The Defence of Tradition in Brazilian Popular Music Sean Stroud,2008-01-01 Sean Stroud

examines how and why Música Popular Brasileira (MPB) has come to have such a high status, and why the musical tradition (including MPB) within Brazil has been defended with such vigour for so long. He emphasizes the importance of musical nationalism as an underlying ideology to discussions about Brazilian popular music since the 1920s, and the key debate on so-called 'cultural invasion' in Brazil. The roles of those responsible for the construction of the idea of MPB are examined in detail. Stroud analyses the increasingly close relationship that has developed between television and popular music in Brazil with particular reference to the post-1972 televised song festivals. He goes on to consider the impact of the Brazilian record industry in the light of theories of cultural imperialism and globalization and also evaluates governmental intervention relating to popular music in the 1970s. The importance of folklore and tradition in popular music that is present in both Mario de Andrade and Marcus Pereira's efforts to 'musically map' Brazil is clearly emphasized. Stroud contrasts these two projects with Hermano Vianna and Itau Cultural's similar ventures at the end of the twentieth century that took a totally different view of musical 'authenticity' and tradition. Stroud concludes that the defence of musical traditions in Brazil is inextricably bound up with nationalistic sentiments and a desire to protect and preserve. MPB is the musical expression of the Brazilian middle class and has traditionally acted as a cultural icon because it is associated with notions of 'quality' by certain sectors of the media.

Online Journalism in Africa Hayes Mawindi Mabweazara, Okoth Fred Mudhai, Jason

Whittaker, 2014-01-21 Very little is known about how African journalists are forging new ways to practise their profession on the web. Against this backdrop, this volume provides contextually rooted discussions of trends, practices, and emerging cultures of web-based journalism(s) across the continent, offering a comprehensive research tool that can both stand the test of time as well as offer researchers (particularly those in the economically developed Global North) models for cross-cultural comparative research. The essays here deploy either a wide range of evidence or adopt a case-study approach to engage with contemporary developments in African online journalism. This book thus makes up for the gap in cross-cultural studies that seek to understand online journalism in all its complexities.

Telenovelas and Transformation Rosane Svartman, 2021-02-22 This book investigates how telenovelas may be the key to the future of Brazilian television and how this content can survive in an interconnected media landscape. Recognised telenovela writer and scholar Rosane Svartman considers the particular characteristics of the telenovela format – number of episodes, melodrama influence, and influence of the audience on future writing – to explore how these can be preserved on multimedia platforms, and the challenges this change may present. Svartman further charts the transformations of the telenovela throughout its history and its major influences and unveils the main storytelling elements and writing processes. Chapters examine the business model of Brazilian corporate television within the current context of hypermedia and analyse how this relationship evolves as it is influenced by the new interactive tools and technologies that amplify the audience's power. Merging empirical practices and theory, this book will be of great interest to scholars and students of transmedia storytelling, television studies, and Latin American media, as well as professionals working in these areas.

Gold, Festivals, and Music in Southeast Brazil Barbara Alge, 2021-07-29 Gold, Festivals, and Music in Southeast Brazil: Sounding Portugueseness is a study of the musical legacy of the eighteenth century Brazilian gold rush that integrates ethnographic research of the main genres of former mining

communities in Brazil – from liturgical music in the style of European art music to Afro-Brazilian musical expressions. Its content and structure are informed by Norbert Elias’s idea of the civilizing process, which is explored regarding its relevance in interpreting sociocultural processes and choreo-musical expressions in the small town of Morro Vermelho. The book’s innovative feature is its focus on a little-known area to non-Brazilian scholars, and its focus on the colonial and European heritage in Brazil. Morro Vermelho’s cultural traditions have received relatively limited attention. The Catholic festival of Our Lady of Nazareth provides a setting for the documentation and analysis of the musical setting and is thus placed at the center of the discussion. It leads through the vast writings on Brazilian identity and challenges the view on Brazilian-ness as constructed in terms of the mixing of races. Norbert Elias’s concept of the civilizing process structures the book and is relevant for understanding the cultural sphere of the festival of Our Lady of Nazareth. The book combines discourses of Portugueseness with historical sources and observations from fieldwork and community building in the virtual world. The focus on the music to support social constructions of Portugueseness is supported with evidence from diverse data sources: music (literature and fieldwork recordings), original interviews, marketing materials and historical narratives. The combination of archival, ethnographic, and bibliographic research methods attempts a seamless narrative. Its approach to fieldwork and frank reflections on the process and relevant issues help to contextualize the analyses and serve as useful advice for future researchers.

