**Super-sized Kids Walter L. Larimore,Sherri Flynt,Steve Halliday,2005** The experts at America's 'Hospital of the Future' provide a comprehensive approach to helping parents control their children's weight while developing a healthy, active lifestyle. Studies show that as many as one in four American children is overweight, and childhood obesity rates have doubled since the late 1970s. Medical problems that doctors once saw only in adults aged 50 or older are now striking individuals in their 20s and younger, including heart disease, stroke, diabetes, colorectal cancer, high blood pressure, asthma, joint problems, and arthritis. In this essential new book, a pediatric endocrinologist and a respected dietician present a step-by-step, medically sound, and achievable weight-control program that will benefit the whole family. Poor diet and sedentary lifestyles-as well as a lack of parental guidance-are at the root of this child obesity epidemic. Studies show that approximately 40 % of obese children will grow up to be obese adults. This book seeks to break this alarming pattern.

**Popular Geopolitics and Nation Branding in the Post-Soviet Realm Robert A. Saunders,2016-07-07** This seminal book explores the complex relationship between popular geopolitics and nation branding among the Newly Independent States of Eurasia, and their combined role in shaping contemporary national image and statecraft within and beyond the region. It provides critical perspectives on international relations, nationalism, and national identity through the use of innovative approaches focusing on popular culture, new media, public diplomacy, and alternative narrators of the nation. By positing popular geopolitics and nation branding as contentious forces and complementary flows, the study explores the tensions and elisions between national self-image and external perceptions of the nation, and how this complex interplay has become integral to contemporary global affairs.

**Educating the Consumer-citizen Joel Spring,2003-05-14** In Educating the Consumer-Citizen: A History of the Marriage of Schools, Advertising, and Media, Joel Spring charts the rise of consumerism as the dominant American ideology of the 21st century. He documents and analyzes how, from the early 19th century through the present, the combined endeavors of schools, advertising, and media have led to the creation of a consumerist ideology and ensured its central place in American life and global culture. Spring first defines consumerist ideology and consumer-citizen and explores their 19th-century origins in schools, children's literature, the commercialization of American cities, advertising, newspapers, and the development of department stores. He then traces the rise of consumerist ideology in the 20th century by looking closely at: the impact of the home economics profession on the

education of women as consumers and the development of an American cuisine based on packaged and processed foods; the influence of advertising images of sports heroes, cowboys, and the clean-shaven businessman in shaping male identity; the outcomes of the growth of the high school as a mass institution on the development of teenage consumer markets; the consequences of commercial radio and television joining with the schools to educate a consumer-oriented population so that, by the 1950s, consumerist images were tied to the Cold War and presented as the American way of life in both media and schools; the effects of the civil rights movement on integrating previously excluded groups into the consumer society; the changes the women's movement demanded in textbooks, school curricula, media, and advertising that led to a new image of women in the consumer market; and the ascent of fast food education. Spring carries the story into the 21st century by examining the evolving marriage of schools, advertising, and media and its ongoing role in educating the consumer-citizen and creating an integrated consumer market. This book will be of wide interest to scholars, professionals, and students across foundations of education, history and sociology of education, educational policy, mass communications, American history, and cultural studies. It is highly appropriate as a text for courses in these areas.

