Memories of a Lacerated Heart (1971) Major Iftikhar-Ud-Din Ahmad (Retired), 2017-03-30 *Memories of a Lacerated Heart* gives us a painful insight into one of the most brutal and historically under-reported wars, and its effects not just on the country but on the mind of a patriotic and unassuming army officer. In 1947 the Indian subcontinent was split into two countries, India and Pakistan. East and West Pakistan were geographically separated by the larger nation of India and the country was ruled by martial law for the first 25 years after gaining independence. The governing of the two wings of the country, hundreds of miles apart, was a logistical challenge and the cultural, economic, geographical and language differences became divisive. East Pakistan had the larger population, albeit in a smaller area, but West Pakistan held the political and economic power. East Pakistan secured the majority of seats in the 1970 elections but, despite winning the majority vote, it was deprived of the right to govern. This led to a bloody civil war that later escalated into a conflict between Pakistan and India. This is the memoir of one Pakistani Army officer who witnessed the events first-hand and suffered as a consequence of being a patriotic young company commander who passionately wanted to prevent the break-up of his country. It is a formal collection of his diary entries documenting his experiences during the civil war, the subsequent conflict with India, and as a prisoner of war. While still a war memoir, it is also the raw and heartfelt account of a man separated by duty from his loved ones, and ordered, along with his young soldiers, to fight a pointless war ruthlessly orchestrated by generals and politicians.

One Road, Many Dreams Daniel Drache, A T Kingsmith, Duan Qi, 2019-07-11 One Belt, One Road is China's bold plan to remake the global economy. It's an ambitious strategy with a \$2 trillion – and rising – budget. The objective? To challenge the existing economic and political world order. One Road, Many Dreams reveals the true extent of China's ambition, analyses the impact of the One Belt, One Road initiative and assesses its chances of success and failure. This is the Asian century and China has a plan – to remake the world economy. Under its audacious One Belt, One Road strategy, China is investing trillions of dollars in hundreds of projects all around the globe. It's buying up ports, building transport networks and constructing major infrastructure. From hydroelectric plants to oil pipelines, China supplies the labour if needed, the raw materials and the finance, creating customers and boosting its own economy in the process. More than 80 nations have already joined China's increasingly less exclusive club and by 2049, when One Belt, One Road is set to end, its number of members is likely to rival the UN. So far, China has exercised its soft power of debt diplomacy and financial might shrewdly, serving the planet's overlooked middle-income and poor countries. The rest of the world needs to wake up because the scale of One Belt, One Road is unprecedented. Its implications for the global structure of power are potentially seismic as the geopolitical ties between Europe and Asia deepen. Written by three highly regarded political economists, One Road, Many Dreams examines the One Belt, One Road initiative from all angles. It looks at the projects and the players, the alliances and the governance. It explores the opportunities for China and the threat to the West, particularly for Trump's isolationist US administration. At home and abroad, China is staking its credibility as a superpower on One Belt, One Road. Its resources appear limitless, but One Road, Many Dreams asks a tough question: has China overreached? Or can it really pull this off and remake the world economy in its own interests?

Examining Internet and Technology around the World Laura M. Steckman, 2020-12-02 This book offers comparative insights into the challenges and opportunities surrounding emerging technology and the internet as it is used and perceived throughout the world, providing students with cross-cultural and cross-national perspectives. The United Arab Emirates has a national goal of colonizing Mars by 2117, and China seeks to modernize its entire manufacturing process to produce cutting-edge technologies and research advances by 2025. How are other countries using the internet and

emerging technologies to their advantage? This volume in the Global Viewpoints series examines 10 issues pertaining to the internet and technology, including access and censorship, alternative energy technologies, artificial intelligence, autonomous robots, cyberbullying, cybercrime, e-learning, GMOs, online privacy, and virtual and augmented reality. For each topic, the volume features eight country-level perspectives that span the world to allow for comparisons of different nations' specific approaches to the technology or issue. This encyclopedia takes a new direction in understanding the importance and impact of emerging technologies on the world, showing that even when experiencing similar technologically related challenges or advances, these technologies do not form one-size-fits-all solutions for every nation and population. Even when nations develop similar technologies, human dimensions—from policy to social norms to culture—influence people and society across the world differently.

Sea Breeze and Local Winds John E. Simpson,1994-06-02 The sea breeze affects our lives in many ways. It controls our local weather, not only on the coast but also in many districts inland. Air pollution and smog, also the distribution of airborne insect pests and the spread of pollen are all controlled by the sea breeze. In the world of sport it is important to glider pilots, sailors and surfers, and balloonists. In the book we see how radar, lidar and satellite photography have helped to forecast and map sea breezes and the all-important 'sea-breeze front'. The book ends with a description of laboratory experiments mostly carried out by the author and his co-workers, and a simple summary of theoretical models. The book will be welcomed by those researching in the subject but will also be valuable to the general reader who is interested in local weather and the natural environment.