Bossa Mundo K.E. Goldschmitt, 2019-09-02 Brazilian music has been central to Brazil's national brand in the U.S. and U.K. since the early 1960s. From bossa nova in 1960s jazz and film, through the 1970s fusion and funk scenes, the world music boom of the late 1980s and the bossa nova remix revival at the turn of the millennium, and on to Brazilian musical distribution and branding in the streaming music era, *Bossa Mundo: Brazilian Music in Transnational Media Industries* focuses on watershed moments of musical breakthrough, exploring what the music may have represented in a particular historical moment alongside its deeper cultural impact. Through a discussion of the political meaning of mass-mediated music, author K. E. Goldschmitt argues for a shift in scholarly focus--from viewing music as simply a representation of Otherness to taking into account the broader media environment where listeners and intermediaries often have conflicting priorities. Goldschmitt demonstrates that the mediation of Brazilian music in an increasingly crowded transnational marketplace has lasting consequences for the creative output celebrated by Brazil. Like other culturally rich countries in Latin America--such as Cuba, Mexico, and Argentina--Brazil has captured the

imagination of people in many parts of the world through its music, driving tourism and international financial investment, while increasing the country's prominence on the world stage Nevertheless, stereotypes of Brazilian music persist, especially those that valorize racial difference. Featuring interviews with key figures in the transnational circulation of Brazilian music, and in-depth discussions of well-known Brazilian musicians alongside artists who redefine what it means to be a Brazilian musician in the twenty-first century, *Bossa Mundo* shows the pernicious effects of branding racial diversity on musicians and audiences alike.

Restyling Factual TV Annette Hill, 2007-06-11 Addressing the wide range of programmes and formats from news, to documentary, to popular factual genres, Annette Hill's new book examines the ways viewers navigate their way through a busy, noisy and constantly changing factual television environment. *Restyling Factual TV* addresses the wide range of programmes that fall within the category of 'factuality', from politics, to natural history, to reality entertainment. Based on research with audiences of factual TV, primarily in Sweden and the UK, but with reference to other countries such as the US, this book tackles issues such as legitimacy, ethics and value in contemporary news and current affairs, documentary and reality programming. Drawing on the ethics of truth-telling and notions of quality, this wide-ranging, authoritative book expands the debate on popular factual entertainment and will be a welcome addition to the current literature.

Modern Brazil Javier A. Galván, 2020-08-04 This book is a crucial reference source for high school and undergraduate college students interested in contemporary Brazil. While it provides a general

historical and cultural background, it also focuses on issues affecting modern Brazil. In recent years, Brazil has come onto the world stage as an economic powerhouse, a leader in Latin America. This latest addition to the Understanding Modern Nations series focuses on Brazil's culture, history, and society. This volume provides readers with a wide understanding of Brazil's historical past, the foundation for its cultural traditions, and an understanding of its social structure. In addition, it provides a look into contemporary society by highlighting both national accomplishments and challenges Brazilians face in the twenty-first century. Specific chapters cover geography; history; government and politics; economy; religion; social classes and ethnicity; gender, marriage and sexuality; education; language; etiquette; literature and drama; arts and architecture; music and dance; food; leisure and sports; and media, cinema, and popular culture. Entries within each chapter look at topics such as cultural icons, economic inequalities, race and ethnicity, soccer, politics, environmental conservation, and women's rights. Ideal for high school and undergraduate students, this volume paints a panoramic overview of one of the most powerful countries in the Americas.

