Managing Today's News Media Samir Husni,Debora Halpern Wenger,Hank Price,2015-07-29 The business of journalism is in the midst of massive change. Managing Today's News Media: Audience First offers practical solutions on how to cope with and adapt to the evolving media landscape. News media experts Samir Husni, Debora Halpern Wenger, and Hank Price introduce a forward-looking framework for understanding why change is occurring and what it means to the business of journalism. Central to this new paradigm is a focus on the audience. The authors introduce "The 4Cs Strategy" to describe how customers, control, choice, and change are all part of a strategy for successful media organizations. Real-world case studies, important theoretical grounding, and a focus on understanding rather than resisting the customer's desire for choice and control make this an unbeatable resource for students and managers alike who want to succeed in this changed media business landscape.

Business Writing in the Digital Age Natalie Canavor,2012 Business Writing in the Digital Age fills an urgent need to equip business and MBA students to write more effectively in a style that works for today's business world. Using a readable, highly accessible approach and numerous concrete examples, this book frames writing as a strategic tool to accomplish goals. Readers learn a step-by-step system that tells them what to say, and how to say it in every circumstance. At the same time they learn how to improve their technical skills by applying practical techniques rather than grammatical rules. In today's business world, success depends on writing. Those who write well are better able to win opportunities, establish their reputation, persuade others to their viewpoint and build relationships. They collaborate, manage and lead more effectively. Writing well also equips businesspeople to function in a global marketplace and reach increasingly diverse audiences. This book builds readers' confidence and capabilities. No matter what their starting point, they absorb a solid foundation that applies to all writing. They also learn the specifics of crafting messages and documents that range from the traditional, like letters and proposals, to media such as email, blogs, web sites, PowerPoint and social networking. This broad coverage makes the material relevant and compelling. Students also develop tools to keep improving on their own, and to handle new communication channels as they emerge. Business Writing in the Digital Age helps teachers stay current with a changing media landscape. They can use it as a complete guide to writing development, drawing on the practice opportunities and group projects supplied, or assign students to work with some--or all the material--on their own.

Dance of Disruption and Creation Nandu Nandkishore,Neeraj Chandra,2023-08-18 It's an exciting time to be alive! We are witness to an epoch of change, a dance of disruption and creation, that is re-imagining our world. Where are these disruptions coming from? What opportunities do they uncover? How can one make sense of them? And most importantly, how should one prepare and act? This book, written by two influential business leaders, unpacks these epochal changes and how they represent a defining moment of opportunity for the world of business. Nandu Nandkishore and Neeraj Chandra draw upon diverse sources, academic literature, discussions with CEOs, startup founders and experts, in order to understand the significant pivots of change emerging from a wide canvas and then stitch together a perspective of an exciting, brave new world. Unlike many other books that focus only on emerging technologies, the authors here look at disruption through several lenses: technology, demographics, economic change, the changing nature of institutions, and the interplay of technology as it fundamentally shapes consumers and society. The book goes beyond describing changes taking place. It explores the why so and so what to provide an understanding of the shifts taking place, and crucially, the implications for the world of enterprise. Using simple examples and frameworks throughout, the book provides specific, action-oriented solutions that businesses can employ. This book will be of specific interest to business leaders, strategists, investment professionals, as well as social scientists and public servants. It is for change-makers who are excited to seize the unique opportunity that this change represents – to build competitive advantage, re-invent markets and enterprise, and indeed, to make the world a better place.
