Gilded Age Ivan Franceschini,Nicholas Loubere,2018-04-01
According to the Chinese zodiac, 2017 was the year of the 'fire rooster', an animal often associated with the mythical fenghuang, a magnificently beautiful bird whose appearance is believed to mark the beginning of a new era of peaceful flourishing. Considering the auspicious symbolism surrounding the fenghuang, it is fitting that on 18 October 2017, President Xi Jinping took to the stage of the Nineteenth Party Congress to proclaim the

beginning of a 'new era' for Chinese socialism. However, in spite of such ecumenical proclamations, it became immediately evident that not all in China would be welcome to reap the rewards promised by the authorities. Migrant workers, for one, remain disposable. Lawyers, activists and even ordinary citizens who dare to express critical views also hardly find a place in Xi's brave new world. This Yearbook traces the stark new 'gilded age' inaugurated by the Chinese Communist Party. It does so through a collection of more than 40 original essays on labour, civil society and human rights in China and beyond, penned by leading scholars and practitioners from around the world.

EU Intellectual Property Law and Policy The late Catherine Seville,2016-09-28 This fully updated book offers a compact and accessible account of EU intellectual property (IP) law and policy. The digital age brings many opportunities, but also presents continuing challenges to IP law as the EU's programme of harmonisation unfolds. As well as addressing the main IP rights (copyright, patents, designs, trade marks and related rights), the book also considers IP's relationship with the EU's rules on free movement of goods and competition, as well as examining the enforcement of IP rights. Taking account of numerous changes, this timely second edition covers the substantive provisions and procedures which apply throughout the EU, making extensive reference to the case law. The author considers how the exploitation of IP is increasingly global; harmonisation, in contrast, is only partial, even at the EU level. In response, the book sets EU IP law in its wider international context. It also seeks to highlight policy issues and arguments of relevance to the EU, in its relations both within the Union and with the rest of the world. Designed as a compact and approachable account of these difficult and technical areas, and with advice on further reading and research, this unique book is useful both as a work of reference and for more general study. It is essential reading for postgraduate students,

academic researchers and legal practitioners alike.

Strategic Retail Management Joachim Zentes,Dirk Morschett,Hanna Schramm-Klein,2016-10-07 This book is devoted to the dynamic development of retailing. The focus is on various strategy concepts adopted by retailing companies and their implementation in practice. This is not a traditional textbook or collection of case studies; it aims to demonstrate the complex and manifold questions of retail management in the form of twenty lessons, where each lesson provides a thematic overview of key issues and illustrates them via a comprehensive case study. The examples are all internationally known retail companies, to facilitate an understanding of what is involved in strategic retail management and illustrate best practices. In the third edition, all chapters were revised and updated. Two new chapters were added to treat topics like corporate social responsibility as well as marketing communication. All case studies were replaced by new ones to reflect the most recent developments. Well-known retail

companies from different countries, like Tesco, Zalando, Hugo Boss, Carrefour, Amazon, Otto Group, are now used to illustrate particular aspects of retail management.

Review of Social Determinants and the Health Divide in the WHO European Region Michael Marmot, 2014 The WHO European Region has seen remarkable health gains, though inequities persist both between and within countries. Much more is understood now about the extent and social causes of these inequities, particularly since the 2008 report of the Commission on Social Determinants of Health. This review of inequities in health across the 53 Member States of the Region was commissioned to support the development of the new European policy framework for health and well-being, Health 2020. It builds on the global evidence and recommends policies to reduce health inequities and the health divide across all countries, including those with low incomes. The report is presented in four parts. Part I provides the context and background to the review, and sets out the key principles underpinning the recommendations and the rationale for grouping them into four broad themes: life-course stages, wider society, the broader macro-level context, and governance,

delivery and monitoring systems. Part II summarizes current evidence on the magnitude of the health divide among European Region countries, describing the inequities in health and their social determinants. Part III focuses on the four themes, making recommendations with supporting evidence. Part IV outlines the implementation issues, summarizes the framework for action, discusses reasons for failure, provides guidance on good practice and summarizes the review's conclusions and recommendations. The review is a wake-up call to political and professional leaders alike, an opportunity for them to facilitate the work of those dedicated to improving health outcomes and narrow the health gap between and within the countries of the Region.

Foundations of Strategy Robert M. Grant, Judith J. Jordan, Phil Walsh, 2015-07-20 Foundations of Strategy, Canadian Edition is a concise text aimed at both undergraduate and MBA students. An excellent set of current and in-depth Canadian and global cases will show students how to apply the strategy concepts in real-world scenarios. Today's strategy modules are delivered in a wide variety of different formats to a wide range of audiences. Instructors frequently find themselves faced with the challenge of delivering their modules in relatively short time frames to student groups with very diverse educational and employment backgrounds. This text is designed to assist instructors in meeting this challenge by covering the core aspects of strategy as concisely as possible without losing academic depth.
