Herman Parish

Straight White Male John Niven,2014-10-07 From the bestselling author of Kill Your Friends, a wildly funny look at the midlife crisis of a loveable rogue. “A high-octane novel of excess” (Ian Rankin). Irish novelist Kennedy Marr is a first rate bad boy. When he is not earning a fortune as one of Hollywood’s most sought after scriptwriters, he is drinking, insulting, and philandering his way through Los Angeles, ‘successfully debunking the myth that men are unable to multitask.’ He is loved by many women, but loathed by even more including ex-wives on both sides of the pond. Kennedy’s appetite for trouble is insatiable, but when he discovers that he owes 1.4 million dollars in back taxes, it seems his outrageous, hedonistic lifestyle may not be as sustainable as he thought. Forced to accept a teaching position at sleepy Deeping University, where his ex-wife and teenaged daughter now reside, Kennedy returns to England with a paper trail of tabloid headlines and scorned starlets hot on his bespoke heels. However, as he acclimatizes to the quaint campus Kennedy is forced to reconsider his laddish lifestyle. Incredible as it may seem, there might actually be a father and a teacher lurking inside this ‘preening, narcissistic, priapic sociopath’. “A sharp and knowing satire of the film industry, publishing and academia.” —The Guardian

Amelia Bedelia, Rocket Scientist? Herman Parish,2007-02-06 When Amelia Bedelia helps out at the school science fair, she finds an exploding volcano, some UFOs, and a mad scientist!

Wars of the Roses: Trinity Conn Iggulden,2015-06-16 The brilliant retelling of the Wars of the Roses continues with Trinity, the second gripping novel in the new series from historical fiction master, Conn Iggulden. 1454: King Henry VI has remained all but exiled in Windsor Castle, struck down by his illness for over a year, his eyes vacant, his mind a blank. His fiercely loyal wife and Queen, Margaret of Anjou, safeguards her husband's interests, hoping that her son Edward will one day know the love of his father. Richard Duke of York, Protector of the Realm, extends his influence throughout the kingdom with each month that Henry slumbers. The Earls of Salisbury and Warwick make up a formidable trinity with Richard, and together they seek to break the support of those who would raise their colours in the name of Henry and his Queen. But when the King unexpectedly recovers his senses and returns to London to reclaim his throne, the balance of power is once again thrown into turmoil. The clash of the Houses of Lancaster and York will surely mean a war to tear England apart . . . Following on from Stormbird, Trinity is the second epic instalment in master storyteller Conn Iggulden's new Wars of the Roses series. Fans of Game of Thrones and The Tudors will be gripped from the word go. Praise for Stormbird: 'Pacey and juicy, and packed with action' Sunday Times 'Energetic, competent stuff; Iggulden knows his material and his audience' Independent 'A novel that seamlessly combines narrative, historical credence and great knowledge of the period' Daily Express 'A page-turning thriller' Mail on Sunday 'Superbly plotted and paced' The Times

How to Be a Cat Nikki McClure,2019-05-07 Cut-paper illustrations and single words of text show a kitten's attempts to imitate an adult cat's mastery of such skills as stretching and stalking in this board book edition of McClure's classic picture book.

Viper Wine Hermione Eyre,2015-04-14 “Using an alchemy all of her own, Eyre’s postmodern take on the 17th century renders it dazzlingly fresh and contemporary.” —Guardian (UK) Venetia Stanley was the great beauty of her day, so dazzling she inspired Ben Jonson to poetry and Van Dyck to painting. But now she is married, the adoration to which she has become accustomed has curdled to scrutiny, and she fears her powers are waning. Her devoted husband, Sir Kenelm Digby—explorer, diplomat, philosopher, alchemist— refuses to prepare a beauty tonic for her, insisting on her continued perfection. Venetia, growing desperate, secretly engages an apothecary to sell her “viper wine”—a strange potion said to bolster the blood and invigorate the skin. The results are instant, glorious, and addictive, and soon the ladies of the court of Charles I are looking unnaturally youthful. But there is a terrible price to be paid, as science clashes with magic, puritans rebel against the decadent monarchy, and England slides into civil war. Based on real events and written with anachronistic verve, Viper Wine is an intoxicating brew of love, longing and vanity, where the 17th and 21st centuries mix and mingle in the most enchanting and mind-bending ways.

In the Zone Peter Wolfe,1997 The Twilight Zone explores the possibilities inhering in the ordinary. A Twilight Zone episode can move us by being poignant and intimate, rambunctious or thought provoking. It can also be orchestrated as a set of intertwined plot developments or as a serial progression. But regardless of whether it takes place on an asteroid, in a city pool room, or in the backwoods, it will usually convey both a folklorist's eye for detail and the born raconteur's sense of pace. Rod Serling, the show's founder, main scriptwriter, and artistic director, knew how much burden he could place on his rhetorical and dramatic gifts. Deservedly celebrated as a pioneer in TV science fiction, he also writes about history and loyalty, the grip of everyday reality, and the dangers of both forgetting about one's ghosts and giving them the upper hand.

