Global Bollywood Sangita Gopal, Sujata Moorti, 2008 Bollywood movies and their signature song-and-dance spectacles are an aesthetic familiar to people around the world, and Bollywood music now provides the rhythm for ads marketing goods such as computers and a beat for remixes and underground bands. These musical numbers have inspired scenes in Western films such as *Vanity Fair* and *Moulin Rouge*. Global Bollywood shows how this currency in popular culture and among diasporic communities marks only the latest phase of the genre's world travels. This interdisciplinary collection describes the many roots and routes of the Bollywood song-and-dance spectacle. Examining the reception of Bollywood music in places as diverse as Indonesia and Israel, the essays offer a stimulating redefinition of globalization, highlighting the cultural influence of Hindi film music from its origins early in the twentieth century to today. Hindi Film Songs and the Cinema Anna Morcom, 2017-07-05 Since their beginnings in the 1930s, Hindi films and film songs have dominated Indian public culture in India, and have also made their presence felt strongly in many global contexts. Hindi film songs have been described on the one hand as highly standardized and on the other as highly eclectic. Anna Morcom addresses many of the paradoxes eccentricities and myths of not just Hindi film songs but also of Hindi cinema by analysing film songs in cinematic context. While the presence of songs in Hindi films is commonly dismissed as purely commercial this book demonstrates that in terms of the production process, musical style, and commercial life, it is most powerfully the parent film that shapes and defines the film songs and their success rather than the other way round. While they constitute India's still foremost genre of popular music, film songs are also situational, dramatic sequences, inherently multi-media in style and conception. This book is uniquely grounded in detailed musical and visual analysis of Hindi film songs, song sequences and films as well as a wealth of ethnographic material from the Hindi film and music industries. Its findings lead to highly novel ways of viewing Hindi film songs, their key role in Hindi cinema, and how this affects their wider life in India and across the globe. It will be indispensable to scholars seeking to understand both Hindi film songs and Hindi cinema. It also forms a major contribution to popular music, popular culture, film music studies and ethnomusicology, tackling pertinent issues of

cultural production, (multi-)media, and the cross-cultural use of music in Hindi cinema. The book caters for both music specialists as well as a wider audience.

The Influence of Hindustani Classical Music on Bollywood Songs. A Statistical Outlook Amrita Singh, Soubhik Chakraborty, 2019-07-19 Master's Thesis from the year 2019 in the subject Musicology, grade: 8.5, , language: English, abstract: The present work attempts to study the impact of Hindustani Classical Music on Bollywood in a legitimate manner using a statistical approach emphasizing on statistical modeling of musical structure and performance and other statistical features such as note duration and inter onset interval with a case study in raga Yaman. Any music originates in the society and develops with the changing realities of it. It accepts new and modifies the existing cultural norms in different periods of time. This

process of acceptance and rejection makes any form of art exist for long. In spite of all this, in various phases, Hindustani classical music, being the base of many popular Bollywood songs has helped in their popularity and lifelong existence because of the strong focus on melody. A raga, which is the nucleus of Indian classical music, be it Hindustani or Carnatic, is a melodic structure with fixed notes and a set of rules which characterize a certain mood conveyed by performance. Hindustani ragas have embraced the elements of several Bollywood songs, which has given these songs a strong impact despite the strong influence of western art music in Bollywood music industry. The present work attempts to study this impact in a legitimate manner using a statistical approach emphasizing on statistical modeling of musical structure and performance and other statistical features such as note duration and inter onset interval with a case study in raga Yaman. It turns out that the same statistical model for both the raga bandish and a song based on the same raga, i.e., Yaman, an evening raga of the Kalyan thaat.

