**The Future of the Mind** Michio Kaku,2015-02-17 Michio Kaku, the New York Times bestselling author of *Physics of the Impossible* and *Physics of the Future* tackles the most fascinating and complex object in the known universe: the human brain. The *Future of the Mind* brings a topic that once belonged solely to the province of science fiction into a startling new reality. This scientific tour de force unveils the astonishing research being done in top laboratories around the world—all based on the latest advancements in neuroscience and physics—including recent experiments in telepathy, mind control, avatars, telekinesis, and recording memories and dreams. The *Future of the Mind* is an extraordinary, mind-boggling exploration of the frontiers of neuroscience. Dr. Kaku looks toward the day when we may achieve the ability to upload the human brain to a computer, neuron for neuron; project thoughts and emotions around the world on a brain-net; take a “smart pill” to enhance cognition; send our consciousness across the universe; and push the very limits of immortality.

**The Mastermind** Evan Ratliff,2019 It started as an online prescription drug network, supplying hundreds of millions of dollars' worth of painkillers to American customers. The business turned into a sprawling multinational conglomerate: shipments of methamphetamine from North Korea, weapons deals with Iran, encryption programs so advanced that the government could not break them. The man behind it all, pulling the strings from a laptop in Manila, was Paul Calder Le Roux-- a reclusive programmer turned criminal genius. Ratliff shows how, for a decade, DEA agents played a global game of cat-and-mouse with Le Roux; it took relentless investigative work, and a betrayal from within his organization, to catch him. -- adapted from jacket

**Death Or Glory** Jon Spurling,2010 Jon Spurling has travelled the world to scratch beneath the glossy, confetti-strewn surface of the world's biggest sporting events to uncover their dark secrets. Did Argentina's fascist Junta really bribe Peru with grain and arms to facilitate victory in a crucial match on their way to winning the 1978 World Cup? Which country's players were sent to work in a chicken plucking factory as punishment for a poor result during the 2010 tournament? Part travelogue, part history, *Death or Glory* is based on more than 100 exclusive interviews.

**The Champion's Mind** Jim Afremow,2015-05-15 Even among the most elite performers, certain athletes stand out as a cut above the rest, able to outperform in clutch, game-deciding moments. These athletes prove that raw athletic ability doesn't necessarily translate to a superior on-field experience—its the mental game that matters most. Sports participation—from the recreational to the collegiate Division I level—is at an all-time high. While the caliber of their games may differ, athletes at every level have one thing in common: the desire to excel. In *The Champion's Mind*, sports psychologist Jim Afremow, PhD, offers the same advice he uses with Olympians, Heisman Trophy winners, and professional athletes, including:

- How to get in a zone, thrive on a team, and stay humble
- How to progress within a sport and sustain long-term excellence
- Customizable pre-performance routines to hit full power when the gun goes off or the puck is dropped

With hundreds of useful tips, breakthrough science, and cutting-edge workouts from the world's top trainers, *The Champion's Mind* will help you shape your body to ensure a longer, healthier, happier lifetime.

*The Right to Food Guidelines, Democracy and Citizen Participation* Katharine S. E. Cresswell Riolo,2016-11-10 It is now more than a decade since the Right to Food Guidelines were negotiated, agreed and adopted internationally by states. This book provides a review of its objectives and the extent of success of its implementation. The focus is on the first key guideline – Democracy, good governance, human rights and the rule of law – with an emphasis on civil society participation in global food governance. The five BRICS countries (Brazil, Russia, India, China and South Africa) are presented as case studies: representing major emerging economies, they blur the line between the Global North and South, and exhibit different levels of human rights realisation. The book first provides an overview of the right to adequate food, accountability and democracy, and an introduction to the history of the development of the right to adequate food and the Right to Food Guidelines. It presents a historical synopsis of each of the BRICS states' experiences with the right to adequate food and an analysis of their related periodic reporting to the Committee on Economic, Social and Cultural Rights, as well as a specific assessment of their progress in regard to the first guideline. The discussion then focuses on the effectiveness of the Right to Food Guidelines as both a policy-making and monitoring tool, based on the analysis of the guidelines and the BRICS states.

**Great Power Multilateralism and the Prevention of War** Harald Muller,Carsten Rauch,2017-09-27 Great-power conflict and great-power war are still the most dangerous risks the international community is facing today. This edited volume investigates the feasibility of a modern day concert of powers as a way for managing the risk of great power conflicts in the 21st century. The volume takes its inspiration from history. The 19th century European Concert was not only able to ensure a period of exceptional peacefulness among the European great powers, it also limited the scope and duration of the few wars that did break out. The chapter authors discuss the achievements and limits of the historical concert, define the requirements that a new concert would have to meet, critically evaluate obstacles and risks of the approach and indicate how a 21st century concert of powers could complement, and fit into, the present legal and institutional setting of global politics. This volume offers a systematic examination of the norms and tools of the historical template and scrutinizes these tools for their utility in our time. It will be of great interest to a wide range of scholars and students in areas such as International Relations, History and International Law.

**LBJ: The Mastermind of the JFK Assassination** Phillip F. Nelson,2013-07-01 LBJ aims to prove that Vice President Johnson played an active role in the assassination of President Kennedy and that he began planning his takeover of the U.S. presidency even before being named the vice presidential nominee in 1960. Lyndon B. Johnson's flawed personality and character traits, formed as a child, grew unchecked for the rest of his life as he suffered severe bouts of manic-depressive illness. He successfully hid this disorder from the public as he bartered, stole, and finessed his way through the corridors of power on Capitol Hill, though it's recorded that some of his aides knew of his struggle with bipolar disorder. After years of researching Johnson and the JFK assassination, Phillip F. Nelson conclusively shows that LBJ had an active role in JFK's assassination, and he includes newly-uncovered photographic evidence proving that Johnson knew when and where Kennedy's assassination would take place. Nelson's careful and meticulous research has led him to uncover secrets from one of the greatest unsolved mysteries in our country's history.

