## **Linda Applewhite's Architectural Interiors** Linda

Applewhite, 2007 Home design is more than paint and cushions; it's also about good bones. This guide introduces the opportunities that open up by changing a home's structural elements, from windows and doors to fireplaces. A home's architectural details can be worked with to bring out the best in every home, whether adding a pillar to define a space or installing French doors to connect with a garden.

Felder's Comprehensive, 2005 Edition Nick Felder, 2005-07-14

Every industry has its standard professional directory -- advertising has its Black Book, manufacturing its Thomas's Register -- except, that is, for architecture...and design...and construction. While there are dozens of smaller directories, each addressing a specific market niche, none speak to all three industries in a comprehensive way. And larger product directories, like Sweets, are advertising driven and therefore incomplete. Felder's Comprehensive is the first pan-industry guide of its kind, and it is many times more comprehensive than the nearest competitor. It is an annual desk reference, directory, and product source guide with more reference information than any other title currently available. It contains thousands of listings of time-sensitive and timeless reference information for anyone involved in the business or practice of architecture, design, design/build, construction, interior design, facility management, and real-estate development. For example, readers can find listings for more than 12,000 manufacturers of furnishings, fixtures, equipment, and materials listed alphabetically, and, most importantly, by product category. Felder's also lists design competitions, domestic and international trade shows, trade publications and other media, trade associations, professional organizations, and more. Most sections are indexed and cross-referenced for easy referral and identification. Felder's is the first truly comprehensive reference guide of its kind for the A/E/C marketplace and is certain to

become the industry standard.

**Todd Saunders - Architecture in Northern Landscapes** Jonathan Bell, Ellie Stathaki, 2013-01-01 Todd Saunders (1969) is one of the most important young contemporary Canadian architects working internationally. His architecture, simple yet powerful, incorporates elements of his country's architectural identity – including the use of wood and carefully picked Modernist influences – bringing it at the same time into the 21st century with excellent execution, carefully chosen materials and a hands-on approach. Saunders (he lives and works in Bergen, Norway) has successfully executed work in both Canada, Norway, and Finland, creating architecture with a strong sense of northern identity, an individual approach that is informed by the strongness of natural landscape. The most important projects: Aurland Lookout, Long Studio, Fogo Island, Tower Studio, Fogo Island, Squish Studio, Fogo Island and Villa G. The first reference monograph on a remarkable young architect working in Scandinavia and Canada. The monograph provides interesting unpublished documents, curated by Jonathan Bell (Architecture Editor, Wallpaper\* magazine) and Ellie Stathaki (Deputy Architecture Editor, Wallpaper\* magazine) as well as three interviews by Olaf Gipser, Zita Cobb, and Brian MacKay-Lyons. The artwork of the book is by the international renowned graphic designer Henrik Nygren.

**Impressive Architecture Bars** Josep María Minguet, 2012 The design of a nightclub or bar plays a leading role in communicating its identity, attracting customers, and creating an enticing atmosphere. Impressive Architecture Bars introduces contemporary projects from London to Berlin and New York to Tokyo, by both young up-and-coming designers and well-known architects. Extravagant, vibrant, revolutionary or minimalist every project reveals the incredible range of diversity, innovation, and creativity to be found around the world.

**Studio** Sally Coulthard, 2017-03-16 Discover what kind of

stunning spaces for creative work you can build in your own home no matter your budget with this inspirational DIY guide. Art, craft and all things homemade have never been more popular and the trend for working from home continues apace. But it can be tricky to carve out a space in your house that lets you indulge your passion or earn a living from your creativity. Studio and study spaces are special places—full of creative spirit and practical potential—and there’s never been a greater demand for a book that shows you how to carve out a corner that allows you to not only practice your craft, but inspires and facilitates the very work you create. Real-life case studies from seven different countries, ranging from crafters, writers, designers and artists, show readers just what can be achieved on every budget. Many of the studio owners featured have a dedicated and ever-expanding social media following, including fashion designers Kiel James Patrick and Sarah Vickers, woodworker Ariele Alasko, designer Sarah Sherman Samuel, fine artist Lisa Congdon and decor blogger Holly Becker. Detailed chapters outline the vital pieces needed to create a functioning and inspirational studio space, while also taking an in-depth look into different styles of studios for craft and creative activities. With *Studio*, Sally Coulthard shows you that spaces for creativity can be easy to make, look beautiful, and fitted into any home. Praise for *Studio* “A visual feast of a sourcebook . . . features real-life home offices to inspire even the most spatially challenged of us.” —Fabric magazine “A fantastic and inspiring volume.” —Holly Becker “A lovely peek into lots of different creative studios, from potters to knitters, textile designers to fine artist, and every one is a delight.” —The Women’s Room “Working from home has never been so stylish.” —Ham & High

**The De Stijl Environment** Nancy J. Troy, 1983-01 The Dutch magazine *De Stijl*, published from 1917 to 1931, was the focus of a remarkable group of advanced artists and architects who sought to combine their individual talents in collaborative projects that reflected their social and aesthetic ideals. The *De Stijl Environment* explores the group's approach to exterior and interior spaces and to furniture. It treats such themes as color, abstraction, and the corner, and describes the various collaborative efforts within the movement, in particular, the one that produced the *De Stijl* environment. Troy traces its evolution from an architecturally defined space to one determined by coloristic design. Among the painters discussed are Piet Mondrian, Theo van Doesburg, Vilmos Huszar, and Bart van der Liek; the architects include Gerrit Rietveld, Rob van't Hoff, Jan Wils, J. J. P. Oud, and Cornelius van Eesteren. Nancy J. Troy is Associate Professor of Art History, Northwestern University.

**Italian Interiors** Prestinzenza Puglisi, 2014-05-02 Italienische Innenarchitektur zeichnet sich seit Jahrzehnten durch eine besondere Innovationskraft und Risikobereitschaft aus, nicht nur auf der ästhetischen Ebene, sondern auch bei der Verwendung von neuen Materialien und deren Kombination. Bereitwilliger als anderswo werden hier Einflüsse von Kunst und Design aufgegriffen; die Entwerfenden lassen die Grenzen zwischen diesen Disziplinen mal provokativ, mal subtil verschwimmen. Nicht zuletzt deshalb sind ihre Kreationen für die Ausgestaltung von Restaurants und Geschäften, Privatwohnungen und Hotels, Büros und Museen weltweit gefragt und erweisen sich oftmals als Trendsetter. Das Buch zeigt eine Auswahl neuester Entwürfe, die von 2000 bis 2009 in Italien und anderen Ländern, darunter den USA, Frankreich, Großbritannien, Israel und Dubai, realisiert wurden. Unter den vertretenen Architekten und Gestaltern sind Altmeister wie Renzo Piano, Michele De Lucchi und Giorgio Armani, aber auch Vertreter der jungen Generation. Zu den besonderen Merkmalen des Bandes gehört eine umfangreiche Dokumentation durch technische Zeichnungen und Detailfotos.

My students have found this to be an invaluable resource for graphic presentation techniques ranging from traditional hand drawing to advanced computer graphics. It

features an amazingly wide range of examples including both student work and professional work by renowned architects. With the addition of a new chapter on portfolio design, this new edition illustrates the full gamut of graphic communication skills from the conceptual sketch through the documentation of the final portfolio. —Mark A. Pearson, AIA, LEED AP, Associate Professor of Architecture, College of DuPage This book should be in the library of all architecture and design students as well as practicing professionals. The richness and variety of hand-drawn and digital illustrations by students and architects offers deep insight into the many drawing types and methods used today.
