Harold V. Larson

Bombs Away John Steinbeck, 2009-07-08 A magnificent volume of short novels and an essential World War II report from one of America's great twentieth-century writers A Penguin Classic On the heels of the enormous success of his masterwork *The Grapes of Wrath* and at the height of the American war effort John Steinbeck, one of the most prolific and influential literary figures of his generation, wrote *Bombs Away*, a nonfiction account of his experiences with U.S. Army Air Force bomber crews during World War II. Now, for the first time since its original publication in 1942, Penguin Classics presents this exclusive edition of Steinbeck's introduction to the then-nascent U.S. Army Air Force and its bomber crew--the essential core unit behind American air power that Steinbeck described as the greatest team in the world. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Bombs Away David G. Havlick, 2018-04-11 When viewed from space, the Korean Peninsula is crossed by a thin green ribbon. On the ground, its mix of dense vegetation and cleared borderlands serves as home to dozens of species that are extinct or endangered elsewhere on the peninsula. This is Korea's demilitarized zone—one of the most dangerous places on earth for humans, and paradoxically one of the safest for wildlife. Although this zone was not intentionally created for conservation, across the globe hundreds of millions

of acres of former military zones and bases are being converted to restoration areas, refuges, and conservation lands. David G. Havlick has traveled the world visiting these spaces of military-to-wildlife transition, and in *Bombs Away* he explores both the challenges—physical, historical, and cultural—and fascinating ecological possibilities of military site conversions. Looking at particular international sites of transition—from Indiana’s Big Oaks National Wildlife Refuge to Cold War remnants along the former Iron Curtain—Havlick argues that these new frontiers of conservation must accomplish seemingly antithetical aims: rebuilding and protecting ecosystems, or restoring life, while also commemorating the historical and cultural legacies of warfare and militarization. Developing these ideas further, he shows that despite the ecological devastation often wrought by military testing and training, these activities need not be inconsistent with environmental goals, and in some cases can even complement them—a concept he calls ecological militarization. A profound, clear explication of landscapes both fraught and fecund, marked by death but also reservoirs of life, *Bombs Away* shows us how “military activities, conservation goals, and ecological restoration efforts are made to work together to create new kinds of places and new conceptions of place.”

Bombs Away Eds James Lee Hutchinson, 2008-10-01 You will either see yourself in the pages of this book, or you know someone who has been in such predicaments. Two people who have such a strong chemistry and lust for each other, but when one is available the other is not as they weave through a series of relationships, missing each other in between. They are meant for each other but each afraid that neither can measure up. They live in love, lust and desire for each other. Will they ever get it right?

Bombs Away Harry Turtledove, 2016-06-28 In his acclaimed novels of alternate history, Harry Turtledove has scrutinized the twisted soul of the twentieth century, from the forces that set World War I in motion to the rise of fascism in the decades that followed. Now, this masterly storyteller turns his eyes to the aftermath of World War II and asks: In an era of nuclear posturing, what if the Cold War had suddenly turned hot? *Bombs Away* begins with President Harry Truman in desperate consultation with General Douglas MacArthur, whose control of the ground war in Korea has slipped disastrously away. MacArthur recognizes a stark reality: The U.S. military has been cut to the bone after victory over the Nazis—while China and the USSR have built up their forces. The only way to stop the Communist surge into the Korean Peninsula and save thousands of American lives is through a nuclear attack. MacArthur advocates a strike on Chinese targets in Manchuria. In actual history, Truman rejected his general's advice; here, he does not. The miscalculation turns into a disaster when Truman fails to foresee Russia's reaction. Almost instantly, Stalin strikes U.S. allies in Europe and Great Britain. As the shock waves settle, the two superpowers are caught in a horrifying face-off. Will they attack each other directly with nuclear weapons? What countries will be caught in between? The fateful global drama plays out through the experiences of ordinary people—from a British barmaid to a Ukrainian war veteran to a desperate American soldier alone behind enemy lines in Korea. For them, as well as Truman, Mao, and Stalin, the whole world has become a battleground. Strategic strikes lead to massive movements of ground troops. Cities are destroyed, economies ravaged. And on a planet under siege, the sounds and sights of nuclear bombs become a grim harbinger of a new reality: the struggle to survive man's greatest madness. Praise for *Bombs Away* "A

fascinating and compelling story of real people caught in forces beyond their control . . . [Harry Turtledove is] the unrivaled monarch of alternate history.”—Analog “Turtledove is an undisputed centerpiece of the alternate-history genre, and now, to his already grand display, he’s adding the ambitious tale of a WWII that could have happened.”—Booklist “This is Turtledove at his best.”—SFRevu “Alternate-world warrior extraordinaire Turtledove delivers the opening barrage of a new speculative conflict.”—Kirkus Reviews

