Electronic Commerce Efraim Turban, David King, Jae Kyu Lee, Ting-Peng Liang, Deborah C. Turban, 2015-01-29 Throughout the book, theoretical foundations necessary for understanding Electronic Commerce (EC) are presented, ranging from consumer behavior to the economic theory of competition. Furthermore, this book presents the most current topics relating to EC as described by a diversified team of experts in a variety of fields, including a senior vice president of an e-commerce-related company. Additionally, extensive, vivid examples from large corporations, small businesses from different industries, and services, governments, and nonprofit agencies from all over the world make concepts come alive in Electronic Commerce. These examples, which were collected by both academicians and practitioners, show the reader the capabilities of EC, its cost and justification, and the innovative ways corporations are using EC in their operations. In this edition (previous editions published by Pearson/Prentice Hall), the authors bring forth the latest trends in e-commerce, including social businesses, social networking, social collaboration, innovations, and mobility.

The Secret Gospel of Mark Geoffrey S. Smith, Brent C. Landau, 2023-03-21 A groundbreaking account of the Secret Gospel of Mark, one of the most hotly debated documents in Christian history. In 1958, at the ancient Christian monastery of Mar Saba just outside Jerusalem, Columbia University scholar Morton Smith claimed to have unearthed a letter written by the Christian philosopher Clement of Alexandria and containing an excerpt from a previously unknown version of the canonical Gospel of Mark. This excerpt recounts a story of Jesus's apparent sexual encounter with a young, resurrected disciple. In recent years, an influential group of researchers has alleged that no Secret Gospel or letter of Clement existed in antiquity, and that the manuscript that Morton Smith found was a modern forgery--created by none other than Smith himself. In this book, Geoffrey S. Smith and Brent C. Landau enter into the controversy surrounding this document and argue that the Secret Gospel of Mark is neither a first-century alternative gospel nor a twentieth-century forgery by the scholar who announced its discovery. Instead, this account is intimately bound up with the history of Mar Saba, one of the oldest monasteries in the Christian world. In this fascinating work, Smith and Landau present the realities and misconceptions surrounding not only the now-lost manuscript but also its brilliant, enigmatic, and acerbic discoverer, Morton Smith.

Computers Helping People with Special Needs Klaus Miesenberger, Joachim Klaus, Wolfgang Zagler, Arthur Karshmer, 2008-07-04 Welcome to the proceedings of ICCHP 2008. We were proud to

welcome participants from more than 40 countries from all continents to ICCHP. The International Programme Committee, encompassing 102 experts from all over the world, selected 150 full and 40 short papers out of 360 abstracts submitted to ICCHP. Our acceptance rate of about half of the submissions, demonstrates the scientific quality of the programme and in particular the proceedings you have in your hands. An impressive group of experts agreed to organize "Special Thematic Sessions" (STS) for ICCHP 2008. The existence of these STS sessions helped to bring the meeting into sharper focus in several key areas of assistive technology. In turn, this deeper level of focus helped to bring together the state-of-the-art and mainstream technical, social, cultural and political developments. Our keynote speaker, Jim Fruchterman from BeneTech, USA highlighted the importance of giving access to ICT and AT at a global level. In another keynote by Harold Thimbleby, Swansea University, UK, the role of user-centred design and usability engineering in assistive technology and accessibility was addressed. And finally, a combination keynote and panel discussion was reserved for WAI/WCAG2.0, which we expect to be the new reference point for Web accessibility from the summer of 2008 and beyond.

How Consciousness Creates Reality Claus Janew, 2022-06-26 The main argument in this book is the undeniable openness of every system to the unknown. And the fundamental question goes: What does this openness produce? We are a part of the infinite universe and an incorporation of its wholeness. Both for us means an individualized reality, through which the universe expresses itself and on the other hand through which it is built up with. It also means our necessity, importance and indestructibility for the sum of its incorporations. Most connections among ourselves are hardly conscious for us. Meanwhile the infinitesimal structure of all consciousness guarantees not only the logical lack of inconsistency of these connections but also the freedom of choice of every individual. Our goal by no means can be to decide completely consciously. Responsibility contains spontaneity or rather trust in a meaningful working together of the forces. We increasingly become aware of our role in the entire relationship and we learn to contribute optimally to the value fulfillment of all individuals, ourselves included. Beyond the supposed differences between objective and subjective reality, we at some point of awareness comprehend that we create our reality out of our innermost depths.

The P.O.S. Decision Cameron Thomas, Lu Zhang, JaeMin Cha, Jeffrey Beck, 2018 This case study examines the issue of Point of Sale (POS) system adoption and implementation in the context of two independent full service restaurants in Northeast Ohio. The main focus is on the restaurant company Ray's Place, which has locations in Fairlawn and Kent, Ohio. Ray's Place Fairlawn (opened in 2014) adopted a POS system prior to opening. However, some of the beneficial POS data have not been regularly tracked. Ray's Place Kent (Est. 1937) has historically, and still currently utilizes a manual guest check system. The owner and senior management team are now facing the difficult decision of whether Ray's Place Kent should adopt a similar POS system as the one installed at Ray's Place Fairlawn or continue with manual operation.
