Boss Empire Victoria Quinn,2018-03-24 I've found a woman I can't live without. It's not just about the things we do in the bedroom. But the way she looks at me. The way she touches me. The way she loves me. Maybe I can have what Titan has. Maybe I can have even more.

Heart Boss: Trust Your Gut, Shed Your Shoulds, and Create a Life You Love Regan Walsh,2021-03-08 Women are doing it all: running companies, nurturing marriages, raising kids, volunteering on boards, and still making Pinterest-perfect cupcakes for the class party, thank you very much. But we're exhausted. We're running on hamster wheels and popping Xanax, and in our most private moments, we're wondering the scariest question of all: Is this it? I've been that woman. The harried workaholic. The unhappy wife. The frustrated mom. I was even in a passionate relationship with a woman for two years before marrying my husband. Life is complicated, friends. The point is, I found my way off the treadmill. This book is me extending my hand to help you off yours. You are not alone. You are worthy. You are powerful. And you can own your life in such a way that you'll stop asking Is this it? and instead start saying This is it! Heart Boss is the story of how I learned to let my heart be boss. And, hopefully, it's a story about how you can get there too.

Boss Alpha Victoria Quinn,2018-02-23 Tatum Titan is mine now. I finally got her back. But we have a city to rule together. A world to conquer. And there's no other woman I'd want by my side.

The Un-Bossy Boss Gary Magenta,2016-07-26 Great Managers bring out the best in their employees. Individual contributors are responsible for bringing their best selves to work, while managers are responsible for bringing out the best in others. These are two very different things. When an individual contributor succeeds in their role, they are typically promoted to manager and suddenly in charge of other people. They soon realize managing others isn't easy, and many are ill prepared. Lacking the skills to effectively engage employees, many new managers follow an old-school approach - deciding what must be done, telling employees what to do and how to do it, and checking up on them from time to time. Through humor and real-life case studies, The Un-Bossy Boss shows how this old yell and tell model of managing has become outdated and ineffective, and offers managers a clear and tangible roadmap to success. Gary Magenta's 12 Powerful Questions help turn traditional manager/employee relationships into something greater and more impactful. By following Gary's recommendations, ordinary managers can become Great Managers who take a more interactive approach, one that reveals employees' motivations and beliefs and invites them to be a part of co-creating solutions so they and the company can soar to new heights.

The Boss Andrew O'Keeffe,2023-02-01 Got a spirit-crushing boss? Well so does Lauren Johnson - five of them. Based on true stories of bosses' political maneuverings and workers under siege, The Boss tells Lauren's story - a talented but naive professional struggling under a self-serving, insensitive boss who undermines her at every turn. And working around her boss doesn't help - most of the company execs are ineffective in their own right. Lauren just wants to get her job done, but every manager throws up one more needless hurdle. Disturbing, amusing, and wry, the story progresses as Lauren is forced to upwardly manage the brownnoser, the backstabber, the micromanager, the passive-aggressive, the bully, and the idea stealer. Forced into a final decision, Lauren must fight back or have her spirit crushed.

The New Boss Niklas Luhmann, 2018-10-22 Any organization, no matter how stolid, may be unsettled by the news that a new boss is about to take over. Talk in the hallways increases, staff worry about their jobs, uncertainty grows. Even when the change has happened, problems emerge when the boss who was hired to manage "from above" has to learn about the organization "from below." In this book, Niklas Luhmann scrutinizes the relationship and shows how it is stretched to its limit by communication difficulties, demands for self-presentation, and disagreements concerning fundamental values. Many of the tensions crystallize around the question "who has the power?" It isn't necessarily the boss, provided the employees are well versed in the art of directing their superiors. "Subtvision" is Luhmann's term for this state of affairs, and tact is the most important means to this end. Yet caution is advised: whoever achieves mastery in subtvision may well become the new boss. This slim and thought-provoking book from one of the most influential sociologists of the twentieth century will be of great interest to anyone seeking to understand the dynamics and machinations of the workplace.
