**The Bop Apocalypse** John Lardas,John Lardas Modern,2001

Lardas examines the new visions of the three artists and their Beat religiosity, wherein they lived their religion of real-life experience rather than faith. By rejecting the cultural tenets of postwar America, each man took on the discourse of the public theology, created physical enactments of a religious representation of the world, and through literature changed the interpretation of modern religion.

**Bop Apocalypse** Martin Torgoff,2017-01-24 The gripping story of the rise of early drug culture in America, from the author of the acclaimed Can't Find My Way Home With an intricate storyline that unites engaging characters and themes and reads

like a novel, *Bop Apocalypse* details the rise of early drug culture in America by weaving together the disparate elements that formed this new and revolutionary segment of the American social fabric. Drawing upon his rich decades of writing experience, master storyteller Martin Torgoff connects the birth of jazz in New Orleans, the first drug laws, Louis Armstrong, Mezz Mezzrow, Harry Anslinger and the Federal Bureau of Narcotics, swing, Lester Young, Billie Holiday, the Savoy Ballroom, Reefer Madness, Charlie Parker, the birth of bebop, the rise of the Beat Generation, and the coming of heroin to Harlem. Aficionados of jazz, the Beats, counterculture, and drug history will all find much to enjoy here, with a cast of characters that includes vivid and memorable depictions of Billie Holiday, Miles Davis, John Coltrane, Jackie McLean, Allen Ginsberg, William S. Burroughs, Jack Kerouac, Herbert Huncke, Terry Southern, and countless others. *Bop Apocalypse* is also a living history that teaches us much about the conflicts and questions surrounding drugs today, casting many contemporary issues in a new light by connecting them back to the events of this transformative era. At a time when marijuana legalization is rapidly becoming a reality, it takes us back to the advent of marijuana prohibition, when the templates of modern drug law, policy, and culture were first established, along with the concomitant racial stereotypes. As a new opioid epidemic sweeps through white working- and middle-class communities, it brings us back to when heroin first arrived on the streets of Harlem in the 1940s. And as we debate and grapple with the gross racial disparities of mass incarceration, it puts into sharp and provocative focus the racism at the very roots of our drug war. Having spent a lifetime at the nexus of drugs and music, Torgoff reveals material never before disclosed and offers new insights, crafting and contextualizing *Bop Apocalypse* into a truly novel contribution to our understanding of jazz, race, literature, drug culture, and American social and cultural history.

*Hard Bop Academy* Alan Goldsher, 2002 Art Blakey and the Jazz Messengers was one of the most enduring, popular, reliable and vital small bands in modern jazz history. Blakey was not only a distinguished, inventive and powerful drummer, but along with Duke Ellington and Miles Davis, he was one of jazz's foremost talent scouts. The musicians who flowed seamlessly in and out of this constantly evolving collective during its 36-year run were among the most important artists not just of their eras, but of any era. Though their respective innovations were vital to the evolution of bebop, hard bop and neo bop, the recorded work of the Messengers sidemen has never been properly analyzed. Until now. *Hard Bop Academy: The Sidemen of Art Blakey's Jazz Messengers* critically examines the multitude of gifted artists who populated the many editions of the Jazz Messengers. In addition to dissecting the sidemen's most consequential work with Blakey's band, jazz musician and acclaimed novelist Alan Goldsher offers up engaging profiles of everyone from Wynton Marsalis to Terence Blanchard to Hank Mobley to Wayne Shorter to Horace Silver to Keith Jarrett to Curtis Fuller to Steve Davis. And that's only the beginning. Goldsher conducted over 30 interviews with surviving graduates of Blakey's Hard Bop Academy, many of whom spoke at length of their tenure with the legendary Buhaina for the first time. Alan Goldsher is a bassist who has recorded with Janet Jackson, Digable Planets, Cypress Hill and Naughty By Nature. His writing has been published in *Bass Player*, *Tower Pulse*, *Sport* and *BasketBull: Chicago Bulls Magazine*. Goldsher's debut novel, *Jam*, was published in 2002 by Permanent Press. He lives in Chicago. Hardcover.

Biological and Hardware Complications in Implant Dentistry

Daniel Wismeijer, Daniel Buser, Stephen Chen, 2019-03-05 Volume 8 of the ITI Treatment Guide provides clinicians with the latest evidence-based information on the origins and treatment of biological as well as hardware complications. This analysis of the current evidence is based in part on the proceedings of the 4th ITI Consensus Conference held in Stuttgart in 2008 and of the 5th Consensus Conference held in Bern in 2013, as well as on a review of the current literature. Sixteen step-by-step clinical cases presented by experienced clinicians from all over the world illustrate the diagnosis and treatment of complications. The ITI Treatment Guide series is a compendium of evidence-based implant-therapy techniques and procedures for daily practice. Written by renowned clinicians and supported by contributions from expert practitioners, the ITI Treatment Guides provide a comprehensive overview of various clinical options. The management of different clinical situations is discussed with an emphasis on sound diagnostics, evidencebased treatment concepts, and predictable treatment outcomes with minimal risk to the patient.

*Reform in the Making* Ann Chih Lin, 2002-06-10 Is it time to give up on rehabilitating criminals? Record numbers of Americans

are going to prison, and most of them will eventually return to society with a high chance of becoming repeat offenders. But a decision to abandon rehabilitation programs now would be premature warns Ann Chih Lin, who finds that little attention has been given to how these programs are actually implemented and why they tend to fail. In *Reform in the Making*, she not only supplies much-needed information on the process of program implementation but she also considers its social context, the daily realities faced by prison staff and inmates. By offering an in-depth look at common rehabilitation programs currently in operation--education, job training, and drug treatment--and examining how they are used or misused, Lin offers a practical approach to understanding their high failure rate and how the situation could be improved. Based on extensive observation and over 350 interviews with staff and prisoners in five medium-security male prisons, the book contrasts successfully implemented programs with subverted, abandoned, or neglected programs (those which staff reject or which do not teach prisoners anything useful). Lin explains that staff and prisoners have little patience with programs aimed at long-range goals when they must face the ongoing, immediate challenge of surviving prison life. Finding incentives to make both sides participate fully in rehabilitation is among the book's many contributions to improving prison policy.
