Make Time Jake Knapp, John Zeratsky, 2018-09-25 From the New York Times bestselling authors of *Sprint* comes “a unique and engaging read about a proven habit framework [that] readers can apply to each day” (Insider, Best Books to Form New Habits). “If you want to achieve more (without going nuts), read this book.”—Charles Duhigg, author of *The Power of Habit* Nobody ever looked at an empty calendar and said, The best way to spend this time is by cramming it full of meetings! or got to work in the morning and thought, Today I'll spend hours on Facebook! Yet that's exactly what we do. Why? In a world where information refreshes endlessly and the workday feels like a race to react to other people's priorities faster, frazzled and distracted has become our default position. But what if the exhaustion of constant busyness wasn't mandatory? What if you could step off the hamster wheel and start taking control of your time and attention? That's what this book is about. As creators of Google Ventures' renowned design sprint, Jake and John have helped hundreds of teams solve important problems by changing how they work. Building on the success of these sprints and their experience designing ubiquitous tech products from Gmail to YouTube, they spent years experimenting with their own habits and routines, looking for ways to help people optimize their energy, focus, and time. Now they've packaged the most effective tactics into a four-step daily framework that anyone can use to systematically design their days. *Make Time* is not a one-size-fits-all formula. Instead, it offers a customizable menu of bite-size tips and strategies that can be tailored to individual habits and lifestyles. *Make Time* isn't about productivity, or checking off more to-dos. Nor does it propose unrealistic solutions like throwing out your smartphone or swearing off social media. Making time isn't about radically overhauling your lifestyle; it's about making small shifts in your environment to liberate yourself from constant busyness and distraction. A must-read for anyone who has ever thought, If only there were more hours in the day..., *Make Time* will help you stop passively reacting to the demands of the modern world and start intentionally making time for the things that matter.

Holdout Jeffrey Kluger, 2021-08-03 One of Literary Hub's August “Best Sci-Fi and Fantasy Books” | Geek Tyrant's “The Most Highly Anticipated Sci-Fi and Fantasy Books of August 2021” | Gizmodo's “49 New Sci-Fi and Fantasy Books to Keep You Turning Pages in August” When evil forces are going unchecked on Earth, a principled astronaut makes a split-second decision to try to seek justice in the only place she knows how—the International Space Station. Walli Beckwith is a model astronaut. She graduated at the top of her class from the Naval Academy, had a successful career flying fighter jets, and has spent more than three hundred days in space. So when she refuses to leave her post aboard the International Space Station following an accident that forces her fellow astronauts to evacuate, her American and Russian colleagues are mystified. For Walli, the matter at hand feels all too clear and terrifying for her to be worried about ruining her career. She is stuck in a race against time to save a part of the world that seems to have been forgotten—and also the life of the person she loves the most. She will go to any length necessary, using the only tool she has, to accomplish what she knows is right.

Broken News: Journalism in Crisis Roy Santoro, 2018-08-27 *Broken News* will take a look at the crisis facing journalism in America today. It takes an in depth look at fake news, political bias, racism, social media and much more. You will see how layoffs, a failing money model and consolidation are having a major impact on the news you get every day. It is based on my 40 years in local TV news as a producer, writer and investigative journalist. I will take you inside the newsroom to show readers how stories are selected, how video is edited and how the news they see can be manipulated and distorted. You will learn how you can hold your TV station, radio station and newspaper accountable when they make errors or distort the news. *Broken News* is the result of an 18 month investigation of the news business. I talked with news managers, reporters, anchors, writers, critics, academics and the journalism students who will become the next generation of journalists. *Broken News* not only looks at the problems facing the industry, but some of the possible solutions. *Broken News* takes a look at the important issues facing the industry, like the Fairness Doctrine, Equal Time and Net Neutrality. It also takes you inside a working newsroom to see how the long hours, low pay and stress are forcing many of the best and brightest out of the industry. You will learn why news outlets slap breaking news all over every story, how your daily weather forecast is put together and what really happens inside a news control room when a real story happens. *Broken News* takes a disturbing look at sexual harassment and abuse in the news business, how crime is covered, racism and what life is like on the street for the live crews sent out every day to cover the news. It also takes a serious look at how Facebook, Twitter and other forms of social media are contributing the growing culture war in America. Readers will learn how to spot fake news stories, how to avoid websites that are promoting false narratives and how to become better news consumers. *Broken News* also looks at the changing economics of the news industry and how consumers need to learn that good journalism is not free.

