Google Wallet - A Glimpse into the future of mobile payments Rohan Handa, Kritika Maheshwari, Malvika Saraf, 2011-12-14 Project Report from the year 2011 in the subject Business economics - Information Management, University of Southern California, language: English, abstract: Over the past few thousand years of evolution, the way we pay has changed shapes and materials. It has gone from gold to coins, paper money to plastic cards and now with Google's venture into the mobile payment industry, we are at the threshold of the next big shift. Google Wallet is a mobile payment Android app that transforms a phone into a wallet. This app utilizes the Near Field Communication (NFC) technology that allows its users to pay for purchased items and redeem offers. At this initial stage of business, there are many features and factors that Google needs to change in order to bring about the mass adoption of this service. As the Business Technology Analysts at Google, we - Kritika Maheshwari, Malvika Saraf and Rohan Handa aim at addressing the hurdles for this technology and the methods to bring it to fruition. In the process we evaluate Google's profit motivation and the bigger strategy behind this service. First, we explain the business approach which describes the importance of the adopted business model. We use Porter's Five Force analysis to determine the competitive intensity in the market followed by SWOT analysis to give recommendations that will help in the mass adoption. Finally, we focus our paper on formulating a strategy canvas in order to study the existing payment methods in comparison to our service. The paper concludes with recommendations to Google for promoting wide customer acceptance.

Kiasunomics 2: Economic Insights For Everyday Life Sumit Agarwal, Swee Hoon Ang, Tien Foo Sing, 2020-08-27 Have you ever wondered how one can save from taxi rides during surge pricing? Why you would shop more under sunny weather? What effects does a bankrupt neighbour have on residents living in the estate? How do people perceive risks during the coronavirus pandemic? Kiasunomics@2 explores these issues and more in a light-hearted and easy-to-understand manner, by showing the economic ramifications of individual choices through the lens of Teng, the protagonist of this book, and his family and friends. Based on research from the National University of Singapore, the book explains the influences and consequences of the decisions made by all of us, using simple economic logic. This sequel to , a finalist at the Singapore Book Awards 2018, fast forwards a couple of years and

follows Teng in his mid-career as a taxi driver. Ferrying passengers for a living, Teng has to grapple with challenges arising from ride hailing services. As one of the breadwinners in a three-generation household, Teng's ability to make wise financial decisions in a fast-changing world becomes increasingly important in attaining his dream of moving his family up the socio-economic ladder. This book covers hot and timely topics, which include: falling prices of old Housing and Development Board flats, rising land prices, wealth disparity among households, the Central Provident Fund retirement policy, regulation of car population, ride hailing services, mobile payments, and the coronavirus pandemic. These are unravelled through the authors' application of research findings. The book brings to light the relevance of research, often seen as esoteric, on our daily life and decision making. It also bears on policy implications, particularly issues on transportation, health, housing, and retirement.

M-Commerce Punita Duhan, Anurag Singh, 2019-03-04 This volume presents a pragmatic approach to understanding and capitalizing on contemporary m-commerce trend. It comprehensively encapsulates the evolution, emergent trends, hindrances and challenges, and customer perceptions about various facets of how physical and online retail channels are merging, blurring, and influencing each other in new ways. The rapid rise of m-commerce (or mobile commerce) has led to the emergence of new paradigms in the marketplace. The difference between physical and digital retail is diminishing, and a new “phygital retail” phenomenon is on the rise. Marketers need to understand this emerging paradigm and consider the new opportunities and challenges involved. This volume, *M-Commerce: Experiencing the Phygital Retail*, provides a comprehensive discussion of the contemporary m-commerce concepts along with the emerging paradigms in a pragmatic way. It presents empirical analyses and reviews on the myriad aspects of m-commerce, including both contemporary academic and business research.

The Future of Microfinance Ira W. Lieberman, Paul DiLeo, Todd A. Watkins, Anna Kanze, 2020-06-30 A major source of financing for the poor and no longer a niche industry Over the past four decades, microfinance—the provision of loans, savings, and insurance to small businesses and entrepreneurs shut out of traditional capital markets—has grown from a niche service in Bangladesh and a few other countries to a significant global source of financing. Some 200 million people globally now receive support from microfinance institutions, with most of the recipients in the developing world. In the beginning, much of the microfinance industry was managed by non-governmental organizations, but today the majority of these institutions are commercial and regulated by governments, and they provide safe places for the poor to save, as well as offering much-needed capital and other financial services. Now out of infancy, the microfinance industry faces major challenges, including its ability to deal with mobile banking and other technology and concerns that some markets are now over-saturated with microfinance. How the industry deals with these and other challenges will determine whether it will continue to grow or will be subsumed within the larger global financial sector. This book is based on the results of a workshop at Lehigh University among thirty-four leaders in the industry. The editors, working with contributions from more than a dozen leading authorities in the field, tell the important story of how microfinance developed, how it has met the needs of hundreds of millions of people, and they address key questions about how it can continue to meet those needs in the future.