The Killer Next Door Alex Marwood,2014-10-28 “The Killer Next Door is even better [than The Wicked Girls]. Scary as hell. Great characters.” —Stephen King Winner of the Macavity Award for Best Mystery Novel and nominated for the Anthony Award for Best Paperback Original Everyone who lives at 23 Beulah Grove has a secret. If they didn’t, they wouldn’t be renting rooms in a sketchy South London building for cash—no credit check, no lease. It’s the kind of place you end up when you you’ve run out of other options. The six residents mostly keep to themselves, but one unbearably hot summer night, a terrible accident pushes them into an uneasy alliance. What they don’t know is that one of them is a killer. He’s already chosen his next victim, and he’ll do anything to protect his secret. Alex Marwood’s debut novel The Wicked Girls earned her lavish praise from the likes of Elizabeth Haynes, Laura Lippman, and Erin Kelly and received the Edgar Award. Now, Marwood’s back with a brilliant, tightly paced thriller that will keep you up at night and make you ask yourself: just how well do you know your neighbors? “Taut, assured and reminiscent of Ruth Rendell's psychological novels, Marwood's second book more than lives up to the promise shown in her splendid debut, The Wicked Girls.” —The Guardian

The Dead Zone Stephen King,2024-04-23 A #1 national bestseller about a man who wakes up from a five-year coma able to see people's futures and the terrible fate awaiting mankind in the dead zone--a compulsive page-turner (the Atlanta Journal-Constitution)--

Riding in the Zone Ken Condon,2019-10-15 Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is the Zone. Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.

Free Fire Zone Theresa Rebeck,2007 Equally entertaining and doubly informative is Rebeck's tour-de-force Free Fire Zone... is edgy and fearless, in no small part because Rebeck so viscerally describes the experience of being a woman in a man's business-a place where one should never look weak and where one must take false statements as true. - American Theatre Journal, March 2008

The Taxidermist's Daughter Kate Mosse, 2016-03-29 A chilling and spooky Gothic historical thriller reminiscent of Rebecca and The Turn of the Screw, dripping with the dark twists and eerie surprises that are the hallmarks of Edgar Allan Poe, from the New York Times and internationally bestselling author of Citadel. In a remote village near the English coast, residents gather in a misty churchyard. More than a decade into the twentieth century, superstition still holds sway: It is St. Mark's Eve, the night when the shimmering ghosts of those fated to die in the coming year are said to materialize and amble through the church doors. Alone in the crowd is Constantia Gifford, the taxidermist's daughter. Twenty-two and unmarried, she lives with her father on the fringes of town, in a decaying mansion cluttered with the remains of his once world-famous museum of taxidermy. No one speaks of why the museum was shuttered or how the Giffords fell so low. Connie herself has no recollection—a childhood accident has erased all memory of her earlier days. Even those who might have answers remain silent. The locals shun Blackthorn House, and the strange spinster who practices her father's macabre art. As the last peal of the midnight bell fades to silence, a woman is found dead—a stranger Connie noticed near the church. In the coming days, snippets of long lost memories will begin to tease through Connie's mind, offering her glimpses of her vanished years. Who is the victim, and why has her death affected Connie so deeply? Why is she watched by a mysterious figure who has suddenly appeared on the marsh nearby? Is her father trying to protect her with his silence—or someone else? The answers are tied to a dark secret that lies at the heart of Blackthorn House, hidden among the bell jars of her father's workshop—a mystery that draws Connie closer to danger . . . closer to madness . . . closer to the startling truth.

The Hot Zone Richard Preston, 1995 Imagine a killer with the infectiousness of the common cold and power of the Black Death. Imagine something so deadly that it wipes out 90% of those it touches. Imagine an organism against which there is no defence. But you don't need to imagine. Such a killer exists: it is a virus and its name is Ebola. The Hot Zone tells what happens when the unthinkable becomes reality: when a deadly virus, from the rain forests of Africa, crosses continents and infects a monkey house ten miles from the White House. Ebola is that reality. It has the power to decimate the world's population. Try not to panic. It will be back. There is nothing you can do...

Meet Einstein Mariela Kleiner, 2011 A science book for preschoolers where Einstein helps to introduce kids to the concepts of light and gravity.

May the Armed Forces Be with You Stephen Dedman, 2016-08-30 Science fiction and the United States military often inhabit the same imaginative space. Weapons technology has taken inspiration from science fiction, from the bazooka and the atomic bomb to weaponized lasers and drones. Star-spangled superheroes sold war bonds in comic books sent to GIs during World War II, and adorned the noses of bombers. The same superheroes now appear in big-budget movies made with military assistance, fighting evil in today's war zones. A missile shield of laser satellites--dreamed up by writers and embraced by the high command--is partially credited with ending the Cold War. Sci-fi themes and imagery are used to sell weapons programs, military service and wars to the public. Some science fiction creators have willingly cooperated with the military; others have been conscripted. Some have used the genre as a forum for protest. This book examines the relationship between the U.S. military and science fiction through more than 80 years of novels, comics, films and television series, including Captain America, Starship Troopers, The Twilight Zone, Dr. Strangelove, Star Trek, Iron Man, Bill the Galactic Hero, The Forever War, Star Wars, Aliens, Ender's Game, Space: Above and Beyond and Old Man's War.

Fleeing this galactic threat, Ravna crash lands on a strange world with a ship-hold full of cryogenically frozen children, the only survivors from a destroyed space-lab. They are taken captive by the Tines, an alien race with a harsh medieval culture, and used as pawns in a ruthless power struggle.
