Mapping Boston Alex Krieger,David Cobb,2001-08-24 An informative—and beautiful—exploration of the life and history of a city through its maps. To the attentive user even the simplest map can reveal not only where things are but how people perceive and imagine the spaces they occupy. Mapping Boston is an exemplar of such creative attentiveness—bringing the history of one of America's oldest and most beautiful cities alive through the maps that have depicted it over the centuries.The book includes both historical maps of the city and maps showing the gradual emergence of the New England region from the imaginations of explorers to a form that we would recognize today. Each map is accompanied by a full description and by a short essay offering an insight into its context. The topics of these essays by Anne Mackin include people both familiar and unknown, landmarks, and events that were significant in shaping the landscape or life of the city. A highlight of the book is a series of new maps detailing Boston's growth. The book also contains seven essays that explore the intertwining of maps and history. Urban historian Sam Bass Warner, Jr., starts with a capsule history of Boston. Barbara McCorkle, David Bosse, and David Cobb discuss the making and trading of maps from the sixteenth to the nineteenth century. Historian Nancy S. Seasholes reviews the city's remarkable topographic history as reflected in maps, and planner Alex Krieger explores the relation between maps and the physical reality of the city as experienced by residents and visitors. In an epilogue, novelist James Carroll ponders the place of Boston in contemporary culture and the interior maps we carry of a city.

The Concrete Plateau Andrew Grant, 2022-07-15 In *The Concrete Plateau*, Andrew Grant examines the ways that urbanization has extended into the Tibetan Plateau. Many people still think of Tibetans as not being urban, or that if they do live in cities, this means that they have lost something. Much of this is related to the expectation that urbanization can only erode essential aspects of Tibetan culture. Grant pushes back against this notion through his in-depth exploration of Tibetans' experiences with urban life in the growing city of Xining, the largest city on the Tibetan Plateau. Grant shows how Tibetans' actions to sustain their community challenge China's civilizing machine: a product of state-led urbanization that seeks to marginalize ethnic and indigenous groups. In their homes, neighborhoods, and businesses, Tibetans' assertion of cultural identity and modification of the built environment has prevented their assimilation into China's national urban project. *The Concrete Plateau* presents insights into the politics of urban development not only in Tibet and China, but to contexts of urban diversity all around world. Its findings are important for studies of urban development in the Global South where in-migrating ethnic and indigenous groups are negotiating top-down urban projects. Grant's book offers a profound rethinking of urbanization, rurality, culture, and the politics of place.

Women Still at Work Elizabeth F. Fideler, 2012-06-25 From Betty White to Toni Morrison, we're surrounded by examples of women working well past the traditional retirement age. In fact, the fastest growing segment of the workforce is women age sixty-five and older. *Women Still at Work* tells the everyday stories of hard-working women and the reasons they're still on the job, with a focus on women in the professional workforce. The book is filled with profiles of real women, working in settings from academia to drug and alcohol rehabilitation centers, from business to the arts, talking about the many reasons why they still work and the impact work has on their lives. *Women Still at Work* draws on national survey data and in-depth interviews, showing not only the big picture of older women advancing their careers despite tough economic conditions, but also providing the personal insights of everyday working women from all parts of the country. Their stories

showcase some of the key themes women choose to stay at work—including job satisfaction, diminishing retirement savings, the need to support children or parents longer in life, exercising the hard-won right to work, and more. *Women Still at Work* shows employment to be a positive and rewarding part of life for many women well beyond the expected retirement age.

The Red Bandanna (Young Readers Adaptation) Tom Rinaldi,2018-08-14 Winner of the Christopher Award An ILA-CBC Children's Choices Book A NCSS-CBC Notable Social Studies Book Welles Crowther did not see himself as hero. He was just an ordinary kid who played sports, volunteered at his local fire department, and eventually headed off to college and then Wall Street to start a career. Throughout it all, he always kept a red bandanna in his pocket, a gift from his father. On September 11, 2001, Welles was working on the 104th floor of the South Tower of the World Trade Center when the Twin Towers were attacked. That day, Welles made a fearless choice and in doing so, saved many lives. The survivors didn't know his name, but one of them remembered a single detail clearly: the man was wearing a red bandanna. Welles Crowther was a hero. Award-winning ESPN reporter Tom Rinaldi brings Welles's inspirational story of selflessness and compassion to life in this accessible young readers' adaptation of his New York Times bestselling book. This powerful story of making a difference through our actions is perfect for helping the post-9/11 generation understand the meaning of this historic day through the eyes of one young man. "Rinaldi's young reader edition of his award-winning adult story puts a face on that day (9/11), a hero's face, and brings to young people someone who stood brave in the toughest of times and who, in the end, was lost doing his best to help others survive."—VOYA

A People's Guide to Greater Boston Joseph Nevins,Suren Moodliar,Eleni Macrakis,2020

Herein, we bring you to sites that have been central to the lives of 'the people' of Greater Boston over four centuries. You'll visit sites associated with the area's indigenous inhabitants and with the individuals and movements who sought to abolish slavery, to end war, challenge militarism, and bring about a more peaceful world, to achieve racial equity, gender justice, and sexual liberation, and to secure the rights of workers. We take you to some well-known sites, but more often to ones far off the well-beaten path of the Freedom Trail, to places in Boston's outlying neighborhoods. We also visit sites in numerous other municipalities that make up the Greater Boston region--from places such as Lawrence, Lowell and Lynn to Concord and Plymouth. The sites to which we do 'travel' include homes given that people's struggles, activism, and organizing sometimes unfold, or are even birthed in many cases in living rooms and kitchens. Trying to capture a place as diverse and dynamic as Boston is highly challenging. (One could say that about any 'big' place.) We thus want to make clear that our goal is not to be comprehensive, or to 'do justice' to the region. Given the constraints of space and time as well as the limitations of knowledge--both our own and what is available in published form--there are many important sites, cities, and towns that we have not included. Thus, in exploring scores of sites across Boston and numerous municipalities, our modest goal is to paint a suggestive portrait of the greater urban area that highlights its long-contested nature. In many ways, we merely scratch the region's surface--or many surfaces--given the multiple layers that any one place embodies. In writing about Greater Boston as a place, we run the risk of suggesting that the city writ-large has some sort of essence. Indeed, the very notion of a particular place assumes intrinsic characteristics and an associated delimited space. After all, how can one distinguish one place from another if it has no uniqueness and is not geographically differentiated? Nonetheless, geographer Doreen Massey insists that we conceive of places as progressive, as flowing over the boundaries of any particular space, time, or society; in other words, we should see places as processual or ever-changing, as unbounded in that they shape and are shaped by other places and forces from without, and as having multiple identities. In exploring Greater Boston from many venues over 400 years, we embrace this approach. That said, we have to reconcile this with the need to delimit Greater Boston--for among other reasons, simply to be in a position to name it and thus distinguish it from elsewhere--
