**Guardians of Language** Robert A. Kaster,2023-09-01 What did it mean to be a professional teacher in the prestigious liberal schools—the schools of grammar and rhetoric—in late antiquity? How can we account for the abiding prestige of these schools, which remained substantially unchanged in their methods and standing despite the political and religious changes that had taken place around them? The grammarian was a pivotal figure in the lives of the educated upper classes of late antiquity. Introducing his students to correct language and to the literature esteemed by long tradition, he began the education that confirmed his students' standing in a narrowly defined elite. His profession thus contributed to the social as well as cultural continuity of the Empire. The grammarian received honor—and criticism; the profession gave the grammarian a firm sense of cultural authority but also placed him in a position of genteel subordination within the elite. Robert A. Kaster provides the first thorough study of the place and function of these important but ambiguous figures. He also gives a detailed prosopography of the grammarians, and of the other teachers of letters below the level of rhetoric, from the middle of the third through the middle of the sixth century, which will provide a valuable research tool for other students of late-antique education.

His often difficult and playful Latin is presented in English by the award winning poet Deborah Warren, enabling a new generation of students to use and understand the poems. With notes and commentary throughout, this volume will be important not only as an example of later Latin poetry but also as a window onto the Later Roman Empire and the beginnings of early Christian writing.
