*Branding Books Across the Ages* Helleke van den Braber, Jeroen Dera, Jos Joosten, Maarten Steenmeijer, 2021-04-20 As marketing specialists know all too well, our experience of products is prefigured by brands: trademarks that identify a product and differentiate it from its competitors. This process of branding has hitherto gained little academic discussion in the field of literary studies. Literary authors and the texts they produce, though, are constantly 'branded': from the early modern period onwards, they have been both the object and the initiator of a complex marketing process. This book analyzes this branding process throughout the centuries, focusing on the case of the Netherlands. To what extent is our experience of Dutch literature prefigured by brands, and what role does branding play when introducing European authors in the Dutch literary field (or vice versa)? By answering these questions, the volume seeks to show how literary scholars can account for the phenomenon of branding.

**Political Brands** Ciara Torres-Spelliscy, 2019 From 'I Like Ike' to Trump's MAGA hats, branding and politics have gone hand in hand, selling ideas, ideals and candidates. Political Brands explores the legal framework for the use of commercial branding and advertising techniques in presidential political campaigns, as well as the impact of politics on commercial brands. This thought provoking book examines how branding is used by citizens to change public policy, from Civil Rights activists in the 1960s to survivors of the 2018 Parkland massacre.

**Sustainable City Regions:** Tetsuo Kidokoro, Noboru Harata, L.P. Subanu, J. Jessen, A. Motte, E.P. Seltzer, 2008-08-27 How should regional cities develop regional development strategies for their sustainable future? How can such strategies work effectively? Regional cities are now at a crossroads: will they decline or be regenerated under the impacts of globalization? Their sustainable regeneration as creative regional centers will play a decisive role in their sustainable development as a whole, but only with viable regional spatial strategies that strengthen the network of cities and their hinterlands. The concern here lies in urban regeneration and strategic spatial planning at the city-region level. This book records observations of 12 dynamically changing regional cities in Asia, Europe and the United States. The form of the city region, urban regeneration and strategic spatial planning as well as the local and regional governance of each city are examined. Through this empirical and comparative analysis, essential lessons are drawn, which will add a new perspective to discussions on the sustainable future of regional cities in an age of globalization.

**Myths of Branding** Simon Bailey, Andy Milligan, 2019-01-03 A brand is just a logo - everyone knows that, don't they? After all, it's not as though a good brand can save a bad business, and besides, the digital revolution is making branding irrelevant... Myths of Branding, written by renowned branding experts Andy Milligan and Simon Bailey, explores the huge number of misguided, mistaken and blatantly false myths that abound in the branding arena. From the belief that developing brands is nothing more than fiddling with logos, to the perception that it's a 'soft' area of marketing that doesn't go beyond visual identity - these myths are all surprisingly entrenched, yet could not be further from the truth. Myths of Branding takes the most up-to-date research and evidence to debunk these popular misconceptions, and replaces them with the reality of what it's really like to work in the world of branding. Jam-packed with entertaining anecdotes and useful information that practitioners

can learn from, it guarantees a deeper, sharper understanding of the realities of branding and brand management.

*The Power of Cult Branding* Matthew W. Ragas, Bolivar J. Bueno, 2011-02-09 Like religious cults that can attract thousands of devoted disciples, is it possible for company brands to build legions of loyal followers? In a marketer's dream come true, can certain products—with the right combination of positioning and branding—take on magnetic characteristics and galvanize die-hard customers who become walking, talking viral marketers? Can your company harness the power of cult branding without blowing a fortune on advertising? According to authors Matthew W. Ragas and Bolivar J. Bueno the answer is yes. In fact, you need not look much farther than a Harley-Davidson rally, a Star Trek convention, or a Jimmy Buffett concert to see the cult branding phenomenon at work: thousands of passionate, faithful fans spreading the good word and spending lots of money. Not all brands have the dash of edginess, the devoted fan base, or the niche positioning to be cult brands. But those that do tend to share similar characteristics that make them successful, what the authors call the Seven Golden Rules of Cult Branding. Through meticulous research and scores of interviews Ragas and Bueno have uncovered the remarkable and oft-untold stories behind nine very successful cult brands: ·Star Trek ·Harley-Davidson ·Oprah Winfrey ·World Wrestling Entertainment (formerly WWF) ·Apple ·Volkswagen Beetle ·Jimmy Buffett ·Vans Shoes ·Linux These nine brands follow the Seven Golden Rules and have millions of fans and billions of dollars in revenue to show for it. Now you can learn first hand what these special brands did to set themselves apart and how to apply the Seven Golden Rules to your own marketing strategies. Written for advertisers, marketers, sales executives, and business owners who want to thrive in an increasingly competitive marketplace, *The Power of Cult Branding* is the ultimate guide to creating a loyal core of repeat customers and winning the positioning battle.

Over decades - and often centuries - they have consolidated their positions against fierce competition, the rise and fall of the global economy and the emergence of the Internet. How have they succeeded? What marketing strategies have enabled them to thrive and survive in such a spectacular fashion? Can they maintain their seemingly impregnable status in the new century? **Brandstorm: Surviving and Thriving in the New Consumer-Led Marketplace** Liz Nickles,Savita Iyer,2012-11-13 Branding has become ubiquitous, with new brands becoming word-of-mouth successes literally overnight, and many welcome the easy familiarity they bring to daily life. But now brand proliferation is threatening not only to stifle true choice in the marketplace, but to render hard-won brand identities - some decades in the making - meaningless. With today's unprecedented access to thousands of brands a day, via Twitter, Facebook, and the rest, the balance of brand power is shifting irrevocably away from the businesses behind them. In Brandstorm, branding guru Liz Nickles argues that, as a result, the brand is no longer a value proposition in itself, and that marketers and brand managers must stop the dilution and focus on meaningful, market-specific reinvention for those brands that can stand the test of time. She offers the success secrets behind leading brands like Ralph Lauren, Justin Bieber, and Revlon, and how to channel them today.
