James S. A. Corey

The Audacity of Hope Barack Obama, 2006 Senator Obama's vision of how we can move beyond our divisions to tackle concrete problems.

The Audacity of Hope Barack Obama, 2006-10-17 #1 NEW YORK TIMES BESTSELLER • Barack Obama's lucid vision of America's place in the world and call for a new kind of politics that builds upon our shared understandings as Americans, based on his years in the Senate "In our lowdown, dispiriting era, Obama's talent for proposing humane, sensible solutions with uplifting, elegant prose does fill one with hope."—Michael Kazin, *The Washington Post* In July 2004, four years before his presidency, Barack Obama electrified the Democratic National Convention with an address that spoke to Americans across the political spectrum. One phrase in particular anchored itself in listeners' minds, a reminder that for all the discord and struggle to be found in our history as a nation, we have always been guided by a dogged optimism in the future, or what Obama called "the audacity of hope." *The Audacity of Hope* is Barack Obama's call for a different brand of politics—a politics for those weary of bitter partisanship and alienated by the "endless clash of armies" we see in congress and on the campaign trail; a politics rooted in the faith, inclusiveness, and nobility of spirit at the heart of "our improbable experiment in democracy." He explores those forces—from the fear of losing to the perpetual need to raise money to the power of the media—that can stifle even the best-intentioned politician. He also writes, with surprising intimacy and self-deprecating humor, about settling in as a senator, seeking to balance the demands of public service and family life, and his own deepening religious commitment. At the heart of this book is Barack Obama's vision of how we can move beyond our divisions to tackle concrete problems. He examines the growing economic insecurity of American families, the racial and religious tensions within the body politic, and the transnational threats—from terrorism to pandemic—that gather beyond our shores. And he grapples with the role that faith plays in a democracy—where it is vital and where it must never intrude. Underlying his stories is a vigorous search for connection: the foundation for a radically hopeful political consensus. Only by returning to the principles that gave birth to our Constitution, Obama says, can Americans repair a political process that is broken, and restore to working order a government that has fallen dangerously out of touch with millions of ordinary Americans. Those Americans are out there, he writes—"waiting for Republicans and Democrats to catch up with them."

American Audacity: In Defense of Literary Daring William Giraldi, 2018-08-21 One of the most gifted literary essayists of his generation defends stylistic boldness and intellectual daring in American letters. Over the last decade William Giraldi has established himself as a charismatic and uncompromising literary essayist, "a literature-besotted Midas of prose" (Cynthia Ozick). Now, *American Audacity* gathers a selection of his most powerful considerations of American writers and themes—a "gorgeous fury of language and sensibility" (Walter Kirn)—including an introductory call to arms for twenty-first-century American literature, and a new appreciation of James Baldwin's genius for nonfiction. With potent insights into the storied tradition of American letters, and written with a "commitment to the dynamism and dimensions of language," *American Audacity* considers giants from the past (Herman Melville, Edgar Allan Poe, Harper Lee, Denis Johnson), some of our most well-known living critics and novelists (Harold Bloom, Stanley Fish, Katie Roiphe, Cormac McCarthy, Allan Gurganus, Elizabeth Spencer), as well as those cultural-literary themes that have concerned Giraldi as an American novelist (bestsellers, the "problem" of Catholic fiction, the art of hate mail, and his viral essay on bibliophilia). Demanding that literature be audacious, and urgent in its convictions, *American Audacity* is itself an act of intellectual daring, a compendium shot through with Giraldi's "emboldened and emboldening critical voice" (Sven Birkerts). At a time when literature is

threatened by ceaseless electronic bombardment, Giraldi argues that literature "must do what literature has always done: facilitate those silent spaces, remain steadfastly itself in its employment of slowness, interiority, grace, and in its marshaling of aesthetic sophistication and complexity." *American Audacity* is ultimately an assertion of intelligence and discernment from a maker of "perfectly paced prose" (*The New Yorker*), a book that reaffirms the pleasure and wisdom of the deepest literary values.

