Yet, as consumers we have become insensitive to most advertising. We easily forget brands and may switch to another product on a whim. There are ways for brands to break this cycle. Brands that succeed are the ones that help us find meaning. In this process, the brands become meaningful in and of themselves. Brand Hacks takes you on an exploratory journey, revealing why most advertising campaigns fail and examining the personal, social, and cultural meanings that successful brands bring to consumers' everyday lives. Most importantly, this book will show you how to use simple brand hacks to create and grow brands that deliver meaning even with a limited budget. Brand Hacks is supported by in-depth research in consumer psychology, interviews with industry-leading marketers, and case studies of meaningful brands, both big and small.

New Media Spectacles and Multimodal Creativity in a Globalised Asia Sunny Sui-kwong

Lam, 2020-11-20 This edited volume aims to unpack the digitisation of art and media within the dynamics of participatory culture, and how these

changes affect the power relations between the production and consumption of these new forms in a globalised Asia. New challenges arise every day in relation to digital art and design practices and social media communications, and their respective impact on identity politics. This book showcases a diverse range of interdisciplinary research on these concomitant changes and challenges associated with digital media and technologies within the context of a globalised Asia. The case studies included present perspectives on Asia's evolving digital humanities landscape from Hong Kong, China, India, Korea and from across Southeast Asia, with topics that tackle organisational digital marketing, brand advertising and design, mobile gaming, interactive art, and the cultural activities of ethnic and sexual minority communities in the region. This book will of interest to scholars in digital humanities focused on new media and cultural studies.

Though over the years the stress of creating content frame by frame took its toll on my diminishing patience and well-being. It wasn't until I was introduced to color therapy books, that I realised how astonishingly relaxing and stress relieving they can truly be. Therefor I created 'Color Me In' a series of various different themes that aim to give those of all ages and interests an enjoyable and calming coloring experience. Giving the option of gifting this fun and relaxing coloring activity to either a mature loved one or a child that may place their favourite colored images on their bedroom walls. All forms of feedback are greatly encouraged and appreciated!

Artificiality and Sustainability in Entrepreneurship Richard Adams, Dietmar Grichnik, Asta Pundziene, Christine Volkmann, 2022-10-29 This open access edited volume explores the past, present, and future of artificiality and sustainability in

entrepreneurship – the unforeseen consequences and ways to advance to a sustainable future. In particular, it connects artificiality, sustainability and entrepreneurship, intertwining artificial with the specific phenomenon of those novel digital technologies that provoke continuous and significant change in our lives and business. Unlike digital entrepreneurship research, which focuses on digital technology development and management, this book covers processes and mechanisms of sustainable adaptability of entrepreneurs, the business logic of start-ups, and the collaborative behaviours under the mass digital transformation, including the prevalence of artificial intelligence. Some of the questions that this book answers are as follows: How has entrepreneurship reacted to such challenges previously? What lessons have been learned and need to be carried forward? How can entrepreneurship and the artefacts of entrepreneurship respond to current challenges? What should be the mindset of the entrepreneur to assure sustainable adaptation? How to embrace and embed the new business logic?

Digital Communications at Crossroads in Africa

Kehbuma Langmia, Agnes Lucy Lando, 2020-04-27

Digital communication as it is practiced in Africa today is at a crossroad. This edited collection takes that crossroad as its starting point, as it both examines the complicated present and looks to the uncertain future of African communication systems. Contributing authors explore how western digital communication systems have proliferated in the African communication landscape, and argue that rich and long-cherished African forms of communal, in-person communication have been increasingly abandoned in favor of assimilation to western digital norms. As a result, future generations of Africans born on the continent and abroad may never recognize and appreciate African

systems of communications. Acknowledging that globalized digital communication systems are here to stay, the volume contends that in order to comprehend the past, present, and future of African communications, scholars need to decolonize their approach to teaching and consuming mediated and in-person communications on the African continent and abroad.

MOO-LAH-GY Kelly Lucente, 2016-01-07 What is brand and why should anyone care? The idea of branding began as a simple solution for a person to know their cattle from the neighbor's. Today it's about evoking an emotion so strong that a customer wants to buy from you versus anyone else in your space. This book helps distill down the pieces necessary to create that one-of-a-kind, gotta-have-it brand.

See how this classic plays out in modern discourse! High society and romance are the hallmarks of this classic story. But what would happen if the characters of *Pride and Prejudice* texted each other non-stop rather than engaging in their melodrama directly? Would Elizabeth call Mr. Darcy a poop emoji? Would Darcy drink and dial and accidentally reveal his true feelings complete with a heart emoji? In this laugh out loud re-telling of Jane Austen's famous work, you'll get a condensed, modern interpretation of the world's greatest love story... all told with everyone's favorite emojis and the now ubiquitous text bubbles. Featuring hundreds of classic and some brand new emojis, along with a removable poster (featuring all the emojis), *Emoji Pride and Prejudice* is the perfect gift for the Austen lover. Portals of Globalization Megan

Maruschke, 2019-06-04 While ports are traditionally considered national infrastructure sites that connect states to global markets, special economic zones and past free ports are portrayed as threats to national sovereignty. This book calls these narratives into question as it explores the history of planning Mumbai's ports and free zones during periods of global and regional transition from the British Raj, to national independence, to economic liberalization. The book opens with a study of an unsuccessful plan hatched by merchants in 1833 to make Bombay a free port to deal with an emerging British India and the advent of free trade. The book ends with how India's current special economic zones and emphasis on port expansion are part of broader goals to reposition India in transregional Asian trade, to connect Mumbai with northern India, and to enact local plans for a global city that threaten the very port that first connected Mumbai to the world. To understand the functionality of these port and zone projects beyond typical policy prescriptions,

this book proposes portals of globalization as a spatial format that fosters processes of reterritorialization.