Bombs Away! John R. Bruning, 2011-05-22 Bombs Away! covers strategic bombing in Europe during World War II, that is, all aerial bombardment of a strategic nature which took place between 1939 and 1945. In addition to American (U.S. Army Air Forces) and British (RAF Bomber Command) strategic aerial campaigns against Germany, this book covers German use of strategic bombing during the Nazi’s conquest of Europe: the Battle of Britain, Operation Barbarossa, and the V 1 and V 2, where the Luftwaffe targeted Warsaw and Rotterdam (known as the Rotterdam Blitz). In addition, the book covers the blitzes against London and the bombing of other British industrial and port cities, such as Birmingham, Liverpool, Southampton, Manchester, Bristol, Belfast, Cardiff, and Coventry bombed during the Battle of Britain. The twin Allied campaigns against Germany—the USAAF by day, the RAF by night—built up into massive bombing of German industrial areas, notably the Ruhr, followed by attacks directly on cities such as Hamburg, Kassel, Pforzheim, Mainz, Cologne, Bremen, Essen, Düsseldorf, Hanover, Dortmund, Frankfurt, and the still controversial fire-bombing of Hamburg and Dresden. In addition to obvious targets like aircraft and tank manufacturers, ball bearing factories and plants that manufactured abrasives and grinding wheels were high priority targets. Petroleum refineries were a key

target with USAAF aircraft based in North Africa and later Italy, bombing the massive refinery complexes in and around Ploesti, Romania, until August 1944 when the Soviet Red Army captured the area. Other missions included industrial targets in southern Germany like Regensburg and Schweinfurt. Missions to the Nazi capital, Berlin, started in 1940 and continued through March 1945. Throughout the war there were 314 air raids on Berlin. All of this is covered in detail with authoritative text and hundreds of archival photographs, many rare or never before published.

Bombs Away Gary A. Horowitz, 2017-12-05 Bombs Away By: Gary A. Horowitz The Sterling Hall Bombing that occurred on the University of Wisconsin-Madison campus on August 24, 1970, was committed by four young people as a protest against the university's research connections with the U.S. military during the Vietnam War. The bomb was intended to destroy the Army Mathematics Research Center (AMRC). It caused massive destruction to other parts of the building and nearby buildings as well. It resulted in the death of one, injury of three others, and significant destruction to the physics department and its equipment. Author Gary A. Horowitz was a student at Madison. This is his account of that horrific event.

Bombs Away!, 1982

Bombs Away! Wilfried Wilms, William Rasch, 2006 Prompted by recent challenges to and debates about the relative public silence concerning the effects of the Allied air war over Europe during World War II, this collection of essays examines literary, visual (film and photography), and institutional (museums) representations of the bombing of civilian targets, predominantly in Germany. The authors examine narrative strategies of both well-

known and relatively little known works as well as the moral and ideological presuppositions of the varied representations of the depredations of total war. The introduction and afterword by the editors invite the readers to expand the contours and historical context of the debates about the German public discourse on the bombing war beyond the narrow confines of perpetrators and victims. The volume will be of interest to literary scholars, historians, and the general reading public interested in warfare and its effects on civilian populations.

Bombs Away by Pathfinders of the Eighth Air Force Marshall J. Thixton, George E. Moffat, John J. O'Neil, 1998

Bombs Away! Harold V. Larson, 2017-09-26 This is the story of the 70th Bombardment Squadron, a lone squadron of the U.S. Army Air Corps, which flew its B-26 aircraft island hopping across the Pacific, and which fought the early months of World War II, as a special Squadron, from Guadalcanal in the Solomon Islands. This is also the story of the Ground Echelon of that Squadron which served with distinction, under adverse conditions, for twenty-five months on various remote islands of the South Pacific. This history traces the Squadron from its inception in January 1941 through the Declaration of War and the early part of World War II. The sequence will be chronological. The story will involve pre-war activity, operations in the U.S. subsequent to Pearl Harbor, activities in Fiji and combat operations from various remote islands in the South Pacific.

Bombs Away! Martin W. Bowman, 2010-06-15 This is a unique selection of wide-ranging experiences of British and Commonwealth Bomber Command aircrew during World War II. Their endearing bravery and fortitude and sometimes their despondency and cynicism, shows through in these stirring, daring, often irreverent, humorous and sometimes sardonic but memorable stories. All reflect the ethos, camaraderie, fear and bravery of the largely ordinary men, most of whom were plucked from civvy street and thrust into a frightening, bitter conflict which was made even more dangerous by the lethal advance of technology. Death would normally come from an anonymous assassin, either in the black of night, or from behind a cloud or out of the sun, or simply from the Flak gunner on the ground. And, if all this was not enough, the often unmerciful weather was no respecter of mortality. There was no escaping the all-embracing shock wave that rippled through the bomber squadrons after a heavy mauling over enemy territory. Nothing could be more poignant than the vacuous places at tables in the depleted mess halls, the empty locker of the departed, or the dog pining by the barracks for its missing master. Each man had to deal with tragedy in his own inimitable way. Some hid their feelings better than others did only for the pain to resurface months or even years later. Some who had survived the physical pressures and who completed their tours then succumbed to the mental torture that had eaten away at their psyche during the incessant and interminable onslaught day after day, night after night. There was little respite. The valorous men of Bomber Command were, in turn, the Light Brigade, the stop gap, the riposte, the avengers, the undefeated. Always, they were expendable.