Barack Obama Book University Press, 2020-11-09 University Press returns with another short and captivating portrait of one of history's most compelling figures, Barack Obama. Barack Obama is considered one of the most significant figures of the 21st century. He was the first African-American President of the United States, his signature Obamacare Patient Protection and Affordable Care Act extended health insurance coverage to 20 million Americans, he is credited with pulling the American economy back from the brink of an economic depression, he expanded federal hate crime laws to include crimes motivated by a victim's gender or sexual orientation, he ended the don't ask, don't tell policy in the U.S. armed forces, his administration urged the Supreme Court to strike down same-sex marriage bans (which it did), he nominated two women (and America's first Hispanic) to the Supreme Court, he substantially escalated the use of drone strikes against terrorists associated with al-Qaeda and the Taliban, he committed the United States to the Paris Agreement on global climate change, he brokered the JCPOA nuclear deal with Iran, he normalized U.S. relations with Cuba, and he won the Nobel Peace Prize. Barack Obama was born in Honolulu, Hawaii on August 4, 1961. His mother was a white American from Kansas. His father was a black East African from Kenya. He grew up in Seattle, Honolulu, and Jakarta, attended college in Los Angeles, graduated from Columbia University in New York, graduated from Harvard Law School in Cambridge, met and married his wife, Michelle, in Chicago, and, for eight years, lived in the White House in Washington D.C. This short book tells the intensely human story of a man who changed the world in a way that no one else could.

Healing the Split Marc Elihu Hofstadter, 2011 *Healing the Split* consists of the collected essays of poet, literary critic and philosopher Marc Elihu Hofstadter. The essays stretch from Hofstadter's early scholarly articles about poets William Carlos Williams and Yves Bonnefoy through articles published in the *Redwood Coast Review* about poetry, art, music, science, politics and France to recent articles concerning the split between the sciences and the humanities, reason and feeling/intuition/faith. The book embodies Hofstadter's consistent belief in the idea that all human activities are composed of an objective element and a subjective element. Human knowledge, whether scientific, mathematical, philosophical or artistic, contains a degree of objective certainty mixed with a component of subjective feeling. The differences between science and the humanities are differences of degree of objectivity, not of essence, and the knowledge the humanities display is a genuine form of knowledge, less certain than science but rich in tangible, felt experience. Even early in his career as a literary critic, Hofstadter was interested in how such otherwise diverse poets as Williams and

Bonnefoy sacralize the coming together of mind and world in all forms of human experience. As Williams put it, No ideas but in things -by which he meant, not, Let there not be any ideas but, Let all ideas be inextricably entwined with the physical world Hofstadter argues that, in all our activities, there is a mixture of the thinking, reasoning mind and the parts of us that feel, perceive, touch-our bodies, our hearts. Science and philosophy are the great achievements of the mind, while art and religion are the most powerful consummations of sensing and feeling-yet science and philosophy are partly emotive, and art and theology partly rational. The difference, again, is in degree. Healing the Split is an attempt to bring reason and feeling/intuition/faith together, to show how they are intimately related. The Buddhist faith is key to this effort, because Buddhism doesn't analyze out reason and non-rational knowledge as separate faculties but tries to unite them in a direct, embodied kind of experience that heals the split between them and makes the individual human being whole. In Buddhism, everything we know is known through consciousness, and distinctions between subject and object, mind and world, logic and faith become artificial, since consciousness is essentially unitary. And Buddhism sees all phenomena, known through consciousness, as being related in a universal web everything is connected ultimately to everything else, and the world is essentially One. Healing the Split is finally a work of mysticism in the line of Parmenides, who believed that everything is one, or the Kabbalists, who worshipped the All in the form of Ha Shem the unnamable Name. Marc Elihu Hofstadter was born in New York City in 1945. He received his B.A. in French literature from Swarthmore College in 1967 and his Ph.D. in Literature from the University of California at Santa Cruz in 1975. He has taught American literature at Santa Cruz, the Universite d'Orleans (on a Fulbright Lectureship) and Tel Aviv University. In 1980 he obtained his Master of Library Science degree from the University of California at Berkeley, and from 1982 to 2005 served as the Librarian of the City of San Francisco's transit agency. He has published five volumes of poetry: House of Peace, Visions, Shark's Tooth, Luck and Rising at 5 AM, all of which are available on amazon.com, and his poems, translations and essays have appeared in over sixty magazines. He lives in the retirement community of Rossmoor in Walnut Creek, California with his partner, the artist David Zurlin.

