Transformation: A Personal Journey Through the British Transformers Comic Volume 2: 1987-1989 Stuart Webb, 2017-07-20 By 1987, the British Transformers was at the peak of its powers. Alternating between US reprints showing the struggle for leadership within the Autobot and Decepticon forces and UK material dealing with the insane future Decepticon Galvatron's attempts to rule yesterday, what had started as a toy advert had become a sprawling space opera seared into the minds of an entire generation. Stuart Webb was one such reader, and in 2012 he began a journey looking through every single issue of the series, commenting on its highs and lows. He became the first person to look at every backup strip and editorial and how they worked together to create the most thorough exploration of a publishing phenomenon ever undertaken. It's also highly personal, full of humour and silliness and even the occasionally thoughtful moment. The final result is an essential read, not just for Transformers fans, but also for those interested in the history of Marvel UK and the impact this simple little comic had on an entire generation.

Markets series comprises four volumes, covering theoretical perspectives, themes, and various aspects of interest across four key geographical regions where Base of the Pyramid (BOP) markets are located – Latin America, Asia, Africa, and affluent countries. This book focuses on the BOP markets in Asia, and in particular the challenge of how to address the needs of deprived population groups in a sustainable manner. Base of the Pyramid Markets in Asia deals with, amongst other topics, the innovation and innovativeness that is necessary to better the life of resource-poor population groups. Thus, this book aims at furthering our understanding of BOP markets in Asia and at deriving valuable recommendations for managers and policy makers. The Bop Apocalypse John Lardas,John Lardas Modern,2001 Lardas examines the new visions of the three artists and their Beat religiosity, wherein they lived their religion of real-life experience rather than faith. By rejecting the cultural tenets of postwar America, each man took on the discourse of the public theology, created physical enactments of a religious representation of the world, and through literature changed the interpretation of modern religion.