Bombs Away Eds James Lee Hutchinson,2008-10-01 Bombs Away --This is the author's second book on his WW II service as a B-17 radio operator in 20 combat missions in the 490th Bomb Group of the Eighth Air Force. The book is compiled of stories about Hutchand other airmen as told by the combat crew members themselves. The stories paint vivid pictures of how it was to be a part of the Eighth Air Force's bombing missions that left England to blast targets in Hitler's Third Reich. Each day the skies filled with hundreds of B-17 Flying Fortress bombers and their escorts crossing the English Channel toward enemy

targets heavily protected by anti-aircraft batteries and German fighters waiting to attack the heavy bombers. Hutch writes, The crews manned their combat positions and waited for the hell they knew was coming. Airmen of the Fifteenth Air Force blasted enemy targets in the Italian and Mediteranian theater. The author's amazing stories of survival and/or death in the deadly skies is riveting. Stories from interviews with WWII veterans and information from the 490th Historical Record provide eyewitness accounts of bombing missions, fighter attacks, mid-air collisions, and airmen shot down and imprisoned in POW camps. Final chapters tell of a childhood in the poverty and hardships of the Great Depression. The 274 page book contains 29 photos, 72 war stories and 24 tales of a Hoosier boyhood.

Bomb (Graphic Novel) Steve Sheinkin, 2023-01-24 A riveting graphic novel adaptation of the award-winning nonfiction book, Bomb—the fascinating and frightening true story of the creation behind the most destructive force that birthed the arms race and the Cold War. In December of 1938, a chemist in a German laboratory made a shocking discovery: When placed next to radioactive material, a Uranium atom split in two. That simple discovery launched a scientific race that spanned three continents. In Great Britain and the United States, Soviet spies worked their way into the scientific community; in Norway, a commando force slipped behind enemy lines to attack German heavy-water manufacturing; and deep in the desert, one brilliant group of scientists was hidden away at a remote site at Los Alamos. This is the story of the plotting, the risk-taking, the deceit, and genius that created the world's most formidable weapon. This is the story of the atomic bomb. New York Times bestselling author Steve Sheinkin's award-winning nonfiction book is now available reimaged in the graphic novel format. Full color illustrations from Nick Bertozzi

are detailed and enriched with the nonfiction expertise Nick brings to the story as a beloved artist, comic book writer, and commercial illustrator who has written a couple of his own historical graphic novels, including *Shackleton* and *Lewis & Clark*. Accessible, gripping, and educational, this new edition of *Bomb* is perfect for young readers and adults alike. Praise for *Bomb* (2012): “This superb and exciting work of nonfiction would be a fine tonic for any jaded adolescent who thinks history is 'boring.' It's also an excellent primer for adult readers who may have forgotten, or never learned, the remarkable story of how nuclear weaponry was first imagined, invented and deployed—and of how an international arms race began well before there was such a thing as an atomic bomb.” —The Wall Street Journal “This is edge-of-the seat material that will resonate with YAs who clamor for true spy stories, and it will undoubtedly engross a cross-market audience of adults who dozed through the World War II unit in high school.” —The Bulletin (starred review) Also by Steve Sheinkin: *Fallout: Spies, Superbombs, and the Ultimate Cold War Showdown* *The Port Chicago 50: Disaster, Mutiny, and the Fight for Civil Rights* *Undeclared: Jim Thorpe and the Carlisle Indian School Football Team* *Most Dangerous: Daniel Ellsberg and the Secret History of the Vietnam War* *Born to Fly: The First Women's Air Race Across America* *The Notorious Benedict Arnold: A True Story of Adventure, Heroism & Treachery* *Which Way to the Wild West?: Everything Your Schoolbooks Didn't Tell You About Westward Expansion* *King George: What Was His Problem?: Everything Your Schoolbooks Didn't Tell You About the American Revolution* *Two Miserable Presidents: Everything Your Schoolbooks Didn't Tell You About the Civil War*

Bombs Away John Vetto, 2023-12-29 To movie critics, a bomb is unequivocally bad—something that failed artistically, failed at the box office, or both. John Vetto, who

describes himself as a cinephile but (most assuredly) NOT a professional movie critic, defines the term more broadly. To Vetto, a bomb may have bombed at the box office or become a cult classic. It may be genuinely terrible or merely silly. The one thing all bombs have in common? They're fun to watch. In *Bombs Away: Fifty Old, Often Bad, and Mostly Forgotten Films*, in No Particular Order, Vetto takes a deep dive into these works not to make light of them (well, not just to make light of them) but to explore their history and themes, draw connections, provide insight into human nature, and enlighten us as to how and why these cheaply-made films were created. So, grab some popcorn, dim the lights, and settle back for an edifying, entertaining journey through an underexplored corner of pop culture.