Before We Were Strangers Renée Carlino, 2015-08-18 From the USA TODAY bestselling author of *Sweet Thing* and *Nowhere But Here* comes a love story about a Craigslist "missed connection" post that gives two people a second chance at love fifteen years after they were separated in New York City. To the Green-eyed Lovebird: We met fifteen years ago, almost to the day, when I moved my stuff into the NYU dorm room next to yours at Senior House. You called us fast friends. I like to think it was more. We lived on nothing but the excitement of finding ourselves through music (you were obsessed with Jeff Buckley), photography (I couldn't stop taking pictures of you), hanging out in Washington Square Park, and all the weird things we did to make money. I learned more about myself that year than any other. Yet, somehow, it all fell apart. We lost touch the summer after graduation when I went to South America to work for National Geographic. When I came back, you were gone. A part of me still wonders if I pushed you too hard after the wedding... I didn't see you again until a month ago. It was a Wednesday. You were rocking back on your heels, balancing on that thick yellow line that runs along the subway platform, waiting for the F train. I didn't know it was you until it was too late, and then you were gone. Again. You said my name; I saw it on your lips. I tried to will the train to stop, just so I could say hello. After seeing you, all of the youthful feelings and memories came flooding back to me, and now I've spent the better part of a month wondering what your life is like. I might be totally out of my mind, but would you like to get a drink with me and catch up on the last decade and a half? M

"Yes We Can" Jeffrey L. Sammons, Wolfgang Mieder, 2009 As President Barack Obama outlined his promise for change during the presidential campaign, he made effective use of proverbs and proverbial phrases, and invented many quotable epithets that have all the makings of future proverbs. This book examines how Obama's natural and authentic reliance on traditional metaphors enhances his impressive rhetoric, rather than reducing it to mere sound bites. Proverbs, with their often colorful metaphors, add expressiveness and emotion to his communications, giving people the opportunity to follow his pragmatic or philosophical arguments through common language. No matter the subject, Obama's prose contains metaphorical language that makes his rhetoric and oratory universally accessible. This book contains detailed analyses of the proverbial rhetoric in Obama's books *Dreams from My Father* (1995) and *The Audacity of Hope* (2006). A section looks at his proverbial language in 229 speeches, news conferences, interviews, and radio addresses, and the final section presents in-depth studies of his seven most significant addresses. It includes a comprehensive contextualized index of 1714 proverbial texts found within the writings and speeches from Obama's political beginnings to his memorable inaugural address.

Endpapers Alexander Wolff, 2021-03-02 "A powerfully told story of family, honor, love, and truth . . . the beautiful and haunting stories told in this book transcend policy and politics." —Beto O'Rourke A literary gem researched over a year the author spent living in Berlin, *Endpapers* excavates the extraordinary histories of the author's grandfather and father: the renowned publisher Kurt Wolff, dubbed "perhaps the twentieth century's most discriminating publisher" by the New York Times Book Review, and his son Niko, who fought in the Wehrmacht during World War II before coming to America. Born in Bonn into a highly cultured German-Jewish family, Kurt became a publisher at twenty-three, setting up his own firm and publishing Franz Kafka, Joseph Roth, Karl Kraus, and many other authors whose books would soon be burned by the Nazis. After fleeing Germany in 1933, Kurt and

