*Booth* Karen Joy Fowler, 2023-02-07 Best Book of the Year Real Simple • AARP • USA Today • NPR • Virginia Living Longlisted for the 2022 Booker Prize From the Man Booker finalist and bestselling author of *We Are All Completely Beside Ourselves* comes an epic and intimate novel about the family behind one of the most infamous figures in American history: John Wilkes Booth. In 1822, a secret family moves into a secret cabin some thirty miles northeast of Baltimore, to farm, to hide, and to bear ten children over the course of the next sixteen years. Junius Booth—breadwinner, celebrated Shakespearean actor, and master of the house in more ways than one—is at once a mesmerizing talent and a man of terrifying instability. One by one the children arrive, as year by year, the country draws frighteningly closer to the boiling point of secession and civil war. As the tenor of the world shifts, the Booths emerge from their hidden lives to cement their place as one of the country's leading theatrical families. But behind the curtains of the many stages they have graced, multiple scandals, family triumphs, and criminal disasters begin to take their toll, and the solemn siblings of John Wilkes Booth are left to reckon with the truth behind the destructively specious promise of an early prophecy. *Booth* is a startling portrait of a country in the throes of change and a vivid exploration of the ties that make, and break, a family.

The old Tolbuith, the Heart of Mid-Lothian, with the Luckenbooths and the mercat cross of Edinburgh, from 1365 to 1617. (Repr. with additions from the Proc., Soc. of antiq. of Scotl.). Peter Miller, 1887

**A Rhetoric of Irony** Wayne C. Booth, 1974 Perhaps no other critical label has been made to cover more ground than irony, and in our time irony has come to have so many meanings that by itself it means almost nothing. In this work, Wayne C. Booth cuts through the resulting confusions by analyzing how we manage to share quite specific ironies—and why we often fail when we try to do so. How does a reader or listener recognize the kind of statement which requires him to reject its clear and obvious meaning? And how does any reader know where to stop, once he has embarked on the hazardous and exhilarating path of rejecting what the words say and reconstructing what the author means? In the first and longer part of his work, Booth deals with the workings of what he calls stable irony, irony with a clear rhetorical intent. He then turns to intended instabilities—ironies that resist interpretation and finally lead to the infinite absolute negativities that have obsessed criticism since the Romantic period. Professor Booth is always ironically aware that no one can fathom the unfathomable. But by looking closely at unstable ironists like Samuel Becket, he shows that at least some of our commonplaces about meaninglessness require revision. Finally, he explores—with the help of Plato—the wry paradoxes that threaten any uncompromising assertion that all assertion can be undermined by the spirit of irony.

**Hebrew Literature (Annotated Edition)** Epiphanius Wilson, 2013-10-24 Hebrew literature contains some of the most profound and most influential productions of the human spirit. It constitutes a potent factor in modern civilization, and possesses merits which place it far above most other literatures of the world. The common salutation of the Hebrew is Peace, while that of the Greeks is Grace, and that of the Romans, Safety. The Greek sought after grace, or intellectual and bodily perfection, and the power of artistic accomplishment. The Roman's ideal was strength and security of life and property. The Hebrew sought after peace, peace in the heart, as founded on a sense of Jehovah's good providence, and a moral conformity in conduct to His revealed will. While the Greek in art, literature, and even in morals, made beauty his standard, the Roman stood for power, domination and law, and the Hebrew for religion. The Hebrew, indeed, introduced into Europe the first clear conception of religion, as implied in monotheism, and a rigidly defined moral law, founded upon the will of Jehovah. The basis of morals among the Latins was political, among the Greeks æsthetic, and among the Hebrews it was the revealed will of Jehovah. While the most important remains of Hebrew literature are comprised in the Scriptures known to us as the Bible, there exists also a voluminous mass of Hebrew writings which are not included in the sacred canon. These writings are of supreme importance and value, and the selections which we have made from them in the present volume give a good idea of their interest, beauty, and subtlety of thought.

Practical Reasoning in Human Affairs J. L. Golden, J. J. Pilotta, 2012-12-06 This anthology of original essays has been nearly two and one-half years in the making, and reflects the generous effort of many persons. To begin with, we thank the contributors to the volume, who not only cooperated with regards to their own works, but who also provided valuable advice concerning the over-all volume. One of the contributors was outstanding in his assistance and warrants special mention: we thank Professor Michel Meyer, for his encouragement, counsel, and dedication to see this project to completion. We would also like to thank Professor Jaakko Hintikka for his encouragement and Mrs. Kuipers of Reidel for her patience and understanding along the way. A project such as this could never have been completed without the unique assistance of members of the Department of Communication, Ohio State University: Ms. Kimberly Pasi and Mr. Charles Mawhirtcr. Also, special thanks are due to our graduate research assistant Ms. Susan Jasko, for her proofreading and bibliographic work. The pressures of developing a Festschrift are considerable and could not have been met without the cooperation and enthusiasm of Mrs. Perelman, especially in allowing us to publish Professor Perelman's address to Ohio State University as our introduction.
