial rule, and parallel patterns of religious syncretism. This book makes an important literary connection among Caribbean Hispanophone nations.

My Colombian War Silvana Paternostro,2013-11-05 A timely, evocative account of a reporter's

reckoning with her homeland's volatile past Growing up in the coastal city of Barranquilla, Colombia, Silvana Paternostro indulged in the typical concerns of a privileged young girl: friendships and parties, school and family. But soon it became apparent that life in Colombia would not go on as usual. Strange planes appeared overhead, the harbingers of the marijuana drug trade that would explode into cocaine wars over the next decade, and soon after, a disputed election would lead to demonstrations and kidnappings targeting the affluent landed elite—including Paternostro's family. A revolution was brewing, and the social inequalities reflected in her life would boil over into the most violent, most protracted, and most misunderstood civil war of our time. In *My Colombian War*, Paternostro journeys back to the place where her family and her closest friends still live, weaving authentic experience into a history of this ongoing conflict. Through interviews she allows us to witness the treacherous war zone that Colombia has become, projected on the daily lives of its citizens. Paternostro's book is a stunning, comprehensive narrative of Colombia's past and present.

Marijuana Boom Lina Britto, 2020-03-24 Before Colombia became one of the world's largest

producers of cocaine in the 1980s, traffickers from the Caribbean coast partnered with American buyers in the 1970s to make the South American country the main supplier of marijuana for a booming US drug market, fueled by the US hippie counterculture. How did Colombia become central to the creation of an international drug trafficking circuit? Marijuana Boom is the story of this forgotten history. Combining deep archival research with unprecedented oral history, Lina Britto deciphers a puzzle: Why did the Colombian coffee republic, a model of Latin American representative democracy and economic modernization, transform into a drug paradise, and at what cost?

El Mall Arlene Dávila, 2016-01-05 El Mall considers the boom of shopping malls in Latin America to explore how malls and consumption are shaping the conversation about class and social inequality in Latin America--Provided by publisher.

approaches to economic issues including: * the scholastic tradition in Latin American economies * the quantity theory of money * cameralism * human capital theory.

Crafting a Republic for the World Lina Del Castillo, 2018 In the wake of independence, Spanish American leaders perceived the colonial past as looming over their present. *Crafting a Republic for the World* examines how the vibrant postcolonial public sphere in Colombia invented narratives of the Spanish colonial legacy. Those supposed legacies included a lack of effective geographic knowledge, blockages to a circulatory political economy, existing patterns of land tenure, entrenched inequalities, and ignorance among popular sectors. At times collaboratively, and at times combatively, Colombian leaders tackled these colonial legacies to forge a republic in a hostile world of monarchies and empires. The highly partisan, yet uniformly republican public sphere crafted a vision of a virtuous nation that, unlike the United States, had already abolished slavery and included Indians as citizens. By the mid-nineteenth century, as suffrage expanded to all males over twenty-one, Colombian elites nevertheless tinkered with territorial divisions and devised new constitutions to manage the alleged colonial legacy affecting the minds of popular voters. The book explores how the struggle to be at the

vanguard of radical republican equality fomented innovative contributions to social sciences, including geography, cartography, political ethnography, constitutional science, history, and the calculation of equity through land reform. Paradoxically, these efforts created a kind of legal pluralism reminiscent of the Spanish monarchy during the colonial period.
