The Hollywood Reporter Book of Box Office Hits Susan Sackett, 1996 A complete guide to Hollywood's top blockbuster films, from 1939 through 1995, details the five most successful movies of each year

Open Wide Dade Hayes, Jonathan Bing, 2004-09-22 How is a blockbuster made? All it takes is three days: Friday, Saturday and Sunday. Opening weekend at the height of the summer blockbuster season is a gruelling ordeal for studio execs and marketers. In *Open Wide*, Hayes and Bing take the reader behind the scenes during the first 72 hours of a film's release. They also explore the main phases in the life of a film and also offer a personal look at all the filmmakers, actors, producers and executives that help bring these films to the cinema. This really is the first book to examine, in depth, the importance of the opening weekend.

Think Outside the Box Office Jon Reiss, 2010-01-01 As the digital revolution has democratised film production, a new hybrid model of distribution is the way independent filmmakers can take control of their own distribution. This approach is not just DIY or Web-based - it combines the best techniques from each distribution arena, old and new. In *Think Outside the Box Office*, Reiss explains audience identification and targeting, negotiating split-rights agreements, the new role of film festivals and more.

Box Office Poison Alex Robinson, 2001 Winner of the Eisner Award for Talent Deserving Wider Recognition, the International Comics Festival Award for Best Debut Graphic Novel (Angoulême, France), and voted by *Wizard Magazine* as the best indie graphic novel of all time. A convincing, absorbing and satisfying fictional portrait of post-college life in New York City.-- Publishers Weekly A salute to comics, an exploration of the human condition, and a solid, absorbing, and riotously snide tale about at least half of the things that make life important.-- Tasha Robinson, *The AV Club* *Box Office Poison* is a novel complex enough to provoke Book Talk. I even marked panels with post-it notes as I was reading so that I'd remember to show them to my friends.-- Kelly Sue DeConnick, *Artbomb.com* The comic book equivalent of the world's best pineapple upside-down cake: layer upon layer of rich dramatic goodness.- - Matthew Craig, *Robotfist.com* *Box Office Poison* is to the comic book culture as *Almost Famous* is to that of rock and roll.-- Chris Tamarri, *The Daily Targum* This 608-page epic story of Sherman, Dorothy, Ed, Stephen, Jane, and Mr. Flavor is a true comics masterpiece. Alex Robinson's completely natural and inspiring knack for dialogue makes this story of dreary jobs, comic books, love, sex, messy apartments, girlfriends (and the lack thereof), undisclosed pasts, and crusty old professionals one of the most delightful and whimsical graphic novels to hit the stands in years.

Hollywood and the Box Office John Izod, 1988-07-20 Changing business circumstances have put pressure on film studios and changed the nature of films they produce. This book examines the reaction of the corporations who have found themselves in danger or have perceived new ways of adding to their profitability, influencing the films they produce.

Predicting Movie Success at the Box Office Barrie Gunter, 2018-02-20 This book explores the different factors that can influence a new movie's prospects at the box office. Looking at factors such as the production budget, distribution model, genre, stars and audience reactions of films, Gunter asks how such aspects may reduce the uncertainties of success so common in the movie industry. The reader is taken on a journey through

filmmaking factors that, research suggests, impact box office performance. While box office revenues represent only part of a movie's earning potential, Gunter highlights how theatrical performances remain central to what the movie business is about. The chapters illustrate how ticket sales are largely influenced by the production budget but also cultural differences and new movie platforms.

Box Office Archaeology Julie M Schablitsky, 2016-06-16 "How true is it?" is a common refrain of patrons coming out of movie theatres after the latest film on pirates, Vikings, or mummies. While Hollywood usurps the past for its own entertainment purposes, archaeologists and historians know a lot about many of these subjects, digging up stories often more fascinating than the ones projected on screen. This distinguished group of archaeologists select key subjects and genres used by Hollywood and provide the historical and archaeological depth that a movie cannot—what really happened in history. Topics include Egypt, the Wild West, Civil War submarines, Vikings, the Titanic, and others. The book should be of interest to introductory archaeology and American history classes, courses on film and popular culture, and to a general audience. Alternate Selection, History Book Club.

