Modern Sports in Asia Younghan Cho, Charles Leary, 2016-04-14 Modern sports were introduced to Asia in the late nineteenth century as an innovation from the West, concurrently with the development of modern society in Asia. This book traces the historical developments of sporting cultures in Asia in specific local contexts – including Singapore, China, Myanmar, Taiwan, the Philippines, and India – and their intersections with larger social developments of colonialism, postcolonialism, nationalism, and the building of modern Asia and its place in a globalized world. The case studies herein present the social history of modern team sports with standardized rules such as basketball and cricket, and less familiar sports such as fives and chinlone, as they vacillate between global and local perspectives. This book also shows that modern sports have had an important influence on the makeup of everyday life in Asia, and the essays here also consider sports' impact on gender, body culture, and celebrity culture, among other concerns. This book painstakingly bridges the gaps between Asian Studies and Sports Studies in a way that reflects the historicity and multiplicity of sports in Asian societies. By adopting multi-disciplinary approaches, this book innovatively offers significant intersection between sociology, cultural studies and Asian studies of sport in Asia. This book was published as a special issue of *Sport in Society*.

King of Bollywood Anupama Chopra,2007-08-02 Here is the astonishing true story of Bollywood, a sweeping portrait about a country finding its identity, a movie industry that changed the face of India, and one man's struggle to become a star. Shah Rukh Khan's larger than life tale takes us through the colorful and idiosyncratic Bollywood movie industry, where fantastic dreams and outrageous obsessions share the spotlight with extortion, murder, and corruption. Shah Rukh Khan broke into this \$1.5 billion business despite the fact that it has always been controlled by a handful of legendary film families and sometimes funded by black market money. As a Muslim in a Hindu majority nation, exulting in classic Indian cultural values, Shah Rukh Khan has come to embody the aspirations and contradictions of a complicated culture tumbling headlong into American style capitalism. His story is the mirror to view the greater Indian story and the underbelly of the culture of Bollywood. A bounty for cinema lovers everywhere. --Mira Nair, Director, The Namesake and Monsoon Wedding King of Bollywood is the all-singing, all-dancing back stage pass to Bollywood. Anupama Chopra chronicles the political and cultural story of India with finesse and insight, through fly-on-wall access to one of its biggest, most charming and charismatic stars. -- Gurinder Chadha, director of Bend it Like Beckham The Easy Rider Raging Bull of the Bollywood industry and essential reading for any Shah Rukh Khan fan. --Emma Thompson, actress Anu Chopra infuses the pivotal moments of Shah Rukh Khan's life with an edge-of-your-seat tension worthy of the best Bollywood blockbusters. --Kirkus

100 Years of Bollywood Diptarup Das,2014-11-15 The Indian film industry stands above most other national cinemas due to its local focus yet

enormous size. Although gaining more and more international popularity, the main audience for this cinematic titan resides within India, and while this may seem a restrictive quality, the fact that India is the second most populated country in the world, combined with the local focus of Indian cinemas (in 2012 foreign imports only filled 9% of the total film box office), Indian cinema has grown to become one of the largest film industries in the world. Although the film industry is widely known as 'Bollywood', this term actually only refers to the Hindi-language films produced through the studios in Mumbai (Bombay), only one part of the incredible spectrum of Indian films, albeit the largest. The origins of cinema can be traced back to the French Lumiere Brothers. Unveiling their first short films in 1895, these revolutionary filmmakers tempted the world with a new form of entertainment. In 1896, the brothers toured their works to India for the first time, hosting a screening in Mumbai Watson Hotel. Reported as the 'Miracle of the Century' by The Times of India, it was not long until converted film fanatics started to emerge in the then British governed India. Through experimenting with techniques and technologies, early filmmaker Hiralal Sen made the first Indian short film in 1898. 1912 then saw the first screened Indian silent film, Shree Pundalik, directed by Dadasaheb Torne. Outside help was used however, with the film shot by British cinematographers and the negatives sent to London to be processed. It was the next year, 1913, which saw the first truly authentic Indian film being screened: Dadasaheb Phalke's Raja Harishchandra, and thus Indian cinema was born. Since these early beginnings India's film industry has continued to flourish, growing in popularity, size and reach. There are many factors for this ongoing growth, one of them being the affordability of cinema in the country. From the early days onwards, India cinema venues have made films accessible to the wider public, providing cheap admission, with convenient extras being sold as buyable additions, not inbuilt in the price. With the vast economic gap that is found in India, this factor has allowed film to become an art form for the people, not just for the upper class. Interestingly, in the late 1920s the British government tried to promote UK film in India in an attempt to overtake the growing American cinema, and created the Indian Cinematograph Enquiry Committee. This programme failed with this aim however, with the committee favouring Indian produced films; it seemed that nothing could stop the growth of this national movement. With technology advancements, sound and dialogue became more and more implemented in Indian films throughout the 1930s, leading to a surge of song and dance in films, such as in Indrasabha and Devi Devyani. This element would take a strong hold in Hindi cinema, and is a renowned quality found in many Bollywood films being made today. Another influential factor in Bollywood's growth was India's independence in 1947. Proud in becoming an autonomous country, national cinema experienced a Golden Era from the

1940s to the 1960s. This era saw directors such as Satyajit Ray, Guru Dutt, Raj Kapoor and Vijay Bhatt create a wide range of classic films, further establishing and redefining Indian film. It was these influential filmmakers who paved the pathway for the future of Bollywood, and its present day position as one of the largest film industries in the world.
