**Open Doors** Robert E. Litan,Paul R. Masson,Michael Pomerleano,2004-05-13 The extensive reforms and liberalization of financial services in emerging markets worldwide call for cutting-edge strategies to capture the benefits of new investment opportunities. In Open Doors, a volume of papers from the third annual Financial Markets and Development conference, multidisciplinary financial sector experts analyze current economic and political trends and prescribe practical advice to the financial development community. The book addresses the key issues of concern regarding the emerging markets, including the trends, motivations, and scope of FDI in finance; policy options that will best capture the opportunities of foreign entry; and the role of foreign institutions in e-finance innovation. The authors focus on specific topics such as foreign participation in emerging market banking systems and securities industries, WTO policies and enforcement, the role of foreign banks, liberalization of insurance markets, the need for capital markets, and the policy, regulatory, and legal issues associated with e-finance. For policymakers and financial practitioners affected by the WTO's Financial Services Agreement, this timely book should be of particular interest. Contributors include Donald Mathieson (International Money Fund), Pierre Sauvé (Trade Directorate, OECD), George J. Vojta (formerly with Bankers Trust and Citibank), Harold D. Skipper (J. Mack Robinson College of Business, Georgia State University), Benn Steil (Council on Foreign Relations), Morris Goldstein and Edward M. Graham (Institute for International Economics), Nicolas Lardy (Brookings Institution), Phillip Turner (Bank of International Settlements), and Robert Ledig (Fried, Frank, Shriver & Jacobson).

*Global Fundraising* Penelope Cagney,Bernard Ross,2013-02-25 A practical guide to the challenges and successes of global fundraising, written by an international team of highly respected philanthropy professionals and edited by two of the leading nonprofit thinkers, Global Fundraising is the first book to genuinely offer a global overview of philanthropy with an internationalist perspective. As the world becomes more interdependent, and economies struggle, global philanthropy continues to increase. More than that, nonprofits are taking up roles that have traditionally been filled by the government—including social welfare, healthcare, and human rights. Global Fundraising provides complete coverage of the implications of this growth for nonprofit culture and how it drives changes in fundraising practices. Organized into thematic chapters—a mixture of geographic and topical issues—it places North American philanthropy in a wider context. It features a companion website with a variety of online tools and materials. The book includes contributions by international leading experts Matt Ide, Mair Bosworth, Usha Menon, Anup Tiwari, Paula Guillet de Monthoux, Angela Cluff, Norma Galafassi, Mike Muchilwa, Tariq Cheema, Lu Bo and Nan Fang, Masataka Uo, Chris Carnie, Sean Triner, Andrea McManus, Marcelo Innarra, Ashley Baldwin, Rebecca Mauger, Youngwoo Choi, R.F. Shangraw, Jr., Sudeshna Mukherjee, and Anca Zaharia. The book skillfully tracks how the world of fundraising is changing rapidly due to a number of factors including: continuing growth of great wealth; non-profit innovation emerging everywhere; growth of indigenous NGOs; increased professionalism in fundraising; and the value and role of new and social technologies. Written by a team of philanthropy leaders, Global Fundraising offers timely coverage of fundraising around the world. A must-have for INGO leaders and anyone, anywhere, interested in the future of philanthropy and effective fundraising practices.

*The Fortune at the Bottom of the Pyramid, Revised and Updated 5th Anniversary Edition* C.K. Prahalad,2009-07-15 Drawing on Prahalad's breakthrough insights in The Fortune at the Bottom of the Pyramid, great companies worldwide have sought to identify, build, and profit from new markets amongst the world's several billion poorest people, while at the same time helping to alleviate poverty. Five years after its first publication, this book's ideas are no longer theory: they are proven, profitable reality. In the 5th Anniversary Edition, Prahalad thoroughly updates his book to reveal all that's been learned about competing and profiting at the bottom of the pyramid. Prahalad outlines the latest strategies and tactics that companies are utilizing to succeed in the developing world. He interviews several innovative CEOs to discuss what they've learned from their own initiatives, including the Unilever business leader who's built a billion-dollar business in India. You'll find a new case study on Jaipur Rugs' innovative new global supply chain; updates to earlier editions' key cases; and up-to-the-minute information on the evolution of key industries such as wireless, agribusiness, healthcare, consumer goods, and finance. Prahalad also offers an up-to-date assessment of the key questions his ideas raised: Is there truly a market? Is there scale? Is there profit? Is there innovation? Is this a global opportunity? Five years ago, executives could be hopeful that the answers to these questions would be positive. Now, as Prahalad demonstrates, they can be certain of it.

**Expanding Bank Outreach Through Retail Partnerships** ,2006-01-01 This paper explores the extent to which formal, regulated financial institutions such as banks have been able to partner with correspondents- commercial entities whose primary objective and business is other than the provision of financial services. The paper illustrates the case of Brazil, where banks recently have developed extensive networks of such correspondents. Such arrangements result in lower costs and shared risks for participating financial institutions, making these arrangements an attractive vehicle for outreach to the underserved. Correspondent banking requires an enabling environment to emerge, and poses some regulatory challenges and some increase in risk. While there are reasons why this model was particularly successful in Brazil, it may be replicable elsewhere if appropriate regulatory adjustments are undertaken.

**Latin America's Quest for Globalization** Félix E. Martín,Pablo Toral,2016-12-05 Investments by Spanish firms in Latin America have grown since the early 1990s by taking over many of the state-owned firms put out to tender. Second only to the United States, these investments make Spain one of the largest markets of foreign direct investment for Latin America. This multidisciplinary volume focuses on the emergence of Spanish multinational enterprises in this region. Furthermore, it analyzes the sociological and political consequences of these investments and exhibits several theoretical and methodological approaches that make the book a useful aid for teaching. It is essential reading for those who want to understand structural reforms, their consequences and the international impact of economic reform.