Betty Gordon at Boarding School; Or, The Treasure of Indian Chasm

Emerson, 2021-01-18 Me make you velly nice apple tart. Miss Betty. The Chinese cook flourished his rolling pin with one hand and swung his apron viciously with the other as he held open the screen door and swept out some imaginary flies. Lee Chang, cook for the bunk house in the oil fields, could do several things at one time, as he had frequently proved. The girl, who was watching a wiry little bay horse contentedly crop grass that grew in straggling whisps

about the fence posts, looked up and showed an even row of white teeth as she smiled. I don't think we're going to stay for dinner to-day, she said half regretfully. I know your apple tarts, Lee Chang—they are delicious. The fat Chinaman closed the screen door and went on with his pastry making. From time to time, as he passed from the table to the oven, he glanced out. Betty Gordon still stood watching the horse. That Bob no come? inquired Lee Chang, poking his head out of the door again. Fast developing into a good American, his natural trait of curiosity gave him the advantage of acquiring information blandly and with ease. Betty shaded her eyes with her hand. The Oklahoma sun was pitiless. Far up the road that ran straight away from the bunk house a faint cloud of dust was rising. He's coming now, said the girl confidently. Lee Chang grunted and returned to his work, satisfied that whatever Betty was waiting for would soon be at hand.

Routledge Handbook of Indian Cinemas K. Moti Gokulsing, Wimal

Dissanayake, 2013-04-17 India is the largest film producing country in the world and its output has a global reach. After years of marginalisation by

academics in the Western world, Indian cinemas have moved from the periphery to the centre of the world cinema in a comparatively short space of time. Bringing together contributions from leading scholars in the field, this Handbook looks at the complex reasons for this remarkable journey. Combining a historical and thematic approach, the Handbook discusses how Indian cinemas need to be understood in their historical unfolding as well as their complex relationships to social, economic, cultural, political, ideological, aesthetic, technical and institutional discourses. The thematic section provides an up-to-date critical narrative on diverse topics such as audience, censorship, film distribution, film industry, diaspora, sexuality, film music and nationalism. The Handbook provides a comprehensive and cutting edge survey of Indian cinemas, discussing Popular, Parallel/New Wave and Regional cinemas as well as the spectacular rise of Bollywood. It is an invaluable resource for students and academics of South Asian Studies, Film Studies and Cultural Studies.

The Indian Song of Songs Edwin Arnold, 2023-11-20 Reprint of the original, first published in 1875.

The Hindi Music Jukebox Manek Premchand, 2018-07-18 This Indian film music book is a collection of eighty essays about the people who made remarkable music in Bollywood cinema, especially during the great era, and the ideas such people brought to the recording studios. When songs had to go without rhythms or when melodies had plenty of Q n A in them. In this music book, we

flirt with Rock n Roll and scan songs that speed up at the end, we peep behind the screen to see what the idea was behind chorus songs in our films – even if there was no one to sing that chorus on the screen; it's a huge list. These pages are a reflection of the time when everyone was fired up in their art, and when no one wanted to finish last in the race. It is about artists who every now and then dreamt ideas, and only after crystallizing things perfectly in their mind's eye, went out to translate and transform their dreams into unforgettable melodies in Indian movies. Jukebox will interest the layman as well as the academician.

Bollywood and Globalization David J. Schaefer, Kavita Karan, 2013 The field of Bollywood studies has remained predominantly critical, theoretical and historical in focus. This book brings together qualitative and quantitative approaches to tackle empirical questions focusing on the relationship between soft power, hybridity, cinematic texts, and audiences. Adopting a critical-transcultural framework that examines the complex power relations that are manifested through globalized production and consumption practices, the book approaches the study of popular Hindi cinema from three broad perspectives: transcultural production contexts, content trends, and audiences. It firstly outlines the theoretical issues relevant to the spread of popular Indian

cinema and emergence of India's growing soft power. The book goes on to report on a series of quantitative studies that examine the patterns of geographical, cultural, political, infrastructural, and artistic power dynamics at work within the highest-grossing popular Hindi films over a 61-year period since independence. Finally, an additional set of studies are presented that quantitatively examine Indian and North American audience consumption practices. The book illuminates issues related to the actualization and maintenance of cinematic soft power dynamics, highlighting Bollywood's increasing integration into and subsumption by globalized practices that are fundamentally altering India's cinematic landscape and, thus, its unique soft power potential. It is of interest to academics working in Film Studies, Globalisation Studies, and International Relations.