Broken News Roy J. Santoro, 2018 *Broken News: Journalism in Crisis* takes an in depth look at many of the difficult issues facing the world of journalism today. *Broken News* takes you inside a real live newsroom to understand how a daily local newscast is put together. You will learn about fake news, political bias, how crime is covered, where the term breaking news is so overused. *Broken News* is based on an 18 month investigation that includes hundreds of interviews with the writers, producers, managers, reporters and anchors who bring you the news every night. It takes a look at the failing money model which is putting many newspapers out of business and forcing your local TV station to work with half the resources they once had.

Who am I to take on such a project? When people say the news media sucks, I am the person they are talking about. I have worked in local TV news for 40 years as a writer, producer and investigative journalist. Broken News will also help you understand the rules and regulations which govern local TV news from the Fairness Doctrine and Equal Time to Net Neutrality and Yellow Journalism. Broken News will tell you what happens inside that live truck when it comes rolling up your street, how your local forecaster puts together their daily forecast and why there is a liberal media and a conservative media in America today. Broken News will show you how crime is covered, look at issues of race in the newsroom and the sexual abuse women sometimes face. Broken News not only looks at the problems facing the industry, but offers solutions.. You will hear from the next generation of journalists leaving college and starting their careers and meet some of the people coming up with alternative sources of news. Most importantly, Broken News will help you understand why good journalism costs money and how good journalism plays such an important role in our democracy. Broken News will also provide you some inside tips on how you can hold your local TV news station accountable when it makes mistakes, distorts the news or fails to serve your community. Broken News is the one book you need to read before you watch the news again and when you are done, you will never look at it the same way again. I spent 18 months talking to reporters, producers, writers, anchors, photojournalists, media critics and others to get a real look at what is happening.

Breaking News Alan Rusbridger,2018-09-06 We are living in a modern world where falsehood regularly seems to overwhelm truth. The ability of billions of people to publish has created a vast amount of unreliable and false news which now competes with and sometimes drowns more established forms of journalism. So where can we look for reliable, verifiable sources of news and information? What does all this mean for democracy? And what will the future hold? Reflecting on his twenty years as editor of the Guardian at a time of unprecedented digital disruption; and his experience of breaking some of the most significant news stories of our time, Alan Rusbridger answers these questions and offers a stirring defence of why quality journalism matters now more than ever.

Mission Road Theodore Iliff,2021-09-21 *Mission Road: A Journalist's Life from Kansas to Kandahar* By: Theodore Iliff In the intimidating and breathtaking Black Forest in Germany, six-year-old Ted Iliff came to a conclusion that would shape his entire adult life: He wants to explore as much of the world as he possibly can. In his gripping and highly entertaining memoir *Mission Road: A Journalist's Life from Kansas to Kandahar*, Iliff shares his journey from being a young and reckless student-journalist at the University of Kansas to joining CNN during its critical developing stages. After reaching his personal goals in both print and broadcast journalism, Ted made the leap to the unlikely path of consulting and teaching, leading him to every corner of the world, from Kosova to Baghdad. Alongside the arc of his own career, Iliff gives a unique insight into the transformation of journalism at the dawn of the twenty-first century, and how it changed through major events like 9/11 and the Iraq and Afghanistan wars.

The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Politics as Usual Michael Margolis,David Resnick,2000-01-24 Cyberspace is no longer a mystery. It has become irrevocably intertwined with everyday life, facilitating everything from reading the news and paying the bills to ordering birthday presents. We are in the midst of a revolution in mass communication, and there now exists the technology for creating new forms of community, empowering citizens, and challenging existing power structures. But will such changes occur? In this fascinating book Michael Margolis and David Resnick ponder the effects of cyberspace on American Politics. Our political system tends to normalize political activity, and thus, the Internet's vast potential could be lost, rendering it just another purveyor of ignored information. This broad examination begins with a history of cyberspace and moves through discussions of parties, political interest groups, candidates, mass media, information dissemination, and commercial uses of the Internet. *Politics as Usual* offers an innovative and exciting look into previously ignored aspects of the Internet and American politics.

