*Valuation in Life Sciences* Boris Bogdan,Ralph Villiger,2007-03-23 This book is the first complete guide to valuation in life sciences for industry professionals, investors, and academics. It introduces the characteristics of drug and medical device development, explains how to translate these into the valuation, and provides valuable industry data. Special emphasis is put on the practicability of the proposed methods by including many hands-on examples, without compromising on realistic results.

*Australian Universities* Dr Julia Horne,Dr Matthew A.M. Thomas,2022-12-01 Australian Universities: A conversation about public good highlights contemporary challenges facing Australian universities and offers new ideas for expanding public good. More than 20 experts take up the debate about our public universities: who they are for; what their mission is (or should be); what strong higher education policy entails; and how to cultivate a robust and constructive relationship between government and Australian universities. Issues covered include: – How to change a culture of exclusion to ensure all are welcome in universities, especially Aboriginal and Torres Strait Islander students as well as those from low socio-economic backgrounds. – How educational disadvantage in Australia often begins in school and is still the major barrier to full university participation. – The reality that funding for research and major infrastructure requires significant additional funds from non-government sources (e.g. international student fees). – A lack of policy recognition that international university students increase Australia’s social, cultural and economic capital. – Pathways to making policy decisions wide-ranging, consultative, inclusive and inspired rather than politically partisan and ideologically driven. – The impact of COVID-19 on universities, and particularly how the pandemic and governmental responses exacerbated extant and emerging issues. Australian Universities rekindles a much-needed conversation about the vital role of public universities in our society, arguing for initiatives informed by the realities of university life and offering a way forward for government, communities, students and public universities – together – to advance public good.

Washington Information Directory 2019-2020 CQ Press,2019-07-03 The Washington Information Directory is the essential one-stop source for information on U.S. governmental and nongovernmental agencies and organizations. This thoroughly researched guide provides capsule descriptions that help users quickly and easily find the right person at the right organization. The Washington Information Directory offers three easy ways to find information: by name, by organization, and through detailed subject indexes. Although it is a directory, the volume is topically organized, and within the taxonomic structure the relevant organizations are listed not only with contact information but with a brief paragraph describing what the organization (whether government or nongovernmental) does related to that topic. It is focused on Washington—in order to be listed, an organization must have an office in the Washington metropolitan area. These descriptions are not boilerplate advertising material from the organizations; rather, they are hand-crafted by a talented freelance research team. In addition, the Washington Information Directory pulls together 55 organization charts for federal agencies, congressional resources related to each chapter topic, hotline and contact information for various specific areas of interest (from Food Safety Resources to internships in Washington), and an extensive list of active congressional caucuses and contact details. It has two appendices, one with thorough information on congresspersons and committees, and the second with governors and embassies. With more than 10,000 listing and coverage of the new presidential administration, the 2019–2020 Edition features contact information for the following: • 116th Congress and federal agencies • Nongovernmental organizations • Policy groups, foundations, and institutions • Governors and other state officials • U.S. ambassadors and foreign diplomats • Congressional caucuses
