The Click Moment Frans Johansson, 2012-08-30 In the story of every great company and career, there is one defining moment when luck and skill collide. This book is about making that moment happen. According to Frans Johansson's research, successful people and organizations show a common theme. A lucky moment occurs and they take advantage of it to change their fate. Consider how Diane von Furstenberg saw Julie Nixon Eisenhower on TV wearing a matching skirt and top, and created the timeless, elegant wrap-dress. That was a "click moment" of unexpected opportunity. Johansson uses stories from throughout history to illustrate the specific actions we can take to create more click moments, place lots of high-potential bets, open ourselves up to chance encounters, and harness the complex forces of success that follow.

Smart Simple Design/Reloaded Gwendolyn Galsworth, 2014-10-10 Marketplace globalization has not only triggered unprecedented levels of opportunity but also a level of complexity that can sink mature companies as well as startups-if you don't learn how to make that variety effective. *Smart Simple Design/Reloaded* offers a safety net-a systematic methodology (called VEP) - for preventing or minimizing negative variation and maximizing customer selection, all at a least-cost sum. Whether the proliferation that plagues your enterprise is parts, products, services, SKUs, market offerings-or the names of those offerings-this book provides a vision of a better way and the precise pathway for getting there.

Researched and written by Dr. Gwendolyn Galsworth, Shingo Prize-winning author and consultant to some of the world's most prestigious companies, Smart Simple Design/Reloaded can lead you to your next generation of growth and profit.