Superheroes Smash the Box Office Shawn Conner, 2023-09-11 In 1997, the superhero movie was all but dead. The last Superman flick had been released a decade earlier to disastrous reviews and ticket sales. The most recent Batman film was a franchise-killing bomb. And an oft-promised Spider-Man feature was grounded. Yet a mere five years later this once-derided genre would be well on its way to world domination at the box office and even critical respectability. How did this happen? And why, two decades later, does the phenomenon show no sign of abating? Here, for the first time, is an extensively researched soup-to-nuts history of the superhero movie, from the first bargain-basement black-and-white serials to today's multiverse blockbusters. Chronicling eight decades of stops and starts, controversies and creators, good guys and bad guys--onscreen and off--this entertaining account explains how and why our entertainment universe came to be overpowered by costumed crimefighters and their nefarious counterparts.

From Box Office to Ballot Box M. Keith Booker, 2007-02-28 Given the complexity and expense of making and distributing a film, the process of filmmaking is by its very nature a political process. Moreover, given the power and persuasiveness of the cinema as a medium, film can be a powerful political tool. It should thus come as no surprise that film has had a long and extensive engagement with a variety of political topics, ranging from the actual mechanics of governance to electoral politics, to any number of specific political issues. Through a film-by-film examination of the movies explicitly concerned with American politics and American political issues, *From Box Office to Ballot Box* provides valuable new insights into our culture's perceptions of various political environments and serves as a witness to the cinema's own complex contribution to the media's coverage of, and relationship to, American politics at large. *From Box Office to Ballot Box* takes as its subject films exploring the electoral process, the process of governing, and the involvement of the media in both. Separate chapters also deal with films related to specific political issues or phenomena that are particularly relevant to the above three categories, including labor and class, the Cold War, the Vietnam War, and the other recent conflicts in which the media has played such a large role. Specific films discussed include:

Citizen Kane, All the King's Men, The Manchurian Candidate, All the Presidents' Men, The Front, M*A*S*H*, JFK, Nixon, Wag the Dog, Three Kings, Black Hawk Down, The Quiet American, The Contender, and many more.

Development of the Global Film Industry Qiao Li, Yanqiu Guan, Hong Lu, 2020-09-01 The global film industry has witnessed significant transformations in the past few years. Regions outside the USA have begun to prosper while non-traditional production companies such as Netflix have assumed a larger market share and online movies adapted from literature have continued to gain in popularity. How have these trends shaped the global film industry? This book answers this question by analyzing an increasingly globalized business through a global lens. Development of the Global Film Industry examines the recent history and current state of the business in all parts of the world. While many existing studies focus on the internal workings of the industry, such as production, distribution and screening, this study takes a big picture view, encompassing the transnational integration of the cultural and entertainment industry as a whole, and pays more attention to the coordinated development of the film industry in the light of influence from literature, television, animation, games and other sectors. This volume is a critical reference for students, scholars and the public to help them understand the major trends facing the global film industry in today's world.

The Global Film Market Transformation in the Post-Pandemic Era Qiao Li, David Wilson, Yanqiu Guan, 2023-05-04 This book reviews the development and performance of the global film industry during the COVID-19 pandemic and examines new trends in film production, distribution and consumption through a global lens. The COVID-19 pandemic has had a substantial impact on the global film industry since the beginning of 2020. There has been significant transformation in terms of film production, distribution and consumption. Hollywood, like many national cinemas across the globe, has suffered the most significant impact at all levels: the interruption of new film productions, shutdowns of movie theatres in many countries and delays in the release of new films, among them. Many movies made for cinemas were forced to move from release in theatres to various streaming platforms, and nontraditional production companies continued to grow their market share. This book places the global film industry in a post-Pandemic context. It provides detailed analyses of specific systems of film production, distribution and consumption in national cinemas, as well as in Hollywood, while also engaging with the key theoretical and methodological questions from the film studies literature. This volume is a critical reference for students and scholars of film studies and general readers who are interested in the new trends and transformation of the global film industry in a post-pandemic era. The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

The Sports Event Management and Marketing Playbook Frank Supovitz, 2013-09-23 As a sporting event planner, how do you keep up with the trends of the ticket buying public, sponsorship and merchandising while at the same time attending to the hundreds of management and operational details required to execute the event? A successful sports event requires a planner that can read signals from their market and plan strategically to maintain sponsors and a full arena.

