**Global Bollywood** Sangita Gopal, Sujata Moorti, 2008 Bollywood movies and their signature song-and-dance spectacles are an aesthetic familiar to people around the world, and Bollywood music now provides the rhythm for ads marketing goods such as computers and a beat for remixes and underground bands. Global Bollywood shows how this currency in popular culture and among diasporic communities marks only the latest phase of the genre's world travels. This interdisciplinary collection describes the many roots and routes of the Bollywood song-and-dance spectacle. Examining the reception of Bollywood music in places as diverse as Indonesia and Israel, the essays offer a stimulating redefinition of globalization, highlighting the cultural influence of Hindi film music from its origins early in the twentieth century to today. *More Than Bollywood* Gregory D. Booth, Bradley Shope, 2014 This is the first book to tackle the diverse styles and multiple histories of popular musics in India. It brings together fourteen of the world's leading scholars on Indian popular music to contribute chapters on a range of topics from the classic songs of Bollywood to contemporary remixes, summarized by a reflective afterword by popular music scholar Timothy Taylor. The chapters in this volume address the impact of media and technology on contemporary music, the variety of industrial developments and contexts for Indian popular music, and historical trends in popular music development both before and after the Indian Independence in 1947. The book identifies new ways of engaging popular music in India beyond the Bollywood musical canon, and offers several case studies of local and regional styles of music. The contributors address the subcontinent's historical relationships with colonialism, the transnational market economies, local governmental factors, international conventions, and a host of other circumstances to shed light on the development of popular music throughout India. To illustrate each chapter author's points, and to make available music not easily accessible in North America, the book features an Oxford web music companion website of audio and video tracks.

Focus: Popular Music in Contemporary India Natalie Sarrazin, 2019-11-28 *Focus: Popular Music in Contemporary India* examines India's musical soundscape beyond the classical and folk traditions of old to consider the culturally, socially, and politically rich contemporary music that is defining and energizing an Indian youth culture on the precipice of a major identity shift. Included are case studies featuring song notations, first-person narratives, and interviews of well-known artists and emerging musicians alike. Illuminated are issues of great import in India today—as reflected through its music—addressing questions of a national aesthetic, the effects of Western music, and identity politics as they relate to class, caste, LGBTQ perspectives, and other marginalized voices. *Transcultural Sound Practices* Carla J. Maier, 2020-02-06 Listening to the sound practices of bands and musicians such as the Asian Dub Foundation or M.I.A., and spanning three decades of South Asian dance music production in the UK, *Transcultural Sound Practices* zooms in on the concrete sonic techniques and narrative strategies in South Asian dance music and investigates sound as part of a wider assemblage of cultural technologies, politics and practices. Carla J. Maier investigates how sounds from Hindi film music tunes or bhangra tracks have been sampled, cut, looped and manipulated, thus challenging and complicating the cultural politics of sonic production. Rather than conceiving of music as a representation of fixed cultures, this book engages in a study of music that disrupts the ways in which ethnicity has been written into sound and investigates how transcultural sound practices generate new ways of thinking about culture.