Where Men Win Glory Jon Krakauer,2010-07-27 NATIONAL BESTSELLER • A gripping book about this extraordinary man who lived passionately and died unnecessarily (USA Today) in post-9/11 Afghanistan, from the bestselling author of *Into the Wild* and *Into Thin Air*. In 2002, Pat Tillman walked away from a multimillion-dollar NFL contract to join the Army and became an icon of American patriotism. When he was killed in Afghanistan two years later, a legend was born. But the real Pat Tillman was much more remarkable, and considerably more complicated than the public knew. Sent first to Iraq—a war he would openly declare was “illegal as hell” —and eventually to Afghanistan, Tillman was driven by emotionally charged, sometimes contradictory notions of duty, honor, justice, and masculine pride, and he was determined to serve his entire three-year commitment. But on April 22, 2004, his life would end in a barrage of bullets fired by his fellow soldiers. Though obvious to most of the two dozen soldiers on the scene that a ranger in Tillman’s own platoon had fired the fatal shots, the Army aggressively maneuvered to keep this information from Tillman’s family and the American public for five weeks following his death. During this time, President Bush used Tillman’s name to promote his administration’s foreign policy. Long after Tillman’s nationally televised memorial service, the Army grudgingly notified his closest relatives that he had “probably” been killed by friendly fire while it continued to dissemble about the details of his death and who was responsible. Drawing on Tillman’s journals and letters and countless interviews with those who knew him and extensive research in Afghanistan, Jon Krakauer chronicles Tillman’s riveting, tragic odyssey in engrossing detail highlighting his remarkable character and personality while closely examining the murky, heartbreaking circumstances of his death. Infused with the power and authenticity readers have come to expect from Krakauer’s storytelling, *Where Men Win Glory* exposes shattering truths about men and war. This edition has been updated to reflect new developments and includes new material obtained through the Freedom of Information Act.

Pakistan's Drift into Extremism Hassan Abbas,2015-03-26 This book examines the rise of religious extremism in Pakistan, particularly since 1947, and analyzes its connections to the Pakistani army's corporate interests and U.S.-Pakistan relations. It includes profiles of leading Pakistani militant groups with details of their origins, development, and capabilities. The author begins with an historical overview of the introduction of Islam to the Indian sub-continent in 712 AD, and brings the story up to the present by describing President Musharraf's handling of the war on terror. He

provides a detailed account of the political developments in Pakistan since 1947 with a focus on the influence of religious and military forces. He also discusses regional politics, Pakistan's attempt to gain nuclear power status, and U.S.-Pakistan relations, and offers predictions for Pakistan's domestic and regional prospects.

Pakistan at Seventy-Five Andrea Fleschenberg, Sarah Holz, Arslan Waheed, 2023-04-01 *Pakistan at Seventy-Five* investigates the country's multi-layered issues in the context of a post-colonial polity marked by diversity, heterogeneity, stratification and volatility. This wide-ranging discourse engages with diverse formal and informal actors as markers of identity, historical events and social conditions, as well as global geo-political and neo-colonial centreperiphery relations that shape narratives about the nation and the constructions of a sense of belonging. The editors and contributors utilise multi-faceted and multi-layered approaches, focusing on (1) identities, and questions of diversity and pluralism; (2) horizontal and vertical technologies and geographies of power related to questions of trust, legitimacy, participation, and governance; and (3) the distribution, deprivation and vulnerability of sociocultural, political, and human resources. Studying Pakistan has been subject to different approaches, including decolonial, indigenous, and feminist perspectives. This volume draws out alternative epistemological and methodological viewpoints: the insideroutsider conundrum, centreperiphery asymmetries, hegemonic discourses, and practices within Pakistan's national/international academy. The chapter contributions are the outcome of a unique interdisciplinary research cooperation at Quaid-i-Azam University, focussing on early career researchers. Presenting a multiplicity of voices and trajectories, *Pakistan at Seventy-Five* provides new input to existing debates and directions for future scholarly endeavour.