Investor Financing of Independent Film John W. Cones, 2023-10-12 This book explains how to comply with the federal and states securities regulations when seeking to raise money from private investors for the development, production and/or distribution of a feature or documentary film. Drawing from the experience and expertise of a securities and entertainment attorney who has worked with independent filmmakers for 30 plus years, this resource explores securities law compliance in order to help readers comply with the law and avoid criminal and civil liability, while successfully raising investor funds for their film projects. Readers will gain an understanding of why the securities laws apply to most investor financing transactions, what choices need to be made by the filmmaker, what information needs to be disclosed to prospective investors, how to comply with the SEC's policy regarding financial projections, what is the appropriate investment vehicle for various forms of investor financing, what limitations are imposed on the use of finders and how to handle the required federal and state notice filings. It is an essential resource for any film student taking a film finance course (or a production course with a film finance component), as well as any independent film producers, entertainment/securities attorneys

and film school instructors, who want to be informed about the legal and practical aspects of investor financing of independent films.

Theatre Buildings Association of British Theatre Technicians, 2010-06-08 The Association of British Theatre Technicians produced its first guide to the design and planning of theatres in 1972. Revised in 1986, it became the standard reference work for anyone involved in building, refurbishing, or creating a performance space. Theatre Buildings – a design guide is its successor. Written and illustrated by a highly experienced team of international theatre designers and practitioners, it retains the practical approach of the original while extending the scope to take account of the development of new technologies, new forms of presentation, changing expectations, and the economic and social pressures which require every part of the theatre to be as productive as possible. The book takes the reader through the whole process of planning and designing a theatre. It looks in detail at each area of the building: front of house, auditorium, backstage, and administrative offices. It gives specific guidance on sightlines, acoustics, stage engineering, lighting, sound and video, auditorium and stage formats. Aspects such as catering, conference and education use are also covered. The information is supplemented by twenty-eight case studies, selected to provide examples which range in size, style and format and to cover new buildings, renovations, conversions, temporary and found space. The studies include Den Norsk, Oslo; The Guthrie Theatre, Minneapolis; The Liceu, Barcelona; Les Bouffes du Nord, Paris; The RSC's Courtyard Theatre in Stratford on Avon; and the MTC Theatre in Melbourne. All have plans and sections drawn to 1:500 scale. The book contains around 100 high quality full colour images as well as over 60 specially drawn charts and diagrams explaining formats, relationships and technical details.

The Feature Film Distribution Deal John W. Cones, 1997 John W. Cones, whose real goal is to stimulate a long-term film industry reform movement, shows how the financial control of the film industry in the hands of the major studios and distributors actually translates into creative control of the industry. Cones discusses the pros and cons of the debate relating to the industry's so-called net profit problem and the way in which the distribution deal plays an integral part in that problem. He then breaks down five major film finance/distribution scenarios, explaining various distribution deals and suggesting ways of negotiating distribution. Critically examining the specific terms of the distribution deal itself, Cones covers gross receipts exclusions, distributor fees, and distribution expenses. He also investigates the various forms of interest, issues of production costs, matters of creative control, and general contractual provisions. For handy reference, Cones includes an extensive checklist for negotiating any feature film distribution deal. The list deals with distribution fees, distribution expenses, interest, production costs, creative control issues, general contractual provisions, distributor commitments, and the limits of negotiating. His nine appendixes present a Motion Picture Industry Overview, Profit Participation Audit Firms, ADI (Top 50) Market Rankings, an AFMA Member List, 1992-1993, a Production-Financing/Distribution Agreement, a Negative Pickup Distribution Agreement, a Distribution Rights Acquisition Agreement, a Distribution Agreement (Rent-a-Distributor Deal), and a Foreign Distribution Agreement. Cones wrote this book for independent producers, executive and associate producers and their representatives, directors,

actors, screenwriters, members of talent guilds, distributors, and entertainment, antitrust, and securities attorneys. Securities issuers and dealers, investment bankers, and money finders, investors, and financiers of every sort also will be interested. In addition, Cones suggests and hopes that the book will interest Congress, their research staff, government regulators at the Internal Revenue Service, the Securities and Exchange Commission, the Federal Trade Commission, and law enforcement officials such as the Los Angeles District Attorney and the U.S. Justice Department.