The Brazilian Sound Chris McGowan, Ricardo Pessanha, 1991

News and Novela in Brazilian Media Tania Cantrell Rosas-Moreno, 2014-06-25 Citizens everywhere are turning to multiple news sources to inform their daily decisions. In Brazil, an emerging global power and democracy, those sources include the ever-popular telenovelas and, on a rising basis, newspapers. *News and Novela in Brazilian Media: Fact, Fiction, and National Identity* examines how news issues help frame telenovela plots, comparing key issues across Brazilian media to highlight differing levels of progression associated with press freedom. Scrutiny of concurrent print news stories, print news photos, and telenovela scenes indicate that when a hit telenovela is compared to news, the novela becomes a more progressive storyteller. At least, race, class, gender, and religious news issues seem more progressive: An Afro-Brazilian wins a local election; a favela or shantytown is idealized; a less popular African religion is heralded while Protestantism is marginalized and Catholicism continues as the right religion; and women achieving power leads to a more egalitarian society. In a diversifying media environment, where lines between fact and fiction are increasingly blurred, Brazilian alternative news studies are critical measures of Brazil's state of media opening that inform national identity formation.

Modernization, Nation-Building, and Television History Stewart Anderson, Melissa

Chakars, 2014-11-20 This innovative collection investigates the ways in which television programs around the world have highlighted modernization and encouraged nation-building. It is an attempt to

catalogue and better understand the contours of this phenomenon, which took place as television developed and expanded in different parts of the world between the 1950s and the 1990s. From popular science and adult education shows to news magazines and television plays, few themes so thoroughly penetrated the small screen for so many years as modernization, with television producers and state authorities using television programs to bolster modernization efforts. Contributors analyze the hallmarks of these media efforts: nation-building, consumerism and consumer culture, the education and integration of citizens, and the glorification of the nation's technological achievements.

In 500 entries by 130 contributors from around the world, the volume explores the topic in two parts: Part I: Social and Cultural Dimensions, covers the social phenomena of relevance to the practice of popular music and Part II: The Industry, covers all aspects of the popular music industry, such as copyright, instrumental manufacture, management and marketing, record corporations, studios, companies, and labels. Entries include bibliographies, discographies and filmographies, and an extensive index is provided.

Music/Video Gina Arnold, Daniel Cookney, Kirsty Fairclough, Michael Goddard, 2017-08-30 This book is a lively, comprehensive and timely reader on the music video, capitalising on cross-disciplinary research expertise, which represents a substantial academic engagement with the music video, a mediated form and practice that still remains relatively under-explored in a 21st century context. The music video has remained suspended between two distinct poles. On the one hand, the music video as the visual sheen of late capitalism, at the intersection of celebrity studies and postmodernism. On the other hand, the music video as art, looking to a prehistory of avant-garde film-making while perpetually pushing forward the digital frontier with a taste for anarchy, controversy, and the integration of special effects into a form designed to be disseminated across digital platforms. In this way, the music video virally re-engenders debates about high art and low culture. This collection presents a

comprehensive account of the music video from a contemporary 21st century perspective. This entails revisiting key moments in the canonical history of the music video, exploring its articulations of sexuality and gender, examining its functioning as a form of artistic expression between music, film and video art, and following the music video's dissemination into the digital domain, considering how digital media and social media have come to re-invent the forms and functions of the music video, well beyond the limits of music television†?.

Hello, Hello Brazil Bryan McCann, 2004-05-04 “Hello, hello Brazil” was the standard greeting Brazilian radio announcers of the 1930s used to welcome their audience into an expanding cultural marketplace. New genres like samba and repackaged older ones like choro served as the currency in this marketplace, minted in the capital in Rio de Janeiro and circulated nationally by the burgeoning recording and broadcasting industries. Bryan McCann chronicles the flourishing of Brazilian popular music between the 1920s and the 1950s. Through analysis of the competing projects of composers, producers, bureaucrats, and fans, he shows that Brazilians alternately envisioned popular music as the foundation for a unified national culture and used it as a tool to probe racial and regional divisions. McCann explores the links between the growth of the culture industry, rapid industrialization, and the rise and fall of Getúlio Vargas’s Estado Novo dictatorship. He argues that these processes opened a window of opportunity for the creation of enduring cultural patterns and demonstrates that the understandings of popular music cemented in the mid-twentieth century continue to structure Brazilian cultural life in the early twenty-first.