Breaking News Martin Fletcher,2008-03-04 Martin Fletcher doesn't claim to be a hero. Yet he didn't flinch, either. During three decades covering wars, revolutions, and natural disasters, Fletcher worked his way from news agency cameraman to top network correspondent, facing down his own fears while facing up to mass killers, warlords, and murderers. With humor and elegance, Fletcher describes his growth from clueless adventurer to grizzled veteran of the world's battlefields. His working philosophy of Get in, get close, get out, get a drink, put him repeatedly in harm's way, but he never lost sight of why he did it. In a world obsessed with celebrities, leaders, and wealth, Fletcher took a different route: he focused on those left behind, those paying the price. He answers the question: Why should we care? These extraordinary, real-life adventure stories each examine different dilemmas facing a foreign correspondent. Can you eat the food of a warlord, who stole it from the starving? Do you listen politely to a terrorist threatening to blow up your children? Do you ask the tough questions of a Khmer Rouge killer, knowing he is your only ticket out of the Cambodian jungle? And above all, how do you stay sane faced with so much pain?

The Radio Handbook John Collins,Arran Bee,2021-03-29 Updated and revised, the fourth edition of The Radio Handbook is a comprehensive guide to the medium of radio and the radio industry in the UK. Featuring new chapters on social media and podcasting, this book offers a thorough breakdown of the knowledge and skills needed to work within the contemporary radio industry. Using examples, case studies and transcripts, it examines the various building blocks that make radio, from music scheduling to news values and from phone-ins to sports commentaries. The latest trends in contemporary audio practice are referenced throughout, including the increased adoption of smartphone technology, further consolidation within commercial radio, and the ongoing debate about the future funding of the BBC against the backdrop of an accelerated move towards remote working, the rise in popularity of podcasting and an ever more crowded media landscape. Combining theory and practice, this textbook is ideally suited for students of radio, media, communications and journalism. It equips readers with the skills they need to not only produce good radio themselves, but to have the knowledge they need to become a critical friend of the medium.

Persecuted Robin Parrish,Daniel Lusko,2014-04-29 The framers of our Constitution meant we were to have freedom of religion, not freedom from religion. --Reverend Billy Graham The Question Is Not If Attempts Will Be Made to Limit Religious Freedoms, But When. And When That Day Comes, Will You Stay Silent? A storm is coming. The most popular evangelist of his day, John Luther, simply wants to share the Gospel and enjoy a quiet life with his family. He never asked to be at the center of a political controversy, but an ill wind has been blowing through the halls of Congress, and supporters of a new religious-equality bill see Luther's endorsement as critical. But when Luther refuses to lend his support, he unknowingly sets in motion an explosive plan bent on destroying his reputation and undermining everything for which he stands. His once-normal life is turned upside down as he becomes a fugitive left with only one dangerous option--putting everything he holds most dear at risk while he fights to expose the truth. It is a mission that brings him face-to-face with the coming storm of persecution that could threaten the very fabric of our nation's freedoms.

Corporate Reputation Mr Graeme Martin,Prof Sir Cary L Cooper CBE,Professor Ronald J Burke,2012-08-28 Increasing media scrutiny, global coverage and communication via the internet means corporate reputation can be damaged quickly, and failing to successfully address challenges to corporate reputation has consequences. Companies generally suffer almost ten times the financial loss from damaged reputations than from whatever fines may be imposed. According to Ernst & Young, the investment community believes up to 50 per cent of a company's value is intangible - based mostly on corporate reputation. So recognizing potential threats, or anticipating risks, emerges as a critical organizational competence. Organizations can regain lost reputations, but recovery takes a long time. Corporate Reputation contains both academic content along with practical contributions, developed by those serving as consultants or working in organizations in the area of corporate reputation and its management or recovery. It covers: why corporate reputation matters, the increase in reputation loss, threats to corporate reputation, monitoring reputation threats online and offline, the key role of leadership in reputation recovery, and making corporate reputation immune from threats. Any book that is going to do justice to a subject that is so complex and intangible needs imagination, depth and range, and this is exactly what the contributors bring with them.