E-commerce as a Potential New Engine for Growth in Asia Mr. Tidiane Kinda, 2019-07-01 The use of e-commerce around the world has accelerated in recent years, with Asia, led by China, spearheading the rise. Using cross-country enterprise survey data, this paper shows that firms engaged in e-commerce have higher productivity and generate a larger share of their revenues from exports than other firms. This is particularly true in Asia, where firms have 30 percent higher productivity and generate about 50 percent

more of their revenues from exports. The results presented in this paper are robust to the use of instrumental variables, which highlight possible larger effects of e-commerce on Asian productivity and exports when essential elements are in place for its effective use, such as reliable electricity, telecommunication, and transport infrastructure. Despite the rapid growth of e-commerce in recent years, gaps persist in digital infrastructure and legislation, preventing many Asian countries from fully reaping the potential benefits of e-commerce.

Securing Transactions and Payment Systems for M-Commerce Madan, Sushila, 2016-04-19 Mobile commerce, or M-commerce, is booming as many utilize their mobile devices to complete transactions ranging from personal shopping to managing and organizing business operations. The emergence of new technologies such as money sharing and transactional applications have revolutionized the way we do business. Wholeheartedly adopted by both the business world and consumers, mobile commerce has taken its seat at the head of the mobile app economy. *Securing Transactions and Payment Systems for M-Commerce* seeks to present, analyze, and illustrate the challenges and rewards of developing and producing mobile commerce applications. It will also review the integral role M-commerce plays in global business. As consumers' perceptions are taken into account, the authors approach this burgeoning topic from all perspectives. This reference publication is a valuable resource for programmers, technology and content developers, students and instructors in the field of ICT, business professionals, and mobile app developers.

E-commerce and M-commerce Technologies P. Candace Deans, 2005-01-01 E-Commerce and M-Commerce Technologies explores the emerging area of mobile commerce. The chapters in this book look specifically at the development of emerging technologies and their application in Internet commerce. From E-business to mobile database developments, this book offers a compilation of readings that are useful to individuals and organizations in the academic study and research surrounding mobile commerce as well as in the practical application of these technologies.

Emotionalizing Fashion Retail Jochen Strähle, 2015-04-09 The fashion retail environment is changing faster than ever. This book shows the latest state of the art in both theory and practice in how to attract customers, turn them into shoppers and to develop them into lovers of any fashion business. The key-focus lies on a deep understanding of the emotional part during the buying-process. It clearly shows the potential of new digital and social media, and the integration of the on- and offline world within the fashion retail world.

Handbook of Research on Innovation and Development of E-Commerce and E-Business in ASEAN Almunawar, Mohammad Nabil, Anshari Ali, Muhammad, Ariff Lim, Syamimi, 2020-08-28 Business-to-consumer (B2C) and consumer-to-consumer (C2C) e-commerce transactions, including social commerce, are rapidly expanding, although e-commerce is still small when compared to traditional business transactions. As the familiarity of making purchases using smart devices continues to expand, many global and regional investors hope to target the ASEAN region to tap into the rising digital market in this region. The *Handbook of Research on Innovation and Development of E-Commerce and E-Business in ASEAN* is an essential reference source that discusses economics, marketing strategies, and mobile payment systems, as well as digital marketplaces, communication technologies, and social technologies utilized for business purposes. Featuring research on topics such as business culture, mobile technology, and consumer satisfaction, this book is ideally designed for policymakers, financial managers, business professionals, academicians, students, and researchers.

E-Commerce, Competition & ASEAN Economic Integration Cassey Lee, Eileen Lee, 2019-10-10 The e-commerce market has grown rapidly within the ASEAN region in recent years. This trend is expected to continue in the future given the region's large population base, rising middle-class and improvements in connectivity. This edited volume examines the current state of e-commerce in ASEAN countries. It highlights some of the key domestic and cross-border challenges faced by ASEAN member states in developing e-commerce. These challenges include the regulatory and legal environment in which e-commerce firms operate across ASEAN, and the supporting infrastructure in ASEAN member states. "A comprehensive snapshot of the latest emerging regulatory, policy and consumer issues. It's essential reading for anyone working in this field. E-commerce is fundamentally altering the way in which businesses are being conducted, both within and between ASEAN countries. More than just an alternate distribution channel, online trading offers new opportunities and challenges for consumers, businesses, regulators and policymakers. How do markets operate in the new paradigm? How should regulators and governments ensure that dynamic competitive economies evolve, instead of descending into anti-competitive structures? And how are markets evolving in different parts of Southeast Asia? All of these issues—and much more—are discussed in here. The editors are to be congratulated for assembling a range of insightful perspectives from across ASEAN. These are issues that will affect the region for many years to come. The lessons here are timely and timeless." —Michael Schaper Ph.D., Deputy Chairman, Australian Competition and Consumer Commission, 2008-18
