Brightly Burning Alexa Donne, 2018-05-01 "One of the most anticipated YA debuts of 2018, *Brightly Burning* is a gothic, romantic mystery with hints of *Jane Eyre*, *Marissa Meyer*, and *Kiera Cass*." —Entertainment Weekly "*Brightly Burning* delivers a brooding gothic mystery and a swoony romance, all set in space. Donne's atmospheric, twisty update of a cherished classic will keep you up late into the night!" —Elly Blake, NYT bestselling author of the *Frostblood Saga* Stella Ainsley leaves poverty behind when she quits her engineering job aboard the *Stalwart* to become a governess on a private ship. On the *Rochester*, there's no water ration, more books than one person could devour in a lifetime, and an AI who seems more friend than robot. But no one warned Stella that the ship seems to be haunted, nor that it may be involved in a conspiracy that could topple the entire interstellar fleet. Surrounded by mysteries, Stella finds her equal in the brooding but kind nineteen-year-old Captain Hugo. When several attempts on his life spark more questions than answers, and the beautiful Bianca Ingram appears at Hugo's request, his unpredictable behavior causes Stella's suspicions to mount. Without knowing who to trust, Stella must decide whether to follow her head or her heart. Alexa Donne's lush and enthralling reimagining of the

classic Jane Eyre, set among the stars, will seduce and beguile you.

Making Ideas Happen: Overcoming the Obstacles Between Vision and Reality Scott Belsky, 2011-06-02 Thomas Edison famously said that genius is 1% inspiration and 99% perspiration. Every day, new solutions, revolutionary cures, and artistic breakthroughs are conceived and squandered by smart people. Along with the gift of creativity come the obstacles to making ideas happen: lack of organisation, lack of accountability and a lack of community support. Scott Belsky has interviewed hundreds of the most productive creative people and teams in the world, revealing a common trait: a carefully trained capacity for ideas execution. Implementing your ideas is a skill that can be taught, and Belsky distils the core principles in this book. While many of us obsess about discovering great new ideas, Belsky shows why it is better to develop the capacity to make ideas happen - using old-fashioned passion and perspiration. Making Ideas Happen reveals the practical yet counterintuitive techniques of serial creatives - those few who make their visions a reality.

**From Idea to App** Shawn Welch, 2011 Because iPhone development is so young, right now apps are typically designed, developed and deployed by a single person (or very small development team.) The designers are the developers and vice versa. This book will leverage this distinction by teaching designers how to design on top of native iOS metaphors, tools and UI, while teaching native developers appropriate application design and asset preparation.