his second wife, Helen, founded Pantheon Books in a small Greenwich Village apartment. Pantheon would soon take its own place in literary history with the publication of Nobel laureate Boris Pasternak's novel *Doctor Zhivago*, and as the conduit that brought major European works to the States. But Kurt's taciturn son Niko, offspring of his first marriage to Elisabeth Merck, was left behind in Germany, where despite his Jewish heritage he served the Nazis on two fronts. As Alexander Wolff visits dusty archives and meets distant relatives, he discovers secrets that never made it to the land of fresh starts, including the connection between Hitler and the family pharmaceutical firm E. Merck. With surprising revelations from never-before-published family letters, diaries, and photographs, *Endpapers* is a moving and intimate family story, weaving a literary tapestry of the perils, triumphs, and secrets of history and exile.

Bright, Infinite Future Mark Green, 2016-05-03 Blending the historical, biographical and political, this wide-ranging memoir + manifesto describes how the values of the 1960s are shaping a new progressive majority in 2016 and beyond. Multi-faceted Mark Green--bestselling author, public interest lawyer, elected official--guides us through contemporary American politics as Johnson retaliates against his antiwar work; Nader launches the modern consumer movement; Clinton wins the 1992 New York primary and therefore the nomination; the author debates Castro in Havana on human rights; and Green loses the closest NYC mayoral election in a century to Bloomberg after 9/11 in a perfect storm of money, terrorism, and race. As Public Advocate for New York City, Green is Mayor Giuliani's *bête noir*--he exposes the NYPD's racial profiling, kills off Joe Camel, inspires the city's 311 system, and shows how a person who believes in positive, progressive government can make it work for average citizens. Starting with the consequential movements of the 1960s, *Bright, Infinite Future* tracks how a rising tide of minority and Millennial voters, the GOP's lurch from mainstream to extreme, and the contrast between the disastrous presidency of Bush 43 and the successful ones of Clinton and Obama are leading to a new era of progressive patriotism that will culminate in the 2016 presidential election. Full of behind-the-scenes stories about boldfaced names, this will be the 2016 book for liberals looking to Leonard Bernstein's 'bright, infinite future, conservatives who want to know what they're up against, and readers who want to know what it takes and what it's like in the arena. --

Branding the Candidate Lisa D. Spiller, Jeff Bergner, 2011-07-15 American voters will be empowered by this revealing, behind-the-scene exposé of the marketing strategies and tactics political candidates use to win their hearts, minds, donations, and votes. *Branding the Candidate: Marketing Strategies to Win Your Vote* was written to empower voters to become sharper, more informed political consumers. It does that by taking a close look at political marketing strategies, especially those used by the Obama presidential campaign, which took marketing to a new level of sophistication. Specifically, the book discusses the creation of the Obama brand; how the Obama campaign used database-driven, political microtargeting and high-tech digital media to reach various market segments; and the campaign's development and implementation of new political fundraising techniques. The book also discusses how a candidate who is created as a brand must cope with the challenges of brand management once in power. Finally, the authors counsel voters on how to arm themselves against the branding and marketing techniques that will be employed by candidates in the 2012 election, and they reflect on what the widespread extension of these techniques to the political

process means for American democracy.

Sex and Race in the Black Atlantic Daniel McNeil, 2010-01-27 This is the first book to place the self-fashioning of mixed-race individuals in the context of a Black Atlantic. Drawing on a wide range of sources and a diverse cast of characters - from the diaries, letters, novels and plays of femme fatales in Congo and the United States to the advertisements, dissertations, oral histories and political speeches of Black Power activists in Canada and the United Kingdom - it gives particular attention to the construction of mixed-race femininity and masculinity during the twentieth century. Its broad scope and historical approach provides readers with a timely rejoinder to academics, artists, journalists and politicians who only use the mixed-race label to depict prophets or delinquents as new national icons for the twenty-first century.