Pakistan at Seventy Shahid Javed Burki, Iftekhar Ahmed Chowdhury, Asad Ejaz Butt, 2019-06-07 This handbook examines Pakistan's 70-year history from a number of different perspectives. When Pakistan was born, it did not have a capital, a functioning government or a central bank. The country lacked a skilled workforce. While the state was in the process of being established, eight million Muslim refugees arrived from India, who had to be absorbed into a population of 24 million people. However, within 15 years, Pakistan was the fastest growing and transforming economy in the developing world, although the political evolution of the country during this period was not equally successful. Pakistan has vast agricultural and human resources, and its location promises trade, investment and other opportunities. Chapters in the volume, written by experts in the field, examine government and politics, economics, foreign policy and environmental issues, as well as social aspects of Pakistan's development, including the media, technology, gender and education. Shahid Javed Burki is an economist who has been a member of the faculty at Harvard University, USA, and Chief Economist, Planning and Development Department, Government of the Punjab. He has also served as Minister of Finance in the Government of Pakistan, and has written a number of books, and journal and newspaper articles. He joined the World Bank in 1974 as a senior economist and went on to serve in several senior positions. He was the (first) Director of the China Department (1987-94) and served as the Regional Vice-President for Latin America and the Caribbean during 1994-99. He is currently the Chair of the Board of Directors of the Shahid Javed Burki Institute of Public Policy at NetSol (BIPP) in Lahore. Iftekhar Ahmed Chowdhury is a career Bangladeshi diplomat and former Minister of Foreign Affairs in the Government of Bangladesh (2007-08). He has a PhD in international relations from the Australian National University, Canberra. He began his career as a member of the civil service of Pakistan in 1969. Dr Chowdhury has held senior diplomatic positions in the course of his career, including as Permanent Representative of Bangladesh to the United Nations in New York (2001-07) and in Geneva (1996-2001), and was ambassador to Qatar, Chile, Peru and the Vatican. He is currently a visiting senior research fellow at the Institute of South Asian Studies, National University of Singapore. Asad Ejaz Butt is the Director of the Burki Institute of Public Policy, Lahore, Pakistan.

The Christians of Pakistan Linda Walbridge,2012-10-12 In May 1998, John Joseph, the first native Pakistani Catholic bishop, shot himself in front of the courthouse where a Christian had been sentenced to death for blasphemy. This book tells the story of the Christians in Pakistan, with Bishop Joseph as its centrepiece. It is an account of outcastes who sought hope through Christianity, but who now find themselves victims of a struggle to define Islam in Pakistan. The majority of Pakistani Christians are descendants of untouchables converted to Christianity in the late 19th century. In Pakistan a minority religion is linked with low status, perpetuating the Indian Hindu caste system even though the Muslim majority has disassociated itself from all things Hindu and Indian. The book also deals with enculturation in the Pakistani church, the rise of native clergy, conflicts between the local church and Rome, the rise of 'fundamentalist' Islam and the position of women in society and church.

My Life:living Through Pakistan's Traumas Muhammad-Najm Akbar,2010-09-17 In this autobiographical, historical and analytical perspective on Pakistan, Najm takes a closer look at the judicial revolution in Pakistan. Pakistani Judiciary becomes the reader's navigator through meandering paths of Pakistan's internal battles for institutional growth. This is also a diplomat's view of the socio-historical evolution of Pakistan. His outlook combines an insider's insights and limitations with an extensive historical and cultural learning process that includes living, working and pursuing academic interests abroad. He also unravels fundamental contradictions that militate against emergence of equitable educational opportunities in Pakistan. He meets thus a general reader, a policy maker, legal community abroad and at home, democracy advocates, the Diaspora, the students and analysts on their turf. Born in Multan, Pakistan, Najm is currently a candidate for MA in Law and Diplomacy, at The Fletcher School of Law and Diplomacy, Tufts University.

The Nine Lives of Pakistan: Dispatches from a Precarious State Declan Walsh,2020-11-17 Winner of the 2021 Overseas Press Club of America Cornelius Ryan Award The former New York Times Pakistan bureau chief paints an arresting, up-close portrait of a fractured country. Declan Walsh is one of the New York Times's most distinguished international correspondents. His electrifying portrait of Pakistan over a tumultuous decade captures the sweep of this strange, wondrous, and benighted country through the dramatic lives of nine fascinating individuals. On assignment as the country careened between crises, Walsh traveled from the raucous port of Karachi to the salons of Lahore, and from Baluchistan to the mountains of Waziristan. He met a diverse cast of extraordinary Pakistanis—a chieftain readying for war at his desert fort, a retired spy skulking through the borderlands, and a crusading lawyer risking death for her beliefs, among others. Through these “nine lives” he describes a country on the brink—a place of creeping extremism and political chaos, but also personal bravery and dogged idealism that defy easy stereotypes. Unbeknownst to Walsh, however, an intelligence agent was tracking him. Written in the aftermath of Walsh's abrupt deportation, The Nine Lives of Pakistan concludes with an astonishing encounter with that agent, and his revelations about Pakistan's powerful security state. Intimate and complex, attuned to the centrifugal forces of history, identity, and faith, The Nine Lives of Pakistan offers an unflinching account of life in a precarious, vital country.
