### **Boston's Oldest Buildings and Where to Find Them**

Joseph M. Bagley, 2021-04 As Boston approaches its four-hundredth anniversary, it is remarkable that it still maintains its historic character despite constant development. The fifty buildings featured in this book all pre-date 1800 and illustrate Boston's early history. This is the first book to survey Boston's fifty oldest buildings and does so through an approachable narrative which will appeal to nonarchitects and those new to historic preservation. Beginning with a map of the buildings' locations and an overview of the historic preservation movement in Boston, the book looks at the fifty buildings in order from oldest to most recent. Geographically, the majority of the buildings are located within the downtown area of Boston along the Freedom Trail and within easy walking distance from the core of the city. This makes the book an ideal guide for tourists, and residents of the city will also find it interesting as it includes numerous properties in the surrounding neighborhoods. The buildings span multiple uses from homes to churches and warehouses to restaurants. Each chapter features a building, a narrative focusing on its historical significance, and the efforts made to preserve it over time. Full color photos and historical drawings illustrate each building and area. Boston's Oldest Buildings and Where to Find Them presents the ideals of historic preservation in an approachable and easy-to-read manner appropriate for the broadest audience. Perfect for history lovers, architectural enthusiasts, and tourists alike.

**Lost on the Freedom Trail** Seth C. Bruggeman, 2022 Boston

National Historical Park is one of America's most popular heritage destinations, drawing in millions of visitors annually. Making sense of the Revolution, however, was never the primary aim for the planners who reimagined Boston's heritage landscape after the Second World War. Seth C. Bruggeman demonstrates that the Freedom Trail was always largely a tourist gimmick, devised to lure affluent white Americans into downtown revival schemes, its success hinging on a narrow vision of the city's history run through with old stories about heroic white men. When Congress pressured the National Park Service to create this historical park for the nation's bicentennial celebration in 1976, these ideas seeped into its organizational logic, precluding the possibility that history might prevail over gentrification and profit--