**The Mastermind** Evan Ratliff,2019-01-29 The incredible true story of the decade-long quest to bring down Paul Le Roux—the creator of a frighteningly powerful Internet-enabled cartel who merged the ruthlessness of a drug lord with the technological savvy of

a Silicon Valley entrepreneur. “A tour de force of shoe-leather reporting—undertaken, amid threats and menacing, at considerable personal risk.”—Los Angeles Times NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • NPR • Evening Standard • Kirkus Reviews It all started as an online prescription drug network, supplying hundreds of millions of dollars’ worth of painkillers to American customers. It would not stop there. Before long, the business had turned into a sprawling multinational conglomerate engaged in almost every conceivable aspect of criminal mayhem. Yachts carrying \$100 million in cocaine. Safe houses in Hong Kong filled with gold bars. Shipments of methamphetamine from North Korea. Weapons deals with Iran. Mercenary armies in Somalia. Teams of hit men in the Philippines. Encryption programs so advanced that the government could not break them. The man behind it all, pulling the strings from a laptop in Manila, was Paul Calder Le Roux—a reclusive programmer turned criminal genius who could only exist in the networked world of the twenty-first century, and the kind of self-made crime boss that American law enforcement had never imagined. For half a decade, DEA agents played a global game of cat-and-mouse with Le Roux as he left terror and chaos in his wake. Each time they came close, he would slip away. It would take relentless investigative work, and a shocking betrayal from within his organization, to catch him. And when he was finally caught, the story turned again, as Le Roux struck a deal to bring down his own organization and the people he had once employed. Award-winning investigative journalist Evan Ratliff spent four years piecing together this intricate puzzle, chasing Le Roux’s empire and his shadowy henchmen around the world, conducting hundreds of interviews and uncovering thousands of documents. The result is a riveting, unprecedented account of a crime boss built by and for the digital age. Praise for *The Mastermind* “The Mastermind is true crime at its most stark and vivid depiction. Evan Ratliff’s work is well done from beginning to end, paralleling his investigative work with the work of the many federal agents developing the case against LeRoux.”—San Francisco Book Review (five stars) “A wholly engrossing story that joins the worlds of El Chapo and Edward Snowden; both disturbing and memorable.”—Kirkus Reviews (starred review)

**Hatching Twitter** Nick Bilton, 2014-09-30 The dramatic, unlikely story behind the founding of Twitter, by New York Times bestselling author and Vanity Fair special correspondent The San Francisco-based technology company Twitter has become a powerful force in less than ten years. Today it’s everything from a tool for fighting political oppression in the Middle East to a marketing must-have to the world’s living room during live TV events to President Trump’s preferred method of communication. It has hundreds of millions of active users all over the world. But few people know that it nearly fell to pieces early on. In this rousing history that reads like a novel, *Hatching Twitter* takes readers behind the scenes of Twitter’s early exponential growth, following the four hackers—Ev Williams, Jack Dorsey, Biz Stone, and Noah Glass, who created the cultural juggernaut practically by accident. It’s a drama of betrayed friendships and high-stakes power struggles over money, influence, and control over a company that was growing faster than they could ever imagine. Drawing on hundreds of sources, documents, and internal e-mails, Bilton offers a rarely-seen glimpse of the inner workings of technology startups, venture capital, and Silicon Valley culture.

**It’s Time!** Bruce Buffer, 2013-05-14 If you’re reading these words, chances are that you, like me, are a fan of the great sport we call MMA. And if you’re a fan, then you probably recognize my face. Yeah, that’s right—I’m that guy you see at every UFC match, spinning around and roaring into the microphone and getting up in fighters’ grills. Okay, so I might not be the most subtle or refined announcer in the business. But I hope I communicate my passion for the sport in a way no other announcer does. I’ll say it again: Passion. Because that’s what this book is about. In these pages, I want to tell you about the passion that first led me to bet everything on this sport of ours, way back when MMA was outlawed in half the country and there wasn’t a dime to be made on it. I want to tell you how that passion all started, with my larger-than-life father, a former Marine Drill Sergeant who, by the time I was ten, had taught me to play poker and blackjack, field-strip a Luger pistol blindfolded, and recite poetry. He was a man who thought nothing of confronting a group of thugs armed with nothing but his fists—and who expected the same strength and honor from his sons. I want to take you inside the incredible brotherhood that makes up the UFC as nobody ever has before, to tell you about the bond we all share and the crazy times I’ve had over the years with guys like Randy Couture, Tito Ortiz, Chuck Liddell, BJ Penn, and Jon “Bones” Jones. I want to give you my Octagon-side insights on many of the big fights you remember, and just maybe, to tell you about a few memorable fights that took place outside of the octagon, too—from my own sparring match with a youngster named Royce Gracie back before the phrase “Mixed Martial Arts” even existed, to some other brawls you might’ve heard about. And I want to tell you about the remarkable, late-life meeting with the celebrity brother I never knew I had—a brother whose existence my parents had never once breathed a word about!—that helped inspire me to chase my own dreams of standing up in the Octagon. Surprising stuff from the guy in the fancy tux, right? And that’s just the start. There’s a lot you don’t know about me yet. And now... IT’S TIME! I told you.
