**The Ghost in My Brain** Clark Elliott, 2016-05-31 The dramatic story of one man’s recovery offers new hope to those suffering from concussions and other brain traumas In 1999, Clark Elliott suffered a concussion when his car was rear-ended. Overnight his life changed from that of a rising professor with a research career in artificial intelligence to a humbled man struggling to get through a single day. At times he couldn’t walk across a room, or even name his five children. Doctors told him he would never fully recover. After eight years, the cognitive demands of his job, and of being a single parent, finally became more than he could manage. As a result of one final effort to recover, he crossed paths with two brilliant Chicago-area research-clinicians—one an optometrist emphasizing neurodevelopmental techniques, the other a cognitive psychologist—working on the leading edge of brain plasticity. Within weeks the ghost of who he had been started to re-emerge. Remarkably, Elliott kept detailed notes throughout his experience, from the moment of impact to the final stages of his recovery, astounding documentation that is the basis of this fascinating book. The Ghost in My Brain gives hope to the millions who suffer from head injuries each year, and provides a unique and informative window into the world’s most complex computational device: the human brain.

**Mind as Metaphor** Adam Toon,2023-03-28 We often think of the mind as an inner world. Once, this inner world might have been a spirit or soul - a ghost in the machine, in Gilbert Ryle's memorable phrase. Nowadays, we are told it will be found in the brain. Adam Toon argues that this is a mistake. In fact, our concept of mind is fundamentally metaphorical: we project the 'outer world' of human culture onto the 'inner world' of the mind. This is an enormously powerful way of making sense of people and their behaviour. But we must not forget that this inner world is only a useful fiction. Mind as Metaphor develops this idea to offer a radical new approach to the mind, known as mental fictionalism. Toon shows that mental fictionalism can make sense of our ordinary concept of mind (or folk psychology), while avoiding the difficulties faced by alternative approaches, such as behaviourism or instrumentalism. In doing so, Mind as Metaphor sheds new light on a range of issues, from the mind's capacity to represent the world (or intentionality) to the way in which new tools and practices expand the limits of inquiry. Written in a concise, engaging, and accessible style, Mind as Metaphor is essential reading for anyone interested in the nature of the mind and its relationship to human culture

Developing Theories of Mind Janet W. Astington,Paul L. Harris,David R. Olson,1988 A collection of empirical reports and conceptual analyses written by leading researchers in an exciting new area of the cognitive sciences. The book examines a fundamental change that occurs in children's cognition between the ages of two and six.

Hollywood Puzzle Films Warren Buckland,2014-05-30 From Inception to The Lake House, moviegoers are increasingly flocking to narratologically complex puzzle films. These puzzle movies borrow techniques—like fragmented spatio-temporal reality, time loops, unstable characters with split identities or unreliable narrators—more commonly attributed to art cinema and independent films. The essays in Hollywood Puzzle Films examine the appropriation of puzzle film techniques by contemporary Hollywood dramas and blockbusters through questions of narrative, time, and altered realities. Analyzing movies like Source Code, The Butterfly Effect, Donnie Darko, Déjà Vu, and adaptations of Philip K. Dick, contributors explore the implications of Hollywood's new movie mind games.

**God Is An Octopus** Ben Goldsmith,2023-05-11 'Intensely readable, poetic, truthful, wise and wonderful.' STEPHEN FRY 'An extraordinary book.' SUNDAY TIMES Struggling to comprehend the shocking death of his teenage daughter, Ben Goldsmith finds solace in nature by immersing himself in plans to rewild his farm. In July 2019, Ben Goldsmith lost his fifteen-year-old daughter, Iris, in an accident on their family farm in Somerset. Iris's death left her family reeling. Grasping for answers, Ben threw himself into searching for some ongoing trace of his beloved child, exploring ideas that until then had seemed too abstract to mean much to him. Missing his daughter terribly and struggling to imagine how he would face the rest of his life in the shadow of this loss, Ben found solace in nature, the object of a lifelong fascination. As Ben set about rewilding his farm, nature became a vital source of meaning and hope. This book is the story of a year of soul-searching that followed a terrible loss. In an instant, Ben's world had turned dark. Yet, unbelievably to him, the seasons kept on turning, and as he immersed himself in the dramatic restoration of nature in the place where it happened, he found healing. In God is an Octopus, Ben tells a powerful, immersive and inspiring story of finding comfort and strength in nature after suffering loss and despair.