*Thanks for Watching* Patricia G. Lange, 2019-11-15 YouTube hosts one billion visitors monthly and sees more than 400 hours of video uploaded every minute. In her award winning book, *Thanks for Watching*, Patricia G. Lange offers an anthropological perspective on this heavily mediated social environment by analyzing videos and the emotions that motivate sharing them. She demonstrates how core concepts from anthropology—participant-observation, reciprocity, and community—apply to sociality on YouTube. Lange's book reconceptualizes and updates these concepts for video-sharing cultures. Lange draws on 152 interviews with YouTube participants at gatherings throughout the United States, content analyses of more than 300 videos, observations of interactions on and off the site, and participant-observation. She documents how the introduction of monetization options impacted perceived opportunities for open sharing and creative exploration of personal and social messages. Lange's book provides new insight into patterns of digital migration, YouTube's influence on off-site interactions, and the emotional impact of losing control over images. The book also debunks traditional myths about online interaction, such as the supposed online/offline binary, the notion that anonymity always degrades public discourse, and the popular characterization of online participants as over-sharing narcissists. YouTubers' experiences illustrate fascinating hybrid forms of contemporary sociality that are neither purely mediated nor sufficient when conducted only in person. Combining intensive ethnography, analysis of video artifacts, and Lange's personal vlogging experiences, the book explores how YouTubers are creating a posthuman collective characterized by interaction, support, and controversy. In analyzing the tensions between YouTubers' idealistic goals of sociality and the site's need for monetization, *Thanks for Watching* makes crucial contributions to cultural anthropology, digital ethnography, science and technology studies, new media studies, communication, interaction design, and posthumanism. For its perceptive analysis of video blogging for self-expression and sociality, *Thanks for Watching* received the Franklyn S. Haiman Award for Distinguished Scholarship in Freedom of Expression (2020), from the National Communication Association.

*The Star as Icon* Daniel Alan Herwitz, 2008 Princess Diana, Jackie O, Grace Kelly-the star icon is the most talked about yet least understood persona. The object of adoration, fantasy, and cult obsession, the star icon is a celebrity, yet she is also something more: a dazzling figure at the center of a media pantomime that is at once voyeuristic and zealously guarded. With skill and humor, Daniel Herwitz pokes at the gears of the celebrity-making machine, recruiting a philosopher's interest in the media, an eye for society, and a love of popular culture to divine our yearning for these iconic figures and the role they play in our lives. Herwitz portrays the star icon as caught between transcendence and trauma. An effervescent being living on a distant, exalted planet, the star icon is also a melodramatic heroine desperate to escape her life and the ever-watchful eye of the media. The public buoys her up and then eagerly watches her fall, her collapse providing a satisfying conclusion to a story

sensationally told-while leaving the public yearning for a rebirth. Herwitz locates this double life in the opposing tensions of film, television, religion, and consumer culture, offering fresh perspectives on these subjects while ingeniously mapping society's creation (and destruction) of these special aesthetic stars. Herwitz has a soft spot for popular culture yet remains deeply skeptical of public illusion. He worries that the media distances us from even minimal insight into those who are transfigured into star icons. It also blinds us to the shaping of our political present.

**Cloverfield** Steffen Hantke,2023-08-16 Upon its release in 2008, Matt Reeves’s Cloverfield revitalized the giant creature, a cinematic trope that had languished for over a decade. The film addressed the attacks of September 11, 2001, trading the jingoistic rhetoric of retributive military aggression for serious engagement with personal and collective trauma. It applied the horror genre’s fascination with personal stories captured by found footage to the grand violence of history. Innovative and intense, Cloverfield represented blockbuster filmmaking at its best. Cloverfield’s franchising followed the path of high-profile Hollywood properties. This volume provides the first comprehensive overview of the franchise, measuring how it steers precariously between the commercial potential, creative risks, and political challenges in Hollywood. As 10 Cloverfield Lane (2016) and The Cloverfield Paradox (2018) struggled to sustain and update the franchise’s original concept, both films’ strengths and weaknesses come into focus by comparison with the original, just as the historical sequence of all three films allows for a reassessment of Cloverfield itself. Author Steffen Hantke examines how, in the broader context of postmillennial Hollywood, the Cloverfield franchise remains both a harbinger of the way Hollywood does business and a test case for the cinematic fantasies of apocalyptic disaster that continue to dominate global box office, long after the Cold War that gave rise to giant creatures has ended and 9/11 has lost its hold on the global imagination. As an inspiration for the next stage of blockbuster filmmaking, in which franchises have replaced the singular cinematic masterpiece and marketing plays to fans as critics and scholars, Cloverfield remains as relevant today as when it first unleashed its giant creature onto New York City over a decade ago.
