Bokstavene Kristoffer Cezinando Karlsen, 2020

Bokstavene lot seg ikke temme Magne Medhus, 2020-02-11 Magne Medhus er dyslektiker. Men også lege. Livet og skolegangen ble tidlig preget av lærevansker og magesår. I det trygge oppvekstmiljøet kom han i kontakt med sykdom og sorg. Det ble en innføring i voksenlivet som fikk betydning for hans senere yrkesvalg og interesse for mennesker. I Bokstavene lot seg ikke temme forteller Medhus om sin kamp for å få en akademisk utdanning i en tid da omgivelsene betraktet ham som en sinke. Det er en fortelling om pågangsmot og stå-på-vilje, men også om ekstrem motgang og utallige nederlag. Magne Medhus er utdannet lege ved universitetet i Münster i 1967. Spesialist i barne- og ungdomspsykiatri og psykiatri samt godkjent kognitiv psykoterapeut. Gjennom et langt yrkesliv har han behandlet og hjulpet mennesker som har hatt psykiske og kognitive vansker.

The Numberlys William Joyce, 2014-05-27 From the team who brought you The Fantastic Flying Books of Mr. Morris Lessmore comes an alphabet tale extraordinaire! Once upon a time there was no alphabet, only numbers... Life was...fine. Orderly. Dull as gray paint. Very...numberly. But our five jaunty heroes weren't willing to accept that this was all there could be. They knew there had to be more. So they broke out hard hats and welders, hammers and glue guns, and they started knocking some numbers together. Removing a piece here. Adding a piece there. At first, it was awful. But the five kept at it, and soon it was...artful! One letter after another emerged, until there were twenty-six. Twenty-six letters—and they were beautiful. All colorful, shiny, and new. Exactly what our heroes didn't even know they were missing. And when the letters entered the world, something truly wondrous began to happen...Pizza! Jelly beans! Color! Books! Based on the award-winning app, this is William Joyce and Moonbot's Metropolis-inspired homage to everyone who knows there is more to life than shades of black and gray.

The Spell of the Song John Powell Ward, 2004 This book investigates the nature of the alphabet as a medium of communication. The general thesis is that writing is not a merely transparent or empty item like air or glass; rather, the alphabet is both modifier and enabler of meaning itself: The book investigates the general implications of this thesis.

They Called Her Styrene, Etc. Edward Ruscha, 2000-01-10 American artist Ed Ruscha began making prints and drawings consisting of one word or phrase in the late 1950s and has continued to explore the language-based imagery that has become a hallmark of his work. Pictured here are 500 of his word drawings which transcend their apparent randomness to become visual icons of universal emotions and places known and imagined. Full color.

Malkah's Notebook Mira Z. Amiras, 2022-03-01 Musing through a space that's somewhere between an illuminated, psalmic narrative poem and a graphic novel attuned to the soul, *Malkah's Notebook* is an intimate trip through Jewish mysticism and feminist theology. —Foreword Reviews *Malkah* is a child when her father tries teaching her to read Torah. But they don't get very far. As *Malkah* studies, her questions multiply. She discovers an earlier, hidden story of creation within the Hebrew Aleph-Bet letters in the first line of Genesis. And a door opens. *Malkah's* discovery takes her on a lifelong journey in search of her beginnings—into Jewish mystical texts, far-off places, archaeological digs, ancient gods, and ultimately into the nature of existence itself. Part bedtime story, part poem, part journal, and coupled with highly evocative illustrations, *Malkah's Notebook* is a love letter to the Hebrew alphabet that unlocks life's greatest mysteries.

Language in the Visual Arts Leslie Ross, 2014-05-23 This book discusses text and image relationships in the history of art from ancient times to the contemporary period across a diversity of cultures and geographic areas. Chapter subsections further explore cross-cultural themes. Examining text and image relationships from the obvious to the elusive, the puzzling to the profound, the minor to the major, the book demonstrates the diverse ways in which images and writing have been combined through the ages, and explores the interplay between visual and written communication in a wide range of thought-provoking examples. A color insert is included. Instructors considering this book for use in a course may request an examination copy [here](#).
